"I am a pediatric emergency physician at the Stollery Children's Hospital (Edmonton) and an Associate Professor of Pediatrics at the University of Alberta. I have a research program that is studying the best ways to treat children's pain in the emergency department. After securing protected time and a small amount of start-up funds for a teeny tiny research program, I joined forces with Dr. Amanda Newton, and we secured a second CAEP grant of \$5000. This allowed me to delve into the world of both physical and psychological pain in the ED. Now, flash forward 6 years, and my research team has grown. We have secured both provincial and national funding for the study of acute pain in children. I have national and international collaborations for trials, systematic review, knowledge translation, and quality improvement projects in this area. CAEP provided me with my first peer-reviewed grants, and this gave me 'legitimacy' when applying for other external funding. On a national level, CAEP has supported pediatric emergency researchers, and shown the emergency medicine community that our littlest of patients matter."

Dr. Samina Ali, MDCM, FRCPC(PEM)

WHY SUPPORT CAEP'S EM ADVANCEMENT FUND?

In the past 5 years, CAEP EMAF donors have financed an additional **15 grants** via the annual grant competitions. These grants have been essential in developing new front line, evidence-based improvements in patient care, and they support young researchers who often fund initial pilot projects that go on to receive major funding from other sources.

To read more about how your donation directly supports EM research, visit theemaf.org/success-stories.

HOW YOU CAN HELP

Donations can be made at any time on theemaf.org website (click on the "donate now" link), and you can also add a donation to your CAEP membership renewal.

The EMAF is a registered charity and donations are fully tax creditable.
