

**Copying.** This journal is registered with the Copyright Clearance Center, 27 Congress Street, Salem, Mass. 01970. Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of the US copyright law) subject to payment to C.C.C. of the per-copy fee of \$5.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0007-1145/93 \$5.00 + .00. Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions.

*ISI Tear Sheet Service*, 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

*For all other use*, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

**The Proceedings of the Nutrition Society**, published by the Cambridge University Press, in part record meetings of the Symposium type, at which experts in a particular field are invited by Council to make contributions on specific parts of it and at which general discussion follows these invited contributions. The contributions will be published *in extenso*; such summaries of the ensuing discussions as circumstances warrant may also be published. The Society also holds scientific meetings at which papers are communicated by members and others on original work carried out by them. It is proposed at present to publish summaries of the papers read at each meeting, each communication being recorded in the Society's *Proceedings* by means of an abstract not exceeding in length 400 words or the equivalent space in print. The *Proceedings* are published three times a year.

The subscription to the *Proceedings* is £109.00 net (US \$217.00 in USA, Canada and Mexico). Single issues are £38.00 (US \$74.00 in the USA, Canada and Mexico) each; postage extra.

CONTENTS

**Editorial**

Development of the Journal. *D. A. T. Southgate* 665-666

**Dietary Effects on Energy Metabolism**

Protein and energy relationships in the broiler chicken 11. Effects of protein quantity and quality on metabolism. *R. W. Rosebrough & J. P. McMurtry* 667-678

Effect of level of input of different proportions of volatile fatty acids on energy utilization in ruminants. *E. R. Ørskov & N. A. MacLeod* 679-687

**Seasonal Effects on Body Weight and Metabolism**

Seasonal weight loss and metabolic adaptation in rural Beninese women: the relationship with body mass index. *J. Werner Schultink, Joop M. A. van Raaij & Joseph G. A. J. Hautvast* 689-700

**Effects of Body Weight, Feed Intake and Tannins on Digestibility**

A comparison of effects of body weight and feed intake on digestion in broiler cockerels with effects of tannins. *Sultan Mahmood & Ron Smithard* 701-709

**Ileal Digestion of Methionine**

Utilization of ileal digestible amino acids by growing pigs: methionine. *E. S. Batterham, L. M. Andersen & D. R. Baigent* 711-720

**Lipid Metabolism**

Dietary cholesterol lowers the activity of butyrylcholinesterase (*EC* 3.1.1.8), but elevates that of esterase-1 (*EC* 3.1.1.1) in plasma of rats. *H. A. van Lith & A. C. Beynen* 721-726

Pretranslational regulation of the expression of the lipoprotein lipase (*EC* 3.1.1.34) gene by dietary fatty acids in the rat. *M. C. Murphy, A. Zampelas, S. M. Puddicombe, N. P. Furlonger, L. M. Morgan & C. M. Williams* 727-736

Inter- and intra-fat pad variation in vascularization and the release of <sup>14</sup>C-labelled fatty acids in mice. *M. J. Gibney & J. Kearney* 737-745

**Effects of Lactose and Lactulose on Magnesium Absorption**

Ileal pH and apparent absorption of magnesium in rats fed diets containing either lactose or lactulose. *Astrid M. P. Heijnen, Elizabeth J. Brink, Arnoldina G. Lemmens & Anton C. Beynen* 747-756

**Complex Carbohydrates and Lipid Metabolism**

Sugar-beet fibre increases cholesterol and reduces bile acid excretion from the small bowel. *Anna Maria Langkilde, Henrik Andersson & Ingvar Bosaeus* 757-766

Effects of oat-bran concentrate on rat serum lipids and liver fat infiltration. *Y. Mäilki, R. Törrönen, K. Pelkonen, O. Myllymäki, O. Hänninen & K. Syrjänen* 767-776

**Interactions between Vitamin A Intake and Iron Status**

Iron status in rats fed on diets containing marginal amounts of vitamin A. *K. W. Sijtsma, G. J. Van Den Berg, A. G. Lemmens, C. E. West & A. C. Beynen* 777-785
