

Introduction to the New Testament

WILLI MARXSEN

Translated by G. BUSWELL

Traditional manuals have often been overcrowded with historical facts which have tended to obscure issues of central importance for exegesis. Detail has therefore been strictly limited and comparison with other viewpoints has been restricted to keep the material within reasonable proportions.

Gnosis and the New Testament

R. McL. WILSON

The book presents, in non-technical terms, a review of the present situation in the study of Gnosticism and the New Testament, and provides an introduction to the new Gnostic documents so far published, showing their significance, the problems they have helped to solve, and the new questions which they raise.

The Divine Apostle

The Interpretation of St Paul's Epistles
in the Early Church

MAURICE F. WILES

Mr Wiles examines the way in which Paul was understood by the Greek and Latin Fathers, among them Origen, Chrysostom, Jerome and Augustine, and questions whether they were as insensitive to his teaching about grace as is often claimed. The Pauline teaching on grace and faith was a crucial issue in the Reformation. This historical study of early Pauline exegesis is therefore particularly appropriate at a time of ecumenical discussion.

Christian History and Interpretation

Studies presented to John Knox

Edited by **W. R. FARMER,**
C. F. D. MOULE and **RICHARD**
R. NIEBUHR

John Knox, formerly Baldwin Professor of Sacred Literature, Union Theological Seminary, New York, is one of the most influential American theologians. This collection of studies is unified by two main themes in his work: the historicity, humanity and divinity of Christ; and the interpretation of Paul.
