

ICSID REPORTS

(REPORTS OF CASES DECIDED UNDER THE CONVENTION ON THE SETTLEMENT OF INVESTMENT DISPUTES BETWEEN STATES AND NATIONALS OF OTHER STATES, 1965)

A publication of the Research Centre for International Law, University of Cambridge

It is more than 25 years since the World Bank Convention on the Settlement of Investment Disputes entered into force. More than 120 States are now parties to it. This unique Convention providing for the international arbitration of disputes arising between States and nationals or companies of other States, has given rise to an important body of case law. Never previously brought together in a single publication, these decisions cannot be neglected by anyone involved in the application or study of the law relating to international investments.

These reports present in a single, comprehensive series all those decisions of ICSID tribunals which are in the public domain, as well as the decisions of national courts relating to such proceedings. All the texts are published in English, translations having been made where the original was in another language. Where full texts are not available, the best obtainable excerpts have been used.

Volume I contains the texts of the awards and decisions in cases that began during the period 1972 to 1981. These are preceded by the basic texts – the ICSID Convention, the ICSID Rules and Regulations, the Additional Facility and the Model Clauses.

Volume II contains materials relating to proceedings commenced during the period 1981 to 1983, while Volume III will cover the period from 1984.

All decisions are prefaced by a summary and a key word heading. Consolidated tables of cases and consolidated indexes will appear in each volume.

For lawyers in private and government practice, as well as those doing research in the law of international investments, the ICSID Reports will be essential.

INTERNATIONAL ARBITRATION

STUDIES IN ARBITRATION BETWEEN STATES AND PRIVATE PERSONS

Stephen J. Toope

By examining the process of arbitration between States and private persons – particularly the manner through which tribunals are created and by which they render judgment – the author assesses the role of the parties, the relative importance of their interests, the sources of law and the role of the adjudicator.

"... this is a work of monumental scholarship, an exciting and thought-provoking book ..."

Fraser Davidson, *Lloyd's Maritime and Commercial Law Quarterly*

This book will be of special interest to practitioners of all forms of international commercial arbitration and also to international lawyers interested in questions of dispute resolution. As a general survey of the subject the work will prove invaluable

INTERNATIONAL ARBITRATION: THREE SALIENT PROBLEMS

Stephen M. Schwebel

Judge of the International Court of Justice

"Judge Schwebel in this work makes a keen, deep, and potentially significant contribution to international conflict resolution by the peaceful processes of arbitration. All concerned with improving the effectiveness of international arbitration should weigh Judge Schwebel's impressive analyses very carefully. Practitioners and students of arbitration alike will find this work of great practical importance and intellectual insight."

THE ABOLITION OF THE DEATH PENALTY IN INTERNATIONAL LAW

Professor William A. Schabas

This book traces the emergence and progressive evolution of the international human rights norm abolishing the death penalty through an examination of the relevant conventions of both regional and universal application as well as the specific humanitarian agreements.

The work explores the different limitations that international law has placed on the imposition of the death penalty and also examines the procedural safeguards required by international law when capital punishment is being considered. The eventual emergence of a customary norm completely abolishing the death penalty is also discussed.

A significant work for all involved in international human rights law and the protection of the individual.

ASPECTS OF THE ADMINISTRATION OF INTERNATIONAL JUSTICE

E. Lauterpacht, CBE, QC

Drawing upon his extensive experience of international litigation and his long academic involvement in the subject, the author deals with a number of controversial issues in the operation of the contemporary system of international justice particularly important in the U.N. Decade of International Law.

"... [This book] is 'must' reading for practicing and academic international lawyers ... few authors in the field combine Lauterpacht's strength of scholarship and wealth of practical experience ... a fine small volume of provocative thoughts and intriguing suggestions that every serious international law practitioner should consider carefully."

THE EFFECTIVENESS OF INTERNATIONAL ENVIRONMENTAL AGREEMENTS

A CO-PUBLICATION WITH U.N.C.E.D. — EARTH SUMMIT '92

This is the only work to bring together the final versions of the thirteen major research papers, commissioned for the U.N. Earth Summit, providing an authoritative and detailed survey and analysis of the effectiveness of 124 existing international agreements and instruments to protect the environment. The material is presented in a clear open style and will prove a fundamental resource to all interested in the environment.

In addition the book contains the report by the Secretary-General of the Conference which sets the entire survey in context and summarizes the findings of the individual research papers. This section also contains the recommendations for future action to be agreed at the Conference.

The book concludes with a reference section containing an annotated list of existing environmental agreements and instruments within each area of research, including current membership, source references and secretariat addresses.

Who's Bashing Whom? Trade Conflict in High-Technology Industries

Laura D'Andrea Tyson

This study seeks to resolve the "free trade versus managed trade" debate. It provides innovative recommendations for US policy, based on detailed and rigorous case studies of high-technology trade conflicts between the United States, Japan and Europe in aircraft, telecommunications, electronics, and super computers.

Tyson develops a "cautious activist" policy agenda to promote US competitiveness in high-technology sectors and to strengthen international rules to encourage trade and reduce conflict among nations.

"...the authoritative discussion of how to think about the economics and politics of trade in a world where governments systematically seek to create advantage for their own industries. Nobody can debate 'free trade versus managed trade' without reckoning with this admirable book."

— Robert Kuttner,

Co-Editor of *The American Prospect*

"...provides by far the best accounts of several experiences of managed trade, and greatly enhances our understanding of those episodes. The reader may or may not come away agreeing with the author's position, but will certainly come away better informed of the issues."

