VOLUME 20, PART 2 JULY 1979

Glasgow Mathematical Journal

CONTENTS

Mario Petrich, Congruences on simple ω-semigroups 87
W. W. Stothers, Diagrams associated with subgroups of Fuchsian groups 103
Owen H. Fraser and Basil Gordon, Solution to a problem of A. D. Sands 115
Louis H. Blake, Convergent processes, projective systems of measures and martingale decompositions 119
A. W. Chatters, A note on Noetherian orders in Artinian rings 125
N. J. Young, Linear fractional transforms of companion matrices 129
T. E. Hall and W. D. Munn, Semigroups satisfying minimal conditions II 133
P. M. Cohn, On the decomposition of a field as a tensor product 141
D. H. Armitage, On the derivatives at the origin of entire harmonic functions 147
J. M. Anderson, Asymptotic values of meromorphic functions of smooth growth 155
Che-Kao Fong, Normal operators on Banach spaces 163
Harald Niederreiter and Jau-Shyong Shiue, Uniform distribution of sequences in rings of integral matrices 169

GLASGOW MATHEMATICAL JOURNAL

The *Glasgow Mathematical Journal* is a continuation of the *Proceedings of the Glasgow Mathematical Association*, founded in 1952 by the late Professor T. M. MacRobert. It is published with the support of the University Court of the University of Glasgow. The *Glasgow Mathematical Journal* is published in Parts twice yearly, in January and July; two Parts complete a Volume of approximately 200 pages.

The prepaid subscription for each Volume is £12·00 in U.K., $25.00 in U.S.A., post free. Single parts may be supplied at a cost of £6·00 in U.K., $12.50 in U.S.A., net.

Copies may be ordered direct from the publisher or from any bookseller.

Information for Contributors

While the *Glasgow Mathematical Journal* is intended primarily for Pure Mathematics, papers on Applied Mathematics will also be accepted. Manuscripts from all parts of the world will be welcomed and given careful consideration.

Manuscripts, preferably typed, should be prepared so as to conform with the practice in current numbers of the *Journal*, especially with regard to line illustrations, references, tables and summaries. The name of the author and the date of the receipt of the manuscript will be printed under the title. Text figures must be suitable for line block reproduction, lettered in pencil, numbered, and separated from the text but allocated clearly to sections of the text.

References should be placed at the end of the paper, arranged and numbered in alphabetical order. In the text, reference numbers should be enclosed in square brackets and underlined, to distinguish them from formula numbers, which should be quoted in round brackets. The following particulars should be given, in the order indicated:

for references to books—*author, title, edition, place of publication, year of publication, page reference*;

for references to articles in periodicals—*author, title of article, short title of periodical, series no.* (if any), *volume no., year, pagination.*

A proof is supplied once in galley form, together with an Order Form for offprints. Offprints are supplied free to the number of twenty-five; additional copies, if ordered prior to publication, will be supplied, at cost, at the request of the contributor. Excessive corrections may be charged to the author.

Manuscripts should be sent to:
