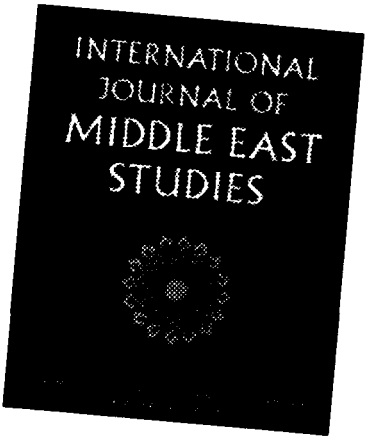
CAMBRIDGE

International Journal of Middle East Studies

Editor: R. STEPHEN HUMPHREYS, *University of California, Santa Barbara*
Published under the auspices of the Middle East Studies Association



Since 1970, the *International Journal of Middle East Studies* has published original research papers and reviews concerning the area compassing Iran, Turkey, Afghanistan, Israel, Pakistan, and the countries of the Arab World from the 7th century to modern times. Spain, Southeastern Europe, and the former Soviet Union are also included for the periods in which their territories were parts of the Middle Eastern civilization. The extensive international review section provides an invaluable guide to the literature on Middle East topics being published throughout the world.

Subject Areas

- history
- sociology
- folklore
- political science
- philology
- law
- economics
- literature
- comparative religion

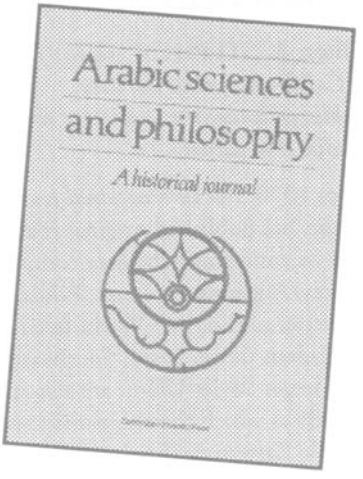
Advertise in Arabic Sciences and Philosophy

This international journal is devoted to the history of the Arabic sciences, mathematics and philosophy in the world of Islam between the eighth and eighteenth centuries in a cross-cultural context. It investigates the history of these disciplines as well as studies of the interrelations between Arabic, Greek, Indian and Chinese sciences and philosophy, and Latin, Byzantine, Syriac, Hebrew, Italian and other European sciences and philosophy



Readership

- historians and philosophers of science and mathematics
- students of Arabic history and culture

CAMBRIDGE UNIVERSITY PRESS

https://doi.org/10.1017/S0957423900002320 Published online by Cambridge University Press

The Editorial Committee welcomes submissions dealing with any aspect of Arabic sciences and philosophy, including comparative studies, from a historical perspective. Articles for consideration, which may be in French or English, should be submitted to:

Professor Roshdi Rashed
Centre d'histoire des sciences
et des philosophies arabes
et médiévales
CNRS
7 rue Guy Môquet
B.P. n° 8
94801 Villejuif Cedex
France

General editorial correspondence and books for review should be sent to the Paris address.

1 Articles should normally be between 4000 and 8000 words. Two copies should be submitted together with an abstract of up to 200 words.

2 Manuscripts should be typed on one side of the paper only in double spacing throughout (including notes) with generous margins. Contributors are encouraged to prepare their papers on a Macintosh using Microsoftword 4.0 and, once accepted, to provide a Macintosh disk of the final version together with the hardcopy printout.

3 Footnotes should be numbered consecutively through the manuscript.

4 Bibliographical references should be given in full at the first mention in the notes and a short title used thereafter.

Examples:

Al-Ḫwārizmī, *Kitāb al-ǧabr wa al-muqābala*, ed. 'Alī Muṣṭafā Mušarrafa and Muḥammad Mursī Aḥmad (Cairo, 1939).

John Beckmann, *A History of Inventions, Discoveries and Origins*, 4th edn, trans. William Johnstone, 2 vols. (London, 1846), vol. I.

Paul Kraus, 'Plotin chez les Arabes: Remarques sur un nouveau fragment de la paraphrase arabe des *Ennéades*', *Bulletin de l'Institut d'Egypte*, 23 (1941): 263–95.

Otto Neugebauer, *A History of Ancient Mathematical Astronomy*, 3 vols., Studies in the History of Mathematics and Physical Sciences 1 (Berlin and New York, 1975).

Short titles:

Al-Ḫwārizmī, *Kitāb al-ǧabr*, p. 90.

Beckmann, *A History of Inventions*, I, 16–21.

Kraus, 'Plotin chez les Arabes', pp. 265–8.

Neugebauer, *Ancient Mathematical Astronomy*, I, 17–18.

5 Contributors may use *either* British *or* American conventions for spelling and punctuation, but should ensure that conventions are used consistently throughout the paper.

6 Arabic script should be used only when essential. In general Arabic should be transliterated using the following system:

ء	'	ج	ǧ	ر	r	ض	ḍ	ف	f	ن	n
ب	b	ح	ḥ	ز	z	ط	ṭ	ق	q	ه	h
ت	t	خ	ḫ	س	s	ظ	ẓ	ك	k	ا	ā
ة	a	د	d	ش	š	ع	'	ل	l	ي	ī/y
ث	ṯ	ذ	ḏ	ص	ṣ	غ	ġ	م	m	و	ū/w

7 Maps and diagrams (figures) and tables should be submitted on separate pages. Figures may be submitted in rough draft initially. However, when a submission has been accepted for publication, authors are responsible for providing camera-ready versions. Figures (which may include photographs) and tables should each be numbered consecutively in arabic numerals. A separate, double-spaced list of figure captions should be provided.

8 Contributors should keep one copy of the typescript for correcting proofs. First proofs may be read by contributors provided that they can give the editors an address through which they can be reached without delay and can guarantee to return the corrected proofs to the designated editor, by airmail where necessary, within three days of receiving them. Corrections should normally be restricted to printer's errors.

9 Contributors of accepted articles will be asked to assign their copyright, on certain conditions, to Cambridge University Press to help protect their material.
