# Financial History Review

Published for the European Association for Banking and Financial History

## Editor

Stefano Battilossi, *Universidad Carlos III Madrid, Spain*

## Associate Editor (North America)

David Weiman, *Barnard College, Columbia University, USA*

Established in 1994, *Financial History Review* has earned a solid international reputation as an academic journal committed to research of high scholarly standards. The Review deliberately seeks to embrace a broad approach to financial, banking and monetary history, which appeals to a wide audience of historians, economists and practitioners. We welcome different perspectives including analytical narratives, theoretically-inspired research, advanced empirical analysis, and the interrelations between history, finance, policy, culture and society.

*FHR* is keen to provide a global perspective on national and international financial history and publishes research articles dealing with any historical period and country or regional area. The Reviews, through its section "The Past Mirror", is also an assiduous advocate of the relevance of history for a proper understanding of present financial and monetary developments, and no less importantly for informed and educated policy responses to them.
