CONTENTS OF VOLUME 30

R. P. AKABARI: *See* L. K. PATEL

ALAN L. ANDREW: Correction of finite difference eigenvalues of periodic Sturm-Liouville problems 460

L. BASS: *See* A. J. BRACKEN

A. R. BESTMAN: Unsteady low Reynolds number flow in a heated tube of slowly varying section 179

J. R. BLAKE: The Kelvin impulse: application to cavitation bubble dynamics 127

P. J. BLENNERHASSETT: *See* B. J. KACHOYAN

M. I. G. BLOOR: *See* A. C. KING

A. J. BRACKEN, H. S. GREEN and L. BASS: Groups defined on images in fluid diffusion 101

A. J. BRACKEN, K. HOLMÅKER, L. V. MALONEY and L. BASS: Flux ratios for biological membranes and reciprocity theorems for linear operators 278

P. BREEN and W. HENDERSON: Dominated strategies in searching for evolutionary stable strategies 214

W. L. CHAN and YU-KUN ZHENG: Exact solutions of nonlinear evolution equations of the AKNS class 313

B. D. CRAVEN: Boundary conditions in optimal control 343

U. K. DAVE: *See* L. K. PATEL

PHIL DIAMOND: Stochastic models for interference between searching insect parasites 268

G. F. FITZ-GERALD and N. A. McDONALD: An asymptotic solution of an integro-differential equation arising in magnetic coupling through thin shield walls 414

ELIAS FLYTZANIS and NIKOLAOS S. PAPAGEORGIOU: On the existence and sensitivity analysis of optimal capital accumulation paths in continuous time, infinite horizon models 450

CHARLES N. FRIEDMAN: Some remarks on Pauli data in quantum mechanics 298

C. J. GOH: *See* K. L. TEO

H. S. GREEN: *See* A. J. BRACKEN

R. GRIMSHAW: An analysis of the impact of T. M. Cherry's work on asymptotic expansions 378

A. J. HALL and G. C. WAKE: A functional differential equation arising in modelling of cell growth 424

NEVILLE HATHAWAY: *See* JOHN RICKARD

W. HENDERSON: *See* P. BREEN

JAMES M. HILL and ALEX McNABB: On the problem of uncoupling systems of linear differential equations 483

K. HOLMÅKER: *See* A. J. BRACKEN

HONG HUIMIN: *See* CHEN ZHAOLIN

https://doi.org/10.1017/S0334270000006421 Published online by Cambridge University Press

D. G. HURLEY: Mathematical research at the Aeronautical Research Laboratories 1939–1960 389
D. J. IVERS: On generalised toroidal-poloidal solutions of vector field equations 436
ZHANG JIFENG: *See* CHEN ZHAOLIN
B. J. KACHOYAN and P. J. BLENNERHASSETT: On the finite Dean problem: linear theory 157
A. C. KING and M. I. G. BLOOR: A note on the free surface induced by a submerged source at infinite Froude number 147
D. K. KULSHRESTHA: Duality between distant point and median of a tree network space 304
K. A. LANDMAN: A boundary integral method for contaminant transport in two adjacent porous media 251
WEN-WEI LIN and GERHARD LUTZER: An application of the homotopy method to the generalised symmetric eigenvalue problem 230
M. A. LUKAS: Assessing regularised solutions 24
GERHARD LUTZER: *See* WEN-WEI LIN
L. V. MALONEY: *See* A. J. BRACKEN
N. A. McDONALD: *See* G. F. FITZ-GERALD
ALEX McNABB: *See* JAMES M. HILL
J. M. MURRAY: Optimal control problems with elastic collisions 470
M. R. OSBORNE and TANIA PRVAN: Smoothness and conditioning in generalised smoothing spline calculations 43
M. R. OSBORNE: *See* TANIA PRVAN
NIKOLAOS S. PAPAGEORGIOU: *See* ELIAS FLYTZANIS
L. K. PATEL, R. P. AKABARI and U. K. DAVE: Radiating Demianski-type metrics and the Einstein-Maxwell fields 120
TANIA PRVAN and M. R. OSBORNE: A square-root fixed-interval discrete-time smoother 57
TANIA PRVAN: *See* M. R. OSBORNE
JOHN RICKARD and NEVILLE HATHAWAY: A flexible strategy for warring duopolists 79
G. K. ROBINSON: A method of accelerating stationary iterative methods for solving linear systems 1
M. VAN ROOYEN, M. SEARS and S. ZLOBEC: Constraint qualifications in input optimisation 326
M. SEARS: *See* M. VAN ROOYEN
MAITHILI SHARAN, M. P. SINGH and BALBIR SINGH: A mathematical model for the process of gas exchange in lung capillaries using n'th order one-step kinetics of oxygen uptake by haemoglobin 203
BALBIR SINGH: *See* MAITHILI SHARAN
M. P. SINGH: *See* MAITHILI SHARAN
K. K. TAM: Travelling wave solutions for rich flames of reactive suspensions 89
K. L. TEO and C. J. GOH: A computational method for combined optimal parameter selection and optimal control problems with general constraints 350
E. O. TUCK: The wave resistance formula of J. H. Michell (1898) and its significance to recent research in ship hydrodynamics 365
G. C. WAKE: *See* A. J. HALL

https://doi.org/10.1017/S0334270000006421 Published online by Cambridge University Press

E. M. E. ZAYED: Some asymptotic spectral formulae for the eigenvalues of the Laplacian 220

CHEN ZHAOLIN, HONG HUIMIN and ZHANG JIFENG: Controllability of generalised dynamical systems with constrained control 69

YU-KUN ZHENG: *See* W. L. CHAN

S. ZLOBEC: *See* M. VAN ROOYEN

https://doi.org/10.1017/S0334270000006421 Published online by Cambridge University Press
