

*Proceedings of the*  
CAMBRIDGE PHILOSOPHICAL  
SOCIETY

VOLUME 42

CAMBRIDGE  
AT THE UNIVERSITY PRESS  
1946

*First Printed in Great Britain at the University Press, Cambridge*  
*Reprinted by offset-litho by Jarrold & Sons Ltd., Norwich*  
*and published by the Cambridge University Press*  
*Cambridge, and Bentley House, London*  
*Agents for Canada and India: Macmillan*

# CONTENTS

	PAGE
<b>Auluck, F. C. and Kothari, D. S.</b> Statistical mechanics and the partitions of numbers . . . . .	272
<b>Baker, H. F.</b> Note to the preceding paper by C. V. H. Rao . . . . .	226
<b>Bamford, C. H., Crank, J. and Malan, D. H.</b> The combustion of wood. Part I . . . . .	166
<b>Band, William.</b> Collective electron assemblies in a metal with overlapping energy bands. Part I. General theory . . . . .	139
— Collective electron assemblies in a metal with overlapping energy bands. Part II. The occurrence of ferromagnetism . . . . .	144
— Diamagnetism and superconductivity of a collective electron assembly . . . . .	311
<b>Bartlett, M. S.</b> The large-sample theory of sequential tests . . . . .	239
<b>Besicovitch, A. S.</b> A general form of the covering principle and relative differentiation of additive functions. II . . . . .	1
<b>Binnie, A. M.</b> Approximate methods in surge-tank calculations . . . . .	156
<b>Chandrasekhar, S.</b> A new type of boundary-value problem in hyperbolic equations . . . . .	250
<b>Chang, T. S.</b> A note on the Hamiltonian equations of motion . . . . .	132
<b>Cheng Kai-Chia.</b> Derivation of Dirac's equation for a free particle . . . . .	185
<b>Corner, J.</b> A theory of the critical temperatures of the normal paraffins . . . . .	328
<b>Coulson, C. A. and Rushbrooke, G. S.</b> On the motion of a Gaussian wave-packet in a parabolic potential field . . . . .	286
<b>Dean, W. R.</b> On some cases of the reflexion of surface waves by an inclined plane barrier . . . . .	24
<b>Domb, C.</b> The resultant of a large number of events of random phase . . . . .	245
<b>Eliezer, C. Jayaratnam.</b> Radiating electron in a magnetic field . . . . .	40
— The classical equations of motion of an electron . . . . .	278
<b>Fuchs, W. H. J.</b> On the closure of $\{e^{-t^2 \nu}\}$ . . . . .	91
<b>Goddard, L. S.</b> Optical characteristics of a two-cylinder electrostatic lens . . . . .	106
— A note on the Petzval field curvature in electron-optical systems . . . . .	127
<b>Hardy, G. H. and Littlewood, J. E.</b> Notes on the theory of series (XXIV): a curious power-series . . . . .	85
<b>Hodge, W. V. D.</b> On multiple curves. III . . . . .	11
<b>Irwin, J. O.</b> On the characteristic function of the distribution of the product of two normal variates . . . . .	82
<b>Jelonek, Z.</b> Analysis of operation of a thermostat with contact thermo-regulator . . . . .	62

	PAGE
<b>Miller, A. R.</b> The variation of the dipole moment of adsorbed particles with the fraction of the surface covered . . . . .	292
— The number of configurations of molecules on a lattice . . . . .	303
<b>Moran, P. A. P.</b> Additive functions of intervals and Hausdorff measure . . . . .	15
<b>Pais, A.</b> On the scattering of fast neutrons by protons . . . . .	45
<b>Pirenne, M. H.</b> On the variation of visual acuity with light intensity . . . . .	78
<b>Rao, C. V. Hanumanta.</b> On the generation of sets of four tetrahedra of which any two are mutually inscribed . . . . .	217
<b>Scott, D. B.</b> Intersection groups and rings . . . . .	183
— Point-curve correspondences. II. Induced and extended correspondences . . . . .	229
<b>Shanmugadhasan, S.</b> On Mathisson's variational equation of relativistic dynamics . . . . .	54
<b>Sneddon, Ian N.</b> Boussinesq's problem for a flat-ended cylinder . . . . .	29
— The elastic stresses produced in a thick plate by the application of pressure to its free surfaces . . . . .	260
— The elastic response of a large plate to a Gaussian distribution of pressure varying with time . . . . .	338
<b>Sun Nien-T'ai, W. and Band, W.</b> An explanation of anomalous thermionic emission current constants . . . . .	72
<b>Todd, J. A.</b> The complete system of the binary (3, 1) form . . . . .	196
— The complete system of the binary (4, 1) form . . . . .	206
<b>Verblunsky, S.</b> Two moment problems for bounded functions . . . . .	189
<b>PROCEEDINGS</b> . . . . .	342
<b>STATEMENT OF ACCOUNTS</b> . . . . .	344

## CONTENTS

	PAGE
VERBLUNSKY, S. Two moment problems for bounded functions . . .	189
TODD, J. A. The complete system of the binary (3, 1) form . . .	196
TODD, J. A. The complete system of the binary (4, 1) form . . .	206
RAO, C. V. HANUMANTA. On the generation of sets of four tetrahedra of which any two are mutually inscribed . . . . .	217
BAKER, H. F. Note to the preceding paper by C. V. H. Rao . . .	226
SCOTT, D. B. Point-curve correspondences. II. Induced and extended correspondences . . . . .	229
BARTLETT, M. S. The large-sample theory of sequential tests . . .	239
DOMB, C. The resultant of a large number of events of random phase .	245
CHANDRASEKHAR, S. A new type of boundary-value problem in hyper- bolic equations . . . . .	250
SNEDDON, I. N. The elastic stresses produced in a thick plate by the application of pressure to its free surfaces . . . . .	260
AULUCK, F. C. and KOTHARI, D. S. Statistical mechanics and the partitions of numbers . . . . .	272
ELIEZER, C. JAYARATNAM. The classical equations of motion of an electron	278
COULSON, C. A. and RUSHBROOKE, G. S. On the motion of a Gaussian wave-packet in a parabolic potential field . . . . .	286
MILLER, A. R. The variation of the dipole moment of adsorbed particles with the fraction of the surface covered . . . . .	292
MILLER, A. R. The number of configurations of molecules on a lattice .	303
BAND, WILLIAM. Diamagnetism and superconductivity of a collective electron assembly . . . . .	311
CORNER, J. A theory of the critical temperatures of the normal paraffins	328
RESEARCH NOTE:	
SNEDDON, I. N. The elastic response of a large plate to a Gaussian distribution of pressure varying with time . . . . .	338
PROCEEDINGS . . . . .	342
STATEMENT OF ACCOUNTS . . . . .	344
