All contributions are accepted for publication after external peer review.

SUBMISSION OF MANUSCRIPTS

Authors may submit their **Original Articles** or **Letters to the Editor** online via the website:

<http://mc.manuscriptcentral.com/eps>

All other paper types require the author to be invited via the online submission system, and should not be submitted online without consultation with the appropriate Editor as detailed on the inside front cover.

If you have any questions about the submission of your manuscript please contact the Editorial Office, Lynet Smith, at lsmith@cambridge.org

A covering letter should give full mailing and email contact details of the author who will handle correspondence. Please pay attention to the format of all submitted papers (including word count of main text and Abstract, and reference list). Consult the Instructions for Contributors that are online at <http://journals.cambridge.org/eps> and EPS papers already published, as examples. Submission of a paper will be held to imply that it contains original work that has not been previously published and that it is not being submitted for publication elsewhere. The papers published in EPS are protected by copyright and cannot be published elsewhere without written permission given by the Publisher.

PROOFS AND OFFPRINTS Page proofs will be sent to the author designated to receive correspondence. Corrections other than to printer's errors may be charged to the author. All papers are published in their final version in the *FirstView* page of EPS before being printed. A final PDF will be sent to the corresponding author when the article is published.

Detailed instructions for authors can be found on the EPS website <journals.cambridge.org/eps>
