Of the Causes of Improvement in the productive Powers of Labour, and of the Order according to which its Produce is naturally distributed among the different Ranks of the People

The greatest "improvement" in the productive powers of labour, and a greater than R_s the supply price, the production is profitable, and will be increased. R , the amount, may call it, will move to the right. On the other hand is, if R is vertically under a point of intersection of the curves, demand and supply are in equilibrium.

the person holding the string swings his hand in a very rhythmical and partly arbitrary, the illustration will show the difficulties of some very real and practical problems. For indeed the demand and supply schedules do not

V. I. 1. To represent the equilibrium of demand and supply geometrically, draw the demand and supply curves together as in Fig. 19. If then R is the rate at which production is being actually carried on, and R_d the rate at which it would be carried on if the price were greater than R_s the supply price, the production is profitable, and will be increased. R , the amount, may call it, will move to the right. On the other hand is, if R is vertically under a point of intersection of the curves, demand and supply are in equilibrium. We take this as the typical diagram for stable equilibrium of a commodity that obeys the law of diminishing returns. If we had made SS' a horizontal straight line, we should have presented the case of "constant return," in which the price is the same for all amounts of the commodity. If SS' inclined negatively, but less steeply than D , the necessity for this condition will appear more fully later on), we should have a stable equilibrium for a commodity which obeys the law of increasing returns. In either case the above reasoning remains unchanged without the alteration of a letter; but the last case introduces difficulties which we have arranged

may happen they have and commodities are not satisfied with. Of course and Non-influences, of which persist and Non-broadened § 7. with in

CAMBRIDGE UNIVERSITY PRESS

JOURNAL OF THE HISTORY OF ECONOMIC THOUGHT

Journal of the History of Economic Thought (JHET) is the journal of the History of Economics Society. *JHET* is a quarterly, refereed journal and welcomes papers that reflect the full spectrum of scholarly analysis within the history of economic thought. The *Journal* also features a regular Book Review section, which includes reviews by leading specialists.

Editors

Pedro Garcia Duarte, *INSPER Institute*
Jimena Hurtado, *Universidad de los Andes*

Associate Editors

Erwin Dekker, *George Mason University*
Catherine Herfeld, *University of Hannover*
Harro Maas, *University of Lausanne*
Alexandre Mendes Cunha, *Federal University
of Minas Gerais*

Book Review Editors

Catherine Herfeld, *University of Hannover*
Christina Laskaridis (incoming),
The Open University

Assistant to the Editors

Daniel Zarama, *Université de Lorraine*

Editorial Board Members

Tony Aspromourgos, *University of Sydney*
Roger Backhouse, *University of Birmingham and
Erasmus University Rotterdam*
Jeff Biddle, *Michigan State University*
Juan Carvajalino, *University Paris 8:
Vincennes-Saint-Denis*
Maurício Coutinho, *University of Campinas*
