Public Moralists

Political Thought and Intellectual
Life in Britain, 1850-1930

STEFAN COLLINI, *Cambridge University*

Exploring the moral sensibilities and cultural assumptions that were at the heart of political debate in Victorian and early twentieth-century Britain, Collini focuses on the role of intellectuals as public moralists and suggests ways in which their more formal political theory rested upon habits of response and evaluation that were deeply embedded in wider social attitudes and aesthetic judgments.

The Age of Atonement

The Influence of Evangelicalism
on Social and Economic Thought,
1785-1865

BOYD HILTON, *Cambridge University*

"Once the envy subsides, religious historians who open this extraordinary and arresting book will be strongly tempted to read it twice: once for the persuasive argument it makes about its subject, and a second time for the sheer pleasure of observing intellectual history...practiced at the very highest levels of insight and erudition."—*Church History*

The Discovery of Childhood in Puritan England

C. John Sommerville

This study is not so much about Puritan children or families as it is about Puritan "childhood," that self-reflective amalgamation of contemporary adult assumptions, hopes, and concerns about the young—especially in seventeenth-century England. Basing his study on children's books, child-rearing manuals, biographies, catechisms, and educational and theological treatises, C. John Sommerville challenges many prevailing views on the nature and degree of the Puritan interest in children.

'The Virtuoso Tribe of Arts and Sciences'

Studies in the Eighteenth-Century Work and Membership of the London Society of Arts

Edited by D. G. C. Allan and John L. Abbott

Drawing together twenty essays by British, American, and European scholars, this volume deals with the early history of the distinguished organization now known as the Royal Society for the Encouragement of Arts, Manufactures and Commerce (or RSA). The book illuminates the RSA's origins, defines its principal features, and suggests the range of its contributions during its founding century.

Burke and the French Revolution

Bicentennial Essays

Edited by Steven Blakemore

In his 1790 work *Reflections on the Revolution in France*, Edmund Burke became the first prominent intellectual to question critically the French Revolution and its course. Published to coincide with the bicentennial of both the Revolution and Burke's antirevolutionary opus, this book features essays by six scholars who approach both subjects from a variety of perspectives and methodologies.

Lady Inspectors

The Campaign for a Better Workplace, 1893–1921

Mary Drake McFeely

"A well-researched readable account of a heretofore neglected aspect of the history of British working women: the government experiment in sending middle-class inspectors into factories, workshops, and courtrooms to investigate and enforce existing protective legislation. . . . An important case study of class and gender relations."—*Library Journal*
