The Cambridge History of China

Volume 12: Republican China 1912–1949, Part 1

John K. Fairbank, Editor

Edited by the doyen of Chinese modern historical studies in the West, this is the first of two volumes on the Republican period, which extends from the demise of imperial China to the establishment of the People's Republic. Leading scholars have contributed chapters that examine economic trends, including the rise of the new middle class, intellectual trends, such as the impact of foreign influences on traditional Chinese values, and political development and events up to 1928.

The Defence of Malaysia and Singapore

The Transformation of a Security System, 1957–1971

Chin Kin Wah

This study of the Anglo-Malaysian Defence Agreement from its inception in 1957 until its formal termination in 1971 discusses its economic, political, military, and diplomatic dimensions from the perspective of an evolving security system. Dr. Chin provides an illuminating background to the loose five-power defense arrangements that succeeded the Anglo-Malaysian Defence Agreement in 1971 and that continue to institutionalize, though in an attenuated fashion, certain external interests in the defense of the Malaysia-Singapore region.

Rulers, Merchants and Bazaars

North Indian Society in the Age of British Expansion, 1780–1880

C.A. Bayly

In tracing the evolution of north Indian towns and merchant communities, Dr. Bayly shows how corporate bodies of merchants, priests, and gentry consolidated their controlling position within the emergent states and how the British built their new empire on this existing network of communities. He goes on to examine the social history of the towns under early colonial rule, providing an analysis of the culture and of the business methods of the Indian merchant family.

Rank and Rivalry

The Politics of Inequality in Rural West Bengal

Marvin Davis

Adopting a holistic approach that attends equally to social and cultural material, Marvin Davis develops a novel perspective on hierarchy and politics in rural Bengal. He uses indigenous concepts of inequality to posit a challenging new "transformational" theory of social rank, arguing that status groups in India are not static but in a state of constant flux, and offering an original interpretation of the individual's role in this process.

Agriculture in China's Modern Economic Development

Nicholas R. Lardy

An exploration of the relationship between the Chinese peasantry, who are the fundamental base of support for the revolutionary Chinese Communist Party, and the state-led economic system established by the Party after 1949. The author seeks to explain how state policies have affected the growth of agricultural output, productivity, and the rise in peasant income and consumption, and asks how effectively agriculture has supplied food for urban consumption and export earnings and contributed to capital formation and the rise of modern industry. Population and Markets in Ch'ing China

Studies of Aggregate Data from North China

Gilbert Rozman

Utilizing North China population and market data taken from the historical records of Ch'ing China (1644–1911), Gilbert Rozman analyzes population patterns and examines the changing number of markets per capita across twenty-seven prefectures over three centuries. The data provide information on two of the most important and least understood factors that were to affect China's modern development: the massive population growth prior to 1850 and the tenacity of small-scale markets as the focus of commercialization. \$34.50

The Rise of Civilization in India and Pakistan

Raymond Allchin and Bridget Allchin

Drawing primarily upon the archaeological record and supported by ethnographic, linguistic, and historical evidence, the authors trace the origins and spread of human culture in India and Pakistan from its earliest roots in Palaeolithic times through the rise and disintegration of the great Indus civilization to the emergence of regional cultures and the spread of Indo-Aryan speaking peoples. The book ends with the early Buddhist period and the appearance of city-states across Pakistan and North India.

THE CAMBRIDGE ECONOMIC HISTORY OF INDIA

Volume 1: c.1200–c.1750

Tapan Raychaudhuri and Irfan Habib, Editors

This volume begins at the time when systematic treatment of India's economic history becomes possible and ends on the eve of the country's subjugation by Britain. Some of the chapters, notably those on the period of the Sultanate (1200–1500) and on Southern India, cover research undertaken especially for this volume, and other chapters contain much hitherto unpublished data as well as new interpretations. \$79.50

