## Labor in Latin America

COMPARATIVE ESSAYS ON CHILE,  
ARGENTINA, VENEZUELA, AND COLOMBIA

**Charles Bergquist.** Workers, especially those engaged in production for export, have played a major role in the modern history of Latin American societies. This is the bold new thesis of a study that challenges standard interpretations that have usually portrayed workers as passive, weak, or unimportant spectators in the drama of Latin American history. By focusing on the experience of workers in export production—nitrate miners in Chile, meatpackers in Argentina, coffee producers in Colombia, and petroleum workers in Venezuela—the author provides a new comparative perspective on Latin American labor formation, economic development, and political change. More broadly, the study reveals the interpretive utility and philosophical implications of placing labor at the center of modern historical analysis. Illustrated. Cloth, \$39.50; paper, \$14.95

## A Radical Worker in Tsarist Russia

THE AUTOBIOGRAPHY OF  
SEMËN IVANOVICH KANATCHIKOV

**Translated and Edited by Reginald E. Zelnik.** "This excellent translation is a significant contribution to the field of Russian history and European labor history. The personal testimony of this extremely sensitive worker-revolutionary gives the reader a special 'feel' for the life of a Russian factory worker."  
—RONALD GRIGOR SUNY

Born in 1879, Kanatchikov was one of the thousands of Russian peasants who made the transition from traditional village life to the world of a Russian factory worker in the last years of the 19th century. Unlike the others, he recorded his personal and political experiences (up to the eve of the 1905 Revolution) in an autobiography. First published in the Soviet Union in the 1920's, this memoir gives us the richest and most thoughtful account we have of life among the urban lower classes in Imperial Russia. Cloth, \$45.00; paper, \$14.95

**Factory and Family in the  
Making of Women's Lives**

**Sallie Westwood**  
**Foreword by Louise Lamphere**

Depicts the multi-racial culture and everyday dramas of women working in the heart of the British hosiery industry and has much to offer both feminist theorists and social historians, as well as anyone interested in the struggles of working women everywhere. Westwood reveals much about the stitchers' daily life and clarifies some of the crucial issues concerning the politics of class, race, and gender in the workplace and home. "Makes important contributions to the study of the labor process, to the analysis of women's work culture, and to the debate about the relationship between Marxism and feminism." — Louise Lamphere, coeditor of *Women, Culture, and Society*.
