Official Journal of Health Technology Assessment International

## Editor-in-Chief

**Marjukka Mäkelä, M.D., Ph.D., M.Sc.**

Research Professor, FINOHTA (Finnish Office for Health Technology Assessment)  
at THL (National Institute for Health and Welfare)

P.O. Box 30

00271 Helsinki, Finland

Telephone: +358 20 610 7290; Fax: +358 20 610 7278

Email: marjukka.makela@thl.fi

**Aims and Scope:** The *International Journal of Technology Assessment in Health Care* has as its specific scope of interest the generation, evaluation, diffusion, and use of health care technology. It addresses the diverse audience of health care providers within medicine, public health, nursing, and the allied health professions; decision makers in government, industry, and health care organizations; and the scholarly disciplines such as ethics, economics, law, history, sociology, psychology, and engineering. The journal aims to fill the needs of those interested in the complexities of interaction between people and technology; technology as a force in social and organizational change; and technology as it is created, produced, applied, and paid for. It examines descriptively and analytically the effects of technology as perceived from the vantage point of different academic disciplines and policy-making organizations and examines methods necessary to conduct studies and evaluations of technology.

The focus of the journal is the international health care community. The experience of different countries in their encounter with health care technology, viewed comparatively, is invaluable to understanding its effects. Further, it is important to establish ties with the scholars, governments, and private institutions concerned with health care technology so that the experiences and learning of the international community in its parts can benefit the whole. The use of technology in health care has created some of the major dilemmas in society today. The journal serves as a forum for the wide range of professionals interested in the assessment of medical technology, its consequences for patients, and its impact on society.

**Publishing, Advertising, and Subscription Offices:** Cambridge University Press, 32 Avenue of the Americas, New York, NY 10013-2473, U.S.A. (for U.S.A., Canada, and Mexico); or Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU, UK (for U.K. and elsewhere).

**2011 Subscription Information:** *International Journal of Technology Assessment in Health Care* (ISSN 0266-4623) is published quarterly in January, April, July, and October by Cambridge

University Press, 32 Avenue of the Americas, New York, NY 10013-2473; Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU, UK. Annual institutional subscription rates for Volume 27 (2011): Print and online US \$552.00, online only US \$462.00, and print only US \$500.00 in the U.S.A., Canada, and Mexico; Print and online UK £306.00, online only UK £260.00, and print only UK £278.00 elsewhere. Individual rates: Print and online US \$263.00 and print only US \$239.00 in the U.S.A., Canada, and Mexico; Print and online UK £153.00 and print only UK £132.00 elsewhere. Prices include postage; air mail or registered mail is extra. Single part: US \$137.00 in the U.S.A., Canada, and Mexico; UK £79.00 elsewhere. Back volume prices are available upon request. *International Journal of Technology Assessment in Health Care* and other Cambridge journals can be found at <http://journals.cambridge.org>

## CONTENTS

### EDITORIAL

- 99 Mind sharpeners for scientists: The EQUATOR Network  
*Marjukka Mäkelä, Minna Kaila, and Ken Stein*

### ASSESSMENTS

- 101 Cost-effectiveness analysis of cast versus splint in children with acceptably angulated wrist fractures  
*Camilla von Keyserlingk, Kathy Boutis, Andrew R. Willan, Robert Borden Hopkins, and Ron Goeree*
- 108 Drug-eluting stents in patients at high risk of restenosis: Assessment for France  
*Emmanuelle Schapiro-Dufour, Michel Cucherat, Elodie Velzenberger, Hubert Galmiche, Catherine Denis, and Jacques Machecourt*

### METHODS

- 118 Health technology assessment in the era of personalized health care  
*Lidia Becla, Jeantine E. Lunshof, David Gurwitz, Tobias Schulte in den Bäumen, Hans V. Westerhoff, Bodo M. H. Lange, and Angela Brand*
- 127 When the decision is what to decide: Using evidence inventory reports to focus health technology assessments  
*Matthew D. Mitchell, Kendal Williams, Gretchen Kuntz, and Craig A. Umscheid*
- 133 Bridging the gap between aggregate data and individual patient management: A Bayesian approach  
*Gert Jan van der Wilt, Hans Groenewoud, and Piet van Riel*
- 139 KNOW ESSENTIALS: A tool for informed decisions in the absence of formal HTA systems  
*Joseph L. Mathew*
- 151 Piloting the development of a cost-effective evidence-informed clinical pathway: Managing hypertension in Jordanian primary care  
*Kalipso Chalkidou, Joanne Lord, Nour A. Obeidat, Ibriham A. Alabbadi, Adrian G. Stanley, Rania Bader, Aiman Momani, Rachel M. O'Mahony, Lara Qatami, and Derek Cutler*

### POLICIES

- 159 Coverage with evidence development: The Ontario experience  
*Leslie Levin, Ron Goeree, Mark Levine, Murray Krahn, Tony Easty, Adalstein Brown, and David Henry*
- 169 Risk sharing agreements: What lessons from Italy?  
*Livio Garattini and Gianluigi Casadei*
- 173 Task shifting in maternal and child health care: An evidence brief for Uganda  
*Harriet Nabudere, Delius Asimwe, and Rhona Mijumbi*
- 180 Bridging the gap between methods research and the needs of policy makers: A review of the research priorities of the National Institute for Health and Clinical Excellence  
*Louise Longworth, Mark J. Sculpher, Laura Bojke, and Jonathan C. Tosh*

### LETTERS TO THE EDITOR

- 188 Presenting search strategies  
*Karin van der Hoorn, Josepha Plevier, Jan W. Schoones, and Jessica M. Langenhoff*
- 189 Reporting information retrieval processes: Reply  
*Christina Niederstadt and Sigrid Droste*