Volume 2: c.1751–c.1970

Dharma Kumar and Meghnad Desai, Editors

Volume Two opens with a broad description of the Indian economy in the middle of the eighteenth century, describes general economic trends in four main regions up to the middle of the nineteenth century, and concludes with post-Independence developments in India and Pakistan. Included are a discussion of changes in the agrarian structure up to the end of 1947 and coverage of various themes throughout the economy. \$99.50

Newspapers in Asia

Contemporary Trends and Problems

edited by John A. Lent

A systematic description of the news publishing services in 24 Asian countries ranging from Afghanistan to Japan. Twenty-one internationally known contributors, including the editor, present the most up-to date and exhaustive survey available on the region's news publishing services.

The individual chapters discuss the structure and function of magazines and newspapers within the region, covering such topics as historical development, control, ownership and pressures, performance, facilities, financing, readership and reporting.

Organized into four major parts, the book begins with an introduction to freedom of the press issues in Asia. Parts Two to Four describe the publishing world of the twenty-four Asian nations arranged for convenience by regions—eight in East Asia, nine in Southeast Asia, and six in South Asia. Each part begins with an introduction to press freedom in the region under study. The book concludes with an extremely comprehensive bibliography.

JAPAN

Geisha

by Liza Cihfield Dalby

Combining ethnography with a view from the inside, Dalby examines these intriguing women, practitioners of the classical arts and unmarried companions to the Japanese male elite. She is the only non-Japanese ever accepted by geisha into their special world. Her account of this unique experience provides an intimate look into a feminine community that has been the subject of rumor and fantasy for centuries. In explaining the beauty and the paradox of geisha today, she holds up a mirror to the complexities of Japanese culture itself.

by Thomas P. Rohlen

This is the first comprehensive study in English of Japanese high schools and the most complete account, in any language, of secondary education outside the United States. Rohlen spent fourteen months in Kobe observing a cross section of urban high schools. His lively description of the institution and the experience includes sections on school organization, classroom instruction, teacher and union politics, textbooks, adolescent peer relations, and extracurricular activities. \$35.00 hardcover, \$10.95 paperback, illustrated

Heritage of Endurance

Family Patterns and Delinquency Formation in Urban Japan

by Hiroshi Wagatsuma and George A. De Vos

The authors have studied Arakawa Ward, a lower-class district of Tokyo, at first hand for many years. Their insights and conclusions concerning the processes that contribute to the comparatively low rate of delinquency in Japan and their glimpses into the ways in which one community mobilizes to intervene and to prevent juvenile delinquency help us to understand why urbanization and modernization have been relatively nontraumatic for the Japanese during the past 100 years of rapid change. \$40.00, illustrated

RED STAR OVER MALAYA

RESISTANCE AND SOCIAL CONFLICT
DURING AND AFTER
THE JAPANESE OCCUPATION, 1941-1946

CHEAH BOON KHENG

This is essentially a study of the social conflict that surfaced in Malaya, during and after the Japanese occupation. The author concentrates on the causes of wartime inter-racial conflicts between the Malays and the Chinese, the breakdown of authority during the post-war Japanese surrender interregnum, and the confrontation between the Malayan Communist Party, the Malay population, and the British during the period of the British Military Administration.

The author reconstructs the story of Malaya in this highly fluid and fateful period of its history with remarkable insight, and presents a balanced perspective of the highly sensitive issues of race relations and politics in Malaysia.

Contemporary Industrial Relations in Japan

Taishiro Shirai, editor. Foreword by Solomon B. Levine. The apparent success of Japanese industrial relations has drawn the rapt interest of western observers seeking answers to economic problems. Now, in an attempt to provide an informed and comprehensive guide to a complex situation, Taishiro Shirai has assembled fifteen provocative essays by Japan's leading economic and law scholars. The resulting effort constitutes the most vivid, detailed, and well-balanced overview of contemporary Japanese industrial relations to date.

