# Plant Genetic Resources: Characterization and Utilization

Volume 7 2009 ISSN: 1479-2621

## Aims and Scope

The journal provides a forum for describing the application of novel genomic technologies, as well as their integration with established techniques, towards the understanding of the genetic variation captured in both *in situ* and *ex situ* collections of crop and non-crop plants; and for the airing of wider issues relevant to plant germplasm conservation and utilisation. We particularly welcome multi-disciplinary approaches that incorporate both a technical and a socio-economic focus.

Technical aspects can cover developments in technologies of potential or demonstrated relevance to the analysis of variation and diversity at the phenotypic and genotypic levels; the development of rational germplasm collection, evaluation and conservation strategies; and the impact of crop genetic modification and biotechnology on plant genetic resources. Authors should note that the journal will not review submissions using the RAPD marker system, except where very large numbers of assays place a cost limitation on the analysis, or where RAPD data is combined with, and is co-analysed with other forms of descriptive data, which allows an objective means of assessing the credibility of the RAPDs.

Non-technical aspects can include ethical, legal, commercial and social issues of relevance, in particular relating to farmers' rights, intellectual property and ethnobotany.

## Contents

Diversity of Ethiopian tetraploid wheat germplasm: breeding opportunities for improving grain yield potential and quality traits <i>Yifru Teklu and Karl Hammer</i> . . . . .	1
Polymorphism in <i>Gloriosa superba</i> <i>Seemanti Ghosh, Biswajit Ghosh and Sumita Jha</i> . . . . .	9
EST-PCR markers representing watermelon fruit genes are polymorphic among watermelon heirloom cultivars sharing a narrow genetic base <i>Amnon Levi, Patrick Wechter and Angela Davis</i> . . . . .	16
Genetic diversity in the USDA <i>Limnanthes</i> germplasm collection assessed by simple sequence repeats <i>Linda M. Donnelly, Maria M. Jenderek, James P. Prince, Patrick A. Reeves, Allan Brown and Richard M. Hannan</i> . . . . .	33
Ecological characterization of wild <i>Helianthus annuus</i> and <i>Helianthus petiolaris</i> germplasm in Argentina <i>Monica Poverene, Miguel Cantamutto and Gerald J. Seiler</i> . . . . .	42
Farmers' management of rice varietal diversity in the mid-hills of Nepal: implications for on-farm conservation and crop improvement <i>R. B. Rana, C. J. Garforth and B. R. Sthapit</i> . . . . .	50
Recent changes in varietal diversity of rice in Guinea <i>M. B. Barry, A. Diagne, M. J. Sogbossi, J. L. Pham, S. Diawara and N. Ahmadi</i> . . . . .	63
Aphid feeding response and microsatellite-based genetic diversity among diploid <i>Brachypodium distachyon</i> (L.) Beauv accessions <i>Perumal Azbaguevel, Wanlong Li, Jackie C. Rudd, Bikram S. Gill, G. J. Michels Jr and Yiqun Weng</i> . . . . .	72
Short Communication Resveratrol content in seeds of peanut germplasm quantified by HPLC <i>M. L. Wang and R. N. Pittman</i> . . . . .	80
Genetic and geographical divergence in horse gram germplasm from Andhra Pradesh, India <i>N. Sunil, N. Sivaraj, S. R. Pandravada, V. Kamala, P. Ragburam Reddy and K. S. Varaprasad</i> . . . . .	84
Variation in south Asian wheat germplasm for seedling drought tolerance traits <i>Umesh R. Rosyara, Amrit A. Ghimire, Sushil Subedi and Ram C. Sharma</i> . . . . .	88
Reviewers of PGR for 2008 . . . . .	94

**Publisher:** Katy Christomanou

*Plant Genetic Resources: Characterization and Utilization* is an international journal published tri-annually by Cambridge University Press in April, August and December on behalf of NIAB. The online edition is available at [journals.cambridge.org/pgr](http://journals.cambridge.org/pgr).

## **Special sales and supplements:**

This Journal accepts advertising and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The Journal also publishes proceedings on behalf of academic and corporate sponsors. Please contact Katy Christomanou at the Cambridge address above.

## **Subscription information:**

The subscription rates for Volume 7, 2009 (3 issues) are:

Institutional subscription

Internet/Print Package £288.00/\$554.00 (Americas only)

Internet only £231.00/\$445.00 (Americas only)

Print only £267.00/\$514.00 (Americas only)

Any **supplements** to this Journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

**Back volumes** are available. Please contact CUP Publishing for further information.

**Claims** for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

**US POSTMASTERS:** please send address corrections Plant Genetic Resources USA address.

## **Information for Authors:**

Please email manuscript (with any accompanying figures or tables) to the Journal Administrator Faye Kalloniatis at [plantgeneticresources@googlemail.com](mailto:plantgeneticresources@googlemail.com)

**Notes for Authors** are available on the internet at [journals.cambridge.org/pgr](http://journals.cambridge.org/pgr)

**Offprints:** The corresponding author of an accepted paper will receive a pdf offprint. Additional offprints are available for a fee and should be ordered at proof stage. **No page charges or submission charges are levied by this journal.**

**Copyright:© NIAB 2009.** All rights reserved: permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from CUP or a licence permitting restricted copying obtained from the Copyright Licensing Agency, Tottenham Court Road, London W1P 9HE, UK, or in the USA from the Central Clearance Center, 27 Congress Street, Salem MA 01970.
