### **Scope of the Journal**

Clay Minerals - Journal of Fine Particle Science publishes electronically and in paper form research papers about clays, clay minerals and related materials, natural or synthetic. Aspects covered include: Earth Processes (interactions in 'system earth' ± soil science, and geology/mineralogy) including genesis/synthesis, phase transformations, stability, weathering, soil-organic interactions, ion-exchange, basin analysis, clay petrology; Solid State Chemistry/Materials Science ± synthesis, structure and dynamics, reactivity, crystal chemistry, mechanical, thermal, electrical properties, micro and nanophase materials; Environmental Science ± analytical methods, elemental distribution, waste containment, health issues, environmental impact assessment, conservation of cultural heritage; Colloid/Surface Science ± adsorption, colloid stability, surface chemistry, reactivity; and Applied Science and Technology ± industrial uses and technical applications, including mining and processing of clay, zeolite (and other) deposits and application in ceramics, paper, paint, polymer, ion-exchange, sorption, catalysis etc.

### **Submission of manuscripts**

In a letter accompanying the manuscript, the submitting author must state that all authors agree with the final version of the manuscript. The letter must also state that the manuscript has not previously been published elsewhere, either in full or in part, and that, while under review for Clay Minerals, it will not be submitted to any other publication. Authors are encouraged to suggest up to three possible reviewers for their papers.

All manuscripts are to be submitted online at <http://www.edmgr.com/clayminerals/>. The current set of instructions for authors is available at: <https://www.cambridge.org/CLM>

All authors are allowed, free of charge, an e-print of their papers published in the journal.

### **Join the Mineralogical Society today**

If you are a regular reader of Clay Minerals consider joining the Society and receiving your own copy four times a year at a very modest cost. Membership currently starts at £55 per annum. For this, you will receive bi-monthly copies of Elements, our international membership magazine (in full colour) on mineralogy, geochemistry and petrology as well as online access to Mineralogical Magazine, Clay Minerals and Elements. You may also opt to pay an additional premium in order to continue receiving paper copies of our journals. Full details on how to join the Society and an application form can be found on the Society's website at [www.minersoc.org](http://www.minersoc.org). Membership of the Society introduces you to a vibrant community of those interested in the mineral sciences. Through membership of one or more of the Society's eight special interest groups you can take an active part in the Society's numerous scientific meetings and conferences as described on the website.

### **Mineralogical Society Journals**

#### *Mineralogical Magazine*

International journal of mineral sciences which covers the fields of mineralogy, crystallography, geochemistry, petrology, environmental geology and economic geology. This journal is available primarily as an e-journal.

#### *Clay Minerals*

International journal of clay minerals and fine particle science, published four times a year, including research papers about clays, clay minerals and related materials, natural or synthetic. The journal includes papers on Earth processes, soil science, geology/mineralogy, chemistry/material science, colloid/surface science and applied science and technology. The journal is available primarily as an e-journal.

### **Copyright**

For both the paper and electronic versions, copyright of all papers accepted shall be assigned to the Mineralogical Society before publication, except where Crown Copyright is reserved.

## CONTENTS

### Articles

- TOMÁŠ HÚLAN, IGOR ŠTUBŇA, ANDREI SHISHKIN, JURIJS OZOLINS, ŠTEFAN CSÁKI, PETER BAČÍK and JANA FRIDRICHOVÁ: Development of Young's modulus of natural illitic clay during the heating and cooling stages of firing 229
- NGUYEN DUC CUONG, VU THI HUE and YONG SHIN KIM: Thermally expanded vermiculite as a risk-free and general-purpose sorbent for hazardous chemical spillages 235
- MATHILDE POIRIER, JEAN-EUDES BOULINGUI, FRANÇOIS MARTIN, MICHEL MBINA MOUNGUENGUI, CHARLES NKOUMBOU, FABIEN THOMAS, MICHEL CATHELINÉAU and JACQUES YVON: Mineralogical and crystal-chemical characterization of the talc ore deposit of Minzanzala, Gabon 245
- ALEXANDRA ENEA-GIURGIU, CORINA IONESCU, VOLKER HOECK, TUDOR TĂMAȘ and CRISTIAN ROMAN: An archaeometric study of early Copper Age pottery from a cave in Romania 255
- PEK-ING AU, MINGYONG DU, JISHAN LIU, MD. BASHIRUL HAQ and YEE-KWONG LEONG: Surface chemistry, rheology and microstructure of as-received SHCa-1 hectorite gels 269
- CRISTIANA COSTA, ANTÓNIO FORTES, FERNANDO ROCHA, ANGELA CERQUEIRA, DELFIM SANTOS and MARIA HELENA AMARAL: Characterization of Portuguese gypsums as raw materials for dermocosmetics 277
- VICTOR MATHEUS JOAQUIM SALGADO CAMPOS, LUIZ CARLOS BERTOLINO, LUANA CAROLINE SILVEIRA NASCIMENTO, JOSÉ YVAN PEREIRA LEITE, VITOR SCHWENK BRANDÃO, ODIVALDO CAMBRAIA ALVES and JOB TOLENTINO JUNIOR: Mineralogy and technological characterization of two kaolin deposits from the Borborema Pegmatite Province, northeastern Brazil 283
- DONG LI, MIN SHEN, GUOFAN SUN, HUIRAN JIN, PENG CAI, ZHIHUI WANG, YELING JIN, JING CHEN and SHIJIE DING: Facile immobilization of lipase based on Pickering emulsion via a synergistic stabilization by palygorskite–enzyme 293
- ÂNGELA CERQUEIRA, CRISTIANA COSTA, DENISE TERROSO, CRISTINA SEQUEIRA and FERNANDO ROCHA: Assessment of clayey materials from Santa Maria (Azores, Portugal) for preparation of peloids 299
- VICTOR A. DRITS, BORIS A. SAKHAROV, OLGA V. DORZHIEVA, BELLA B. ZVIAGINA and HOLGER LINDGREEN: Determination of the phase composition of partially dehydroxylated kaolinities by modelling their X-ray diffraction patterns 309
- Obituary
- JANICE L. BISHOP, HELGE STANJEK, JOHN CASHION and JOSÉ DOMINGOS FABRIS: Enver Murad (9 June 1941–12 July 2019) 323
