

SOIL USE AND MANAGEMENT

Incorporating Soil Survey and Land Use Management

Published for the British Society of Soil Science

Editor **Professor J.A. Catt**, *Soils Division, Rothamsted Experimental Station, Harpenden, Herts. AL5 2JQ, England*

Assistant Editors **A.E. Johnston** *Rothamsted*, **A.J. Thomasson** *Rothamsted*,
Dr M.J. Goss *Rothamsted*, **D. Dent** *SSLRC*

This journal provides those who use the soil with a means of keeping up-to-date with current research, and brings to their notice such solutions to problems as now exist. Papers and reviews cover the agricultural (including horticultural) management of soil, dealing with problems such as those that result from intensification of use of fertilizers, pesticides and heavy machinery. An important feature is the interpretation of soil and land surveys in planning optimum use of the land. Practical issues of soil restoration, reclamation and conservation are also covered.

The journal deals primarily, though not exclusively, with soils and problems of the humid temperate region.

Subscription Information

Soil Use and Management is published quarterly. Subscription rates for 1991 are, for individuals £40.00 (UK), £46.50 (overseas) and US\$83.50 (USA & Canada), and for institutions £55.00 (UK), £64.00 (overseas) and US\$115.00 (USA & Canada) post free.

Order Form

Please tick the appropriate box and return to the address below:

- I would like to subscribe to *Soil Use and Management*
- I wish to pay by cheque and enclose the sum of £ _____ US\$ _____
- I wish to pay by Access/American Express/Barclaycard/Diners Card/VISA/Mastercard (delete as necessary)

Please debit my credit card no.

Expiry date / / with the sum of £ _____ US\$ _____

"All researchers working in the tropics or who attempt to follow tropical literature will find it essential reading." GH Orians, *Nature*

Journal of Tropical Ecology

Editor: Dr Adrian G Marshall, *Institute of Tropical Biology, University of Aberdeen*

The **Journal of Tropical Ecology**, first published in 1985, has now become a major international ecological journal. Attractively printed with excellent quality illustrations and tables, it examines the special problems of tropical environments and their proper management. The breadth and quality of papers, the format and price, are also aimed to stimulate the research activities of young ecologists in tropical nations.

Increasing pressure is being put upon tropical ecosystems by rapid national development which, if it is to succeed, must take into account ecological principles. The **Journal of Tropical Ecology** aims to assist this process by providing a platform for the dissemination of information in all aspects of tropical ecosystems. The Editors particularly welcome the submission of papers by ecologists indigenous to the tropics who seek a wide international audience for their findings.

Published quarterly by Cambridge University Press, the journal is for all those interested in the biology of the tropics – agriculturalists, foresters, developmental planners, conservationists, and wildlife biologists.

Subscription Information

Journal of Tropical Ecology is published quarterly in February, May, August and November ISSN 0266-4674. In 1991, £74 for institutions; £31 for individuals; £18 for individuals from less developed countries.

In 1992, £79 for institutions; £33 for individuals; £20 for individuals from less developed countries.

Plant Pathology publishes research papers and critical reviews on all aspects of the subject.

Short reports of new or unusual records of plant diseases are welcomed, as are letters to the editor when these comment on matters

relevant to plant pathology.

Subscription Information

Plant Pathology is published quarterly.

Subscription rates for 1991 are £117.50 (UK), £128.00 (overseas) and US\$232.50 (USA & Canada) post free.
