

Why does ethnopolitical conflict sometimes lead to genocide and other times to peace?

Ethnopolitical Warfare

*Causes, Consequences,
and Possible Solutions*

*Edited by Daniel Chirot, PhD,
and Martin Seligman, PhD*

In this timely volume, political scientists, psychologists, sociologists, and historians examine over a dozen international cases to try to understand what causes a society's ethnic conflicts to escalate or deescalate. This unique book contains cogent critiques of the political and historical antecedents to conflict around the world, combining them with psychological analyses of group identity and intergroup conflict.

In examining the escalation of ethnic conflict, the authors highlight the critical role of group identification and the impact of threatened economic resources, violent political subcultures, and media manipulation. This book illustrates the promise that an interdisciplinary approach has to offer in understanding genocide and ethnic warfare in the 21st century.

UNSETTLING MEMORIES

Narratives of the Emergency in Delhi

EMMA TARLO

This richly detailed ethnographic work tells the story of a period known in India as the Emergency (1975-1979). Adding to the growing body of literature that seeks to work against areas of collective silence, it provides extraordinary documentation on state practices by drawing on interviews and little-studied archival material.

KEEPING THE PEACE

LASTING
SOLUTIONS
TO ETHNIC
CONFLICTS

DANIEL L. BYMAN

"Daniel Byman combines superior scholarship with pragmatic policy analysis in this excellent survey of ethnic conflict. His analysis of alternative policy responses to ethnic conflict problems—the heart of the study—is systematic, thoughtful, and balanced. He reminds us that, although crafting peace is difficult, it is not always impossible. This book advances both scholarship and the prospects for ethnic peace."

—**Michael E. Brown, Director, Center for Peace and Security Studies, Edmund A. Walsh School of Foreign Service, Georgetown University**

"A lucid and clear-eyed account of the options available for managing ethnic conflict. This pragmatic and thoughtful book lays out both the promise, and perhaps most usefully, the pitfalls of various strategies. It does not shy away from discussion of policies, including coercion, manipulation, and partition, that are less than ideal but that in some cases may offer the best chance of breaking cycles of bloodshed. This is a must-read for anyone, scholars or practitioners, interested in curbing the recurrent violence of ethnic strife."—**Page Fortna, Institute for War and Peace Studies, Columbia University**

"Daniel Byman's *Keeping the Peace* is an immensely learned and informative book. Byman assesses five contending approaches to resolving ethnic civil war—coercing combatants toward peace, coopting them, nurturing identity change among combatants, political participation for combatants, and partition. His writing is clear, his conclusions are judicious, and his policy recommendations are both clever and practical. This study is important reading for students of civil war, conflict resolution, and the Middle East; and for policy makers who face the task of resolving ethnic civil wars."

—**Stephen Van Evera, Massachusetts Institute of Technology**

"*Keeping the Peace* offers a broad-gauge analytic framework for governments facing serious (i.e., violent) ethnic conflict. As such, it does a better job than any book currently available of separating what we know, what we don't know, and what we should by now know is completely wrong. Byman's command of the theoretical literature is good, and the book is well-organized."—**Chaim Kaufmann, Lehigh University**

The Georgetown Book Prize in International Relations

The Georgetown Book Prize in International Relations is awarded annually by the Mortara Center for International Studies in the Edmund A. Walsh School of Foreign Service and the Department of Government of Georgetown University in memory of Joseph S. Leggold, Associate Professor of Government and International Relations (1954-2001). The prize, which includes a \$1,000 honorarium and an invitation to address a gathering in honor of the recipient, is awarded to the author of the book, published during the preceding calendar year, which makes an exceptional contribution to the study of international relations and international security studies.

We invite submissions from publishers and from third parties. The competition is restricted to single and co-authored books. Edited volumes will not be considered and books must be published in English. Eligible books for the 2002 award must be copyrighted in 2001.

Nominations will be accepted until August 1, 2002. Letters of nomination by publishers or by third parties accompanied by three nonreturnable copies of the book should be sent to the address below. Selection for the Georgetown Prize is made by a faculty committee on the basis of books submitted.

Submissions should be sent to:

Georgetown Book Prize Committee
Attn: Maria Snyder
Department of Government
Suite 681 InterCultural Center
Georgetown University
Washington, DC 20057-1034

MILLENNIAL REFLECTIONS

on International Studies

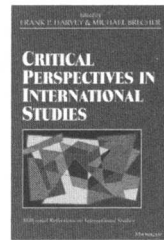

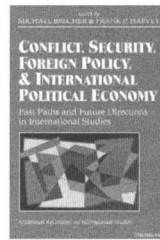

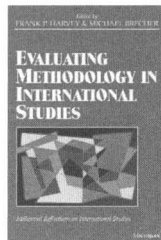

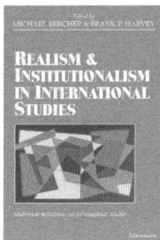

Edited by Michael Brecher and Frank Harvey

Available in August

Forty-five prominent scholars engage in self-critical, state-of-the-art reflection on international studies to stimulate debates about successes and failures and to address the larger question of progress in the discipline. Written especially for the collection, these essays are in hardcover in the form of an easy-to-use handbook, and in paperback as a number of separate titles, each of which consists of a particular thematic cluster to merge with the range of topics taught in undergraduate and graduate courses in international studies.

New from Princeton

Democracies at War Dan Reiter and Allan C. Stam

Why do democracies win wars? A traditional view—expressed most famously by Alexis de Tocqueville—has been that democracies are inferior in crafting foreign policy and fighting wars. In this first major study of its kind, Dan Reiter and Allan Stam come to a very different conclusion. Complementing their wide-ranging case-study analysis, the authors apply innovative statistical tests and new hypotheses.

“This is currently the best book on the security policies of democratic states and the big one everyone concerned with the topic will have to read immediately. It contains the most rigorous logic, the richest set of evidence, and the widest scope.”

—Bruce Russett, Yale University

Committing to Peace

The Successful Settlement of Civil Wars

Barbara F. Walter

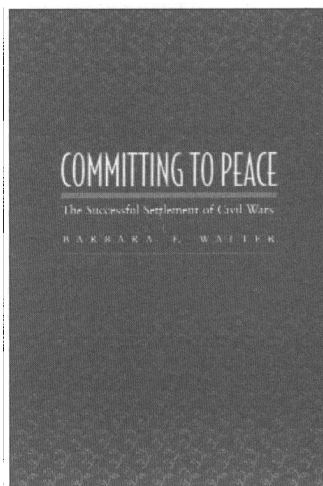

Why do some civil wars end in successfully implemented peace settlements while others are fought to the finish? Using data on every civil war fought between 1940 and 1992, Barbara Walter details the conditions that lead combatants to partake in what she defines as a three-step process. Her key finding: rarely are such conflicts resolved without active third-party intervention.

“This is an important book in an area that is rapidly becoming central to both policy and theoretical concerns.... Walter’s distinction of three phases of settlement is a significant theoretical step forward.”

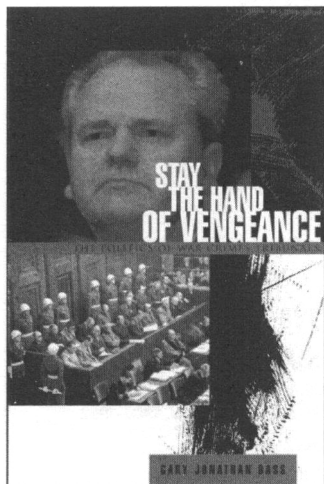

—Roy Licklider, Rutgers University
