# Journal of Pension Economics & Finance

## Editors

Steven Haberman, *Cass Business School, UK*

Moshe Milevsky, *York University, Canada*

J. Michael Orszag, *Watson Wyatt, UK*

The *Journal of Pension Economics & Finance (JPEF)* is the only academic journal focusing on the economics and finance of pensions and retirement income. The ageing population, together with the shrinking workforce, heralds a growing pensions crisis, which has become a key public policy issue in developed countries and elsewhere. *JPEF* provides a valuable and influential forum for international debate in this area.

The journal publishes original research papers, covering a variety of topics, including pension fund management, the regulation of pensions, and pensions and labour markets.

# Philosophy

Published for the Royal Institute of Philosophy

## Editor

Anthony O'Hear, *University of Buckingham, UK*

*Philosophy* is the journal of the Royal Institute of Philosophy, which was founded in 1925 to build bridges between specialist philosophers and a wider educated public. The journal continues to fulfil a dual role: it is one of the leading academic journals of philosophy, but it also serves the philosophical interests of specialists in other fields (law, language, literature and the arts, medicine, politics, religion, science, education, psychology, history) and those of the general reader. Contributors are required to avoid needless technicality of language and presentation. Each issue contains an editorial on a topic of philosophical or public interest, and a 'New Books' section.

The institutional subscription includes two supplements and a subscription to *Think*.

# Think

Philosophy for everyone

Published for the Royal Institute of Philosophy

## Editor

Stephen Law, *Heythrop College, University of London, UK*

*Think* has been created to forge a direct link between contemporary philosophy and the widest possible readership. The central aim of the journal is to provide to a very wide audience – encompassing undergraduates, 'A' level students, students in further education and the general public – highly accessible and engaging writing by philosophers pre-eminent in their fields. *Think* also aims to counter the popular impression that philosophy is pointless and wholly detached from everyday life. Its contributors sometimes expose some of the bad philosophy which currently passes as accepted wisdom in certain circles (e.g. religious, scientific, anthropological, etc). Perhaps most importantly, *Think* gives contemporary philosophers the chance to help nurture and encourage philosophers of the next generation.