Japanese Workers and the Struggle for Power, 1945-1947

Joe Moore. Traditional western accounts of postwar Japan's democratization have stressed the apparent ease and inevitability of that process. The resulting historical perspective, Joe Moore contends, seriously distorts reality. Drawing on essential and unmined data, including national archive records of the early Occupation, Moore unmasks an agitated, divided, and potentially explosive Japan in the years immediately following World War II. This is an important challenge to traditional histories.

AN INTRODUCTION TO ANCIENT IRANIAN RELIGION

Readings from the Avesta and the Achaemenid Inscriptions

William W. Malandra

One of the dominant religions of antiquity, Zoroastrianism is known today to only a few philologists and historians of religion. Now Malandra makes it more generally available by providing a comprehensive introduction which places it in its historical, cultural, and spiritual context. He also provides the first modern English translations of readings from the sacred text, the Avesta, and of selections from the Achaemenid inscriptions of the great kings Darius and Xerxes.

"The substance and scholarship of the book are excellent. I feel that this book will not only be useful to many students in various disciplines but also makes significant contributions to the scholarship of the Avesta. I am enthusiastic about this book."

CHINA AT THE CENTER

300 Years of Foreign Policy

MARK MANCALL, *Stanford University*

Examining Chinese foreign policy in the Qing, Republican, and Communist periods, Mancall attempts to identify the underlying structures of thought and experience that have shaped China's worldview, and thus its vision of diplomacy, since the 17th century. In particular, he argues that China has always approached its relations with the West as a form of "controlled apartness"—an understanding not merely between national powers, but entirely separate worlds.

BROKEN EARTH

The Rural Chinese

STEVEN W. MOSHER

Mosher, a cultural anthropologist, spent nearly a year in China between 1979 and 1980 conducting fieldwork among peasant villagers. Told often in their own words, this is his frank, intensely provocative account of the dilemmas of rural life in the PRC today. Included are chapters on bureaucracy, corruption, childhood, women, birth control, and ideological campaigns. "A courageous, significant book by one of the few Westerners to overcome the Chinese-foreigner syndrome."

Scholarly Entertainments

Chinese Theater: From Its Origins to the Present Day edited by Colin Mackeras. Illustrated, \$19.95. *Comments from the editor:* "The book has no messages in the sense that it does not advocate any point of view, but it does contain several themes. One of these is the close integration of theater into Chinese society in all ages. The book focuses a good deal on audiences, including the classes of people at different periods who have enjoyed or patronized particular forms of theater. Another theme is the important role of theater in Chinese society as a form of mass communication that creates images of good and evil in the minds of the people. Chinese theater is not only well integrated into society but within itself. Thus in most forms, costumes, makeup, acting, and music fit together so tightly that no performer can excel in one branch without a mastery of all the others. Above all, this book seeks to convey the tremendous variety of Chinese theater. It is a form of entertainment that has excited millions of people through the ages and continues to do so today."

Rhearsals of Revolution: The Political Theater of Bengal by Rustom Bharucha. \$25.00. *Comments from James R. Brandon, Professor of Asian Theater, University of Hawaii:* "This is the first detailed account of any aspect of contemporary Indian theater to reach Western readers. Mr. Bharucha sympathetically, yet trenchantly, examines a sizzling topic—revolutionary theater in Bengal. His description of the tumultuous politics and the vibrant theater productions of Utpal Dutt and Badal Sircar linger long in the mind. This is fascinating reading for anyone who cares about India or the role of theater in today's world."

The Floating World by James A. Michener, with commentary by Howard A. Link. Illustrated, paper \$12.95. *Comments from R. T. Paine in the New York Times:* "As writer and novelist, reporter and enthusiast on subjects Japanese, James A. Michener is well qualified for his task. *The Floating World* consequently is not only a vivid and lively history of the Japanese print which should appeal to anyone who has ever looked at and enjoyed a print, but it also has value to scholars. For Mr. Michener had many unusual sources available to him in Japan, and has assembled here a remarkable amount of new information." An updated reissue of Michener's 1954 classic.
