INSTRUCTIONS FOR CONTRIBUTORS

Editorial policy The **European Journal of Applied Mathematics** aims to publish papers in all areas of applied mathematics, with especial emphasis on the following.

(i) **The exposition of new mathematical ideas relevant to the modelling and analysis of modern technological processes.**

(ii) **The development of interesting mathematical methods with broad areas of applicability.**

There is no restriction in the areas of applicability or the style of mathematics as long as the content is presented so as to be as accessible as possible to the entire community of mathematicians and mathematical scientists. This applies in particular to the introductory section of the paper. Standard mathematical techniques will only be published if they are associated with novel applications or lead to substantial advances in established problem areas.

Submission of manuscripts Papers may be submitted to any of the Editors. Three copies should be sent accompanied by the author's address, telephone and fax number, and if possible an electronic mailing address. Electronic communications can be used for minor corrections and for messages to the Editors.

Submission of a paper is taken to imply that it has not been previously published and that it is not being considered for publication elsewhere. Upon acceptance of a paper, the author will be asked to transfer copyright to the publisher.

Authors are encouraged to submit papers electronically by sending a LaTeX file to ejam@vax.oxford.ac.uk; this file should include the figures (line figures only). Authors using LaTeX must use the EJAM style file which can be obtained using anonymous FTP from the internet address ftp.cup.cam.ac.uk. Retrieve from the directory/pub/ texarchive/journals/latex/ejm the style file ejm.sty and the user guide ejmguide.tex. In case of difficulties obtaining these files, there is a help-line available via e-mail; please contact texline@cup.cam.ac.uk. Alternatively, authors may use "article" style. On final acceptance of a paper, authors should send the LaTeX source code on disc to the Editors-in-Chief, together with a hardcopy identical to the file. Discs should be in Apple Mac or PC format and will not be returned. The publisher reserves the right to typeset any article by conventional means if the author's TeX code presents problems in production.

Layout of manuscripts Papers should be typewritten **in double spacing throughout**, on one side of the paper. Please avoid footnotes if possible. Papers must begin with an abstract of not more than 300 words, and they should end with a brief concluding section. The SI system of units must be used throughout. There is no formal restriction on length, but short papers are likely to appear sooner than long ones (over 16 typed pages) which are likely to be subject to delay.

Illustrations Figures should be drawn in indian ink on good quality white paper or produced by computer to comparable quality. Wherever possible they will be reproduced *with* the author's lettering. Originals of figures should *not* be included until the paper has been accepted. A list of captions for figures should be attached separately. Where appropriate, articles may be illustrated by photographs: high-quality glossy black and white prints are necessary.

References The Harvard system of references is preferred. References should be listed in alphabetical order at the end of the main text. Please include the article title in the reference, which should be in the order: author's surname, initials; year in parentheses; article title; journal name, abbreviated in accordance with the *World List of Scientific Periodicals* (4th Edn); volume number (underlined); inclusive page numbers.

Citations in the text Any unambiguous system is acceptable. Three recommended ways of citing a 1992 paper by A. European are: European (1992); European [Eu]; or European [7]; the first two are preferred. In the second case, the reference at the end of the text should be preceded by [Eu], and in the third by [7].

Proof Reading Typographical or factual errors only may be changed at proof stage. The publisher reserves the right to charge authors for correction of non-typographical errors. No page charge is made.

Offprints 25 offprints of each article will be supplied free to each first named author. Extra offprints may be purchased from the publisher if ordered at proof stage.

Information on the *European Journal of Applied Mathematics* and all other Cambridge journals is available on http://www.cup.cam.ac.uk/ and in North America on http://www.cup.org/ .
