

Providing microscopy supplies and specimen preparation equipment to our valued customers for over half a century.

PELCO® Dimpler™
Precision Specimen Thinning for TEM

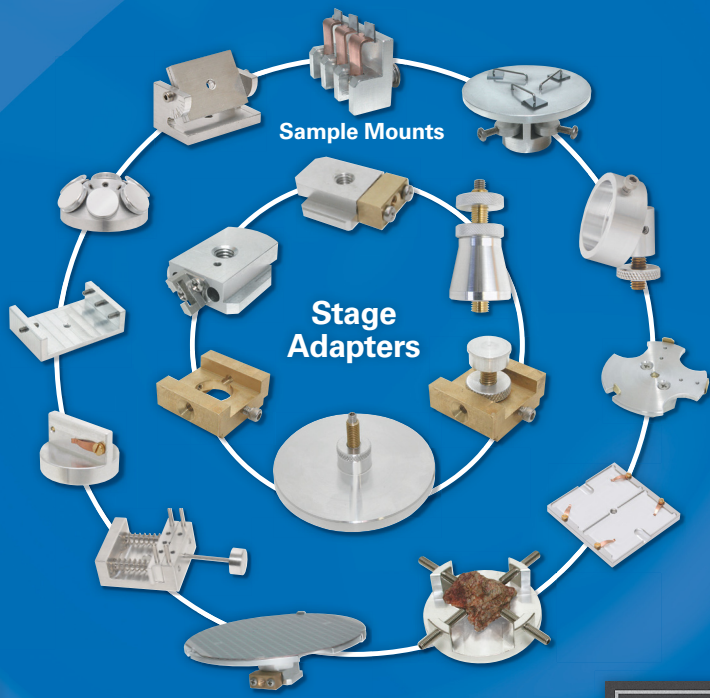

PELCO® Precision Low Speed Saw™
Multipurpose, Low-Damage Cutting

PELCO easiGlow™
Glow Discharge Cleaning System

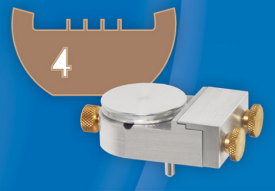

PELCO® Tripod Polisher™
Precision Polishing to region of interest for TEM or SEM

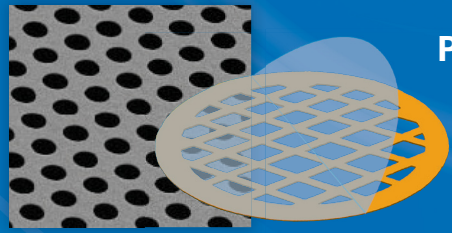

Sample Mounts

Stage Adapters

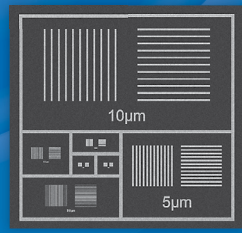

FIB Supplies
Lift Out Grids - Storage
Probes - FIB Mounts

PELCO® TEM Support Films
Holey Silicon Nitride - Graphene
Carbon - Formvar

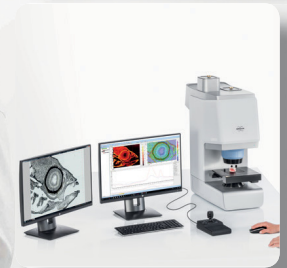

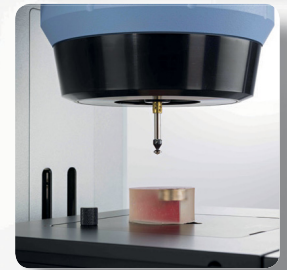

PELCO® Modular SEM Holders & Mounts

Pelcotec™ CDMS-XY
Calibration Standards - Magnification
Resolution - LM - SEM - FESEM

Three reasons for LUMOS II

- **#1 It is the only fully automated FTIR imaging microscope.**
 - Ultrafast focal-plane array (FPA) imaging technology
 - High-definition spectroscopic and visual data
 - Motorized and fully automated hardware
- **#2 Designed to make your life easier.**
 - Intuitive user interface and guided measurements
 - Large field of view and sub-micron visual resolution
 - Conveniently analyze samples of up to 40 mm in height
- **#3 For all users and all applications.**
 - Particle analysis & technical cleanliness
 - Pharmaceuticals & Bio-Sciences
 - Polymers & plastics industries