— Richard Nelson,
Columbia University

"...a well balanced analysis of the policy problems posed by international competition in high-technology products. Those who think they have the answers need to think again — and this book will help them do that."

— Peter B. Kenen,
Princeton University

"...full of insights and constructive suggestions for putting American high-tech industries back on track. This is a valuable book."

— James Fallows, Washington Editor
of *The Atlantic Monthly*

North American Free Trade: Issues and Recommendations

Gary Clyde Hufbauer and Jeffrey J. Schott

This study has been the most widely cited analysis of the North American Free Trade Agreement (NAFTA) and was selected for inclusion in CHOICE magazine's annual Outstanding Academic Books list. Many of its recommendations helped shape the negotiations. For those seeking a detailed analysis of the issues underlying the negotiations, it is an ideal companion to the authors' *NAFTA: An Assessment* which evaluates the results of the agreement signed in December 1992.

The two-volume set of *North American Free Trade* and *NAFTA: An Assessment* is offered at a special discounted price of \$40.00.

NAFTA: An Assessment

Gary Clyde Hufbauer and Jeffrey J. Schott

This is a detailed assessment of the recently concluded North American Free Trade Agreement (NAFTA). It assesses the potential impact of NAFTA on trade, investment and employment for all three countries.

It covers all of the major sectors involved in the negotiations: energy, autos, steel, textiles, agriculture, and financial services. Labor market adjustment and environmental issues are given careful treatment. Other topics analyzed include the dispute settlement, intellectual property and accession clause provisions.

The Economics of Global Warming

William R. Cline

This study examines the costs and benefits of an aggressive program of global action to limit greenhouse warming. The analysis places heavy emphasis on effects over a long run of 200 to 300 years, with much greater warming damages than associated with the conventional benchmark (a doubling of carbon dioxide in the atmosphere.)

Estimates are presented for economic damages, ranging from agricultural losses and sea-level rise to loss of forests, water scarcity, electricity requirements for air conditioning, and several other major effects. The study concludes with a cost-benefit estimate for international action and a discussion of policy measures to mobilize the global response. This volume was selected for CHOICE Magazine's Outstanding Academic Books list.

"The set would be a valuable addition to any research library. It is especially helpful in the environmental law field. The collection of materials is an excellent source of hard information and insightful observation into the process of the Conference. It is becoming increasingly difficult to acquire working papers of any official entity; and because of this reality, the materials provide access to documents and process information which otherwise would not be available to scholars and general users. The editorial work, the compilation, and the analysis of the material fulfill the stated focus."

"The materials collected here represent the first systematic attempt to offer interested readers a balanced and scholarly account of the use of economic sanctions against Cuba: their evolution, their scope, and their problematic character under international law. In highlighting the pertinent issues of international law, making available inaccessible documentary materials, and providing interpretive and explanatory editorial guidance, this volume makes a significant contribution to a critical understanding of official U.S. policy toward Cuba, especially as assessed from the perspective of international law."

—Richard Falk

Michael Krinsky and David Golove, editors of this volume, are partners in the New York law firm of Rabinowitz, Boudin, Standard, Krinsky and Lieberman, where they specialize in international law and the embargo laws of the United States.

If your clients' tax transactions look like this

It's time you discover the new authority in the field!
Introducing—U.S. International Taxation

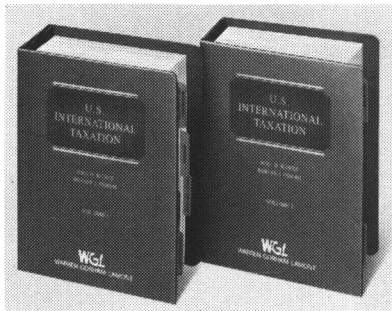

With U.S. involvement in foreign business and foreign investment in the U.S. at an all-time high, the time has come for an extensive, penetrating, and practical treatment of U.S. international taxation.

The time has come for *U.S. International Taxation*—new from Warren Gorham Lamont.

This new reference provides an authoritative, in-depth, and practical analysis of the laws governing U.S. taxation of U.S. persons with foreign income and foreign persons with U.S. income. It can help tax practitioners deal with the unique problems posed by multinational taxation issues—quickly, confidently and effectively.

Arranged by transaction, *U.S. International Taxation* covers virtually all the important topics in the same order as they arise in actual practice so you have a convenient, logical way to ensure that you've covered everything. Plus, it combines the expertise of a leading practitioner, Joel D. Kuntz, with that of a leading professor, Robert J. Peroni—for a balanced perspective on such topics as:

- Taxation of foreign corporations owned by U.S. persons
- Treatment of controlled foreign corporations and passive foreign investment companies
- Foreign tax credits
- Reorganizations and divisions involving foreign corporations owned by U.S. persons

NEW!

- Withholding for foreign persons with U.S. income
- Taxation of U.S. corporations owned by foreign persons
- Benefits of income tax treaties
- U.S. taxation relating to possessions
- Hidden IRS Notice changes to regulations
- And more.

Plus, *U.S. International Taxation* is supplemented three times a year to keep you completely current in

such areas as branch profits tax, foreign tax credits, reorganizations of foreign corporations, and more.

Take this opportunity to ensure that you'll have reliable answers to your clients' most demanding international tax problems. Order your copy of *U.S. International Taxation* now.

Now you can discover the new authority in U.S. international taxation for only \$325.

Order now and you'll receive the complete two-volume reference service plus three supplements to be issued over the next year at *no additional cost!*
