

Netherlands Journal of Geosciences / Geologie en Mijnbouw

Scope

Netherlands Journal of Geosciences / Geologie en Mijnbouw seeks to be the prime outlet for publication of geoscientific papers pertaining to the Netherlands and the North Sea region and relevant adjacent areas. Manuscripts on any geoscientific topic will be considered for publication, provided they comply with the regional focus of the journal and are of international interest and quality.

Submission of manuscripts

Manuscripts may be submitted to the Editorial Office. Manuscripts should be prepared in accordance with the 'instructions to authors' as summarized in every first issue of a volume; the instruction is also available upon request from the Editorial Office and on the journal's website (<http://www.nitg.tno.nl/eng/products/pub/njg/index.shtml>). The author(s) of manuscripts submitted are responsible for obtaining clearance for publication from relevant parties including, if appropriate, permission to include copyright material.

Subscription and distribution

Netherlands Journal of Geosciences / Geologie en Mijnbouw is published quarterly and dispatched by surface post. The journal is distributed to members of the Royal Geological and Mining Society of the Netherlands (KNGMG) free of charge and to private and institutional subscribers. The rate for institutional subscribers for the year 2002 is US\$ 233.00 / Euro 254.00. Subscriptions are handled by Veenman drukkers, P.O. Box 18, 6710 BA Ede, the Netherlands (tel. +31-318-648400; fax +31-318-648484; e-mail: users@veenman-druk.nl). All orders (including requests for back issues) and related business correspondence (including address changes for subscribers) should be addressed to Veenman drukkers.

Advertisements

For advertisements in Netherlands Journal of Geosciences / Geologie en Mijnbouw, please contact Tonny Handgraaf, Retra Publiciteitsservice b.v., P.O. Box 333, 2040 AH Zandvoort, the Netherlands (tel. +31-23-5718480; fax +31-23-5716002; e-mail tonny@retra.nl).

The forthcoming issue will be published in June 2002. The closing date for advertisements is April 15, 2002.

Abstracting and indexing

Netherlands Journal of Geosciences / Geologie en Mijnbouw is indexed/abstracted in: AGRIS, Aquatic Sciences and Fisheries (ASFA-2), Bell & Howell, Biological Abstracts, Chemical Abstracts, Current Contents / Physical Chemical & Earth Sciences, Current Geographical Publications, GeoArchive, GEOBASE (Geo Abstracts), GeoRef, the ISI Alerting Services, Oceanic Abstracts, Petroleum Abstracts, Science Citation Index Expanded, Water Resources Abstracts.

Copyright and photocopying

© *Stichting Netherlands Journal of Geosciences*.

The journal (ISSN 0016-7746) is registered with the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923, USA. Authorization to photocopy items for internal or personal use is granted by the *Stichting Netherlands Journal of Geosciences*, provided that the appropriate fee is paid directly to CCC. Prior to photocopying, please get permission online at the CCC website (<http://www.copyright.com>) or call the CCC (+1-978-750-8400), which can also be contacted for information about additional usage of material.

Requests for permission to reproduce material published in this journal for other publications should be addressed to the Editorial Office.

Contents volume 81, No. 1 (March 2002)

Regular papers

A large new mosasaur from the Upper Cretaceous of The Netherlands	
R.W. Dortangs, A.S. Schulp, E.W.A. Mulder, J.W.M. Jagt, H.H.G. Peeters & D.Th. de Graaf	1
The Pleistocene College Farm Silty Clay at Great Blakenham, Suffolk, England – additional information on the course of the early River Thames.	
B.S.P. Moorlock, J.B. Riding, R.J.O. Hamblin, P. Allen & J. Rose	9
Deep subsurface temperatures in the Roer Valley Graben and the Peelblock, the Netherlands – new results	
R.T. Van Balen, J.M. Verweij, J.D. van Wees, H. Simmelink, F. Van Bergen & H. Pagnier	19
Internal structure and development of a Pleistocene eolian dune, the Netherlands, from 3D interpretation of ground-penetrating radar data.	
R.L. van Dam	27

Special section: Palaeosis ECGS/CEGS additional papers

Paleoseismic investigations along the Peel Boundary Fault: geological setting, site selection and trenching results.	
M. van den Berg, K. Vanneste, B. Dost, A. Lokhorst, M. van Eijk & K. Verbeeck	39
The Coversands and Timing of Late Quaternary Earthquake Events along the Peel Boundary Fault in the Netherlands.	
M. Frechen & M.W. van den Berg	61
Soil formation in Late Glacial Meuse sediments related to the Peel Boundary Fault activity.	
R. Miedema & T. Jongmans	71

Special section: PAGES Symposium, Amsterdam, 3 November 2000

Introduction to PAGES.	
H. Hooghiemstra	83
Calibration of the ¹⁴C time scale: towards the complete dating range.	
J. van der Plicht	85
Palaeogeographic evolution and avulsion history of the Holocene Rhine-Meuse delta, The Netherlands.	
H.J.A. Berendsen & E. Stouthamer	97
Thermal gradients in Europe during the last glacial-interglacial transition.	
H. Renssen, R.F.B. Isarin & J. Vandenberghe	113
Climatic and environmental events over the Last Termination, as recorded in The Netherlands.	
W.Z. Hoek & S.J.P. Bohncke	123

Forthcoming papers	139
