

INDEX OF AUTHORS

Abarzúa F., J.	107	Hughes, R. E.	77	Rozovski N., J.	107
Allen, S. H.	15	Hutton, K.	165	Sheppard, H. G.	175
Annison, E. F.	165	Jones, P. R.	77	Singleton, A. G.	3
Bailey, F. J.	165	Marston, H. R.	15	Smith, R. H.	181
Beattie, A. W.	153	McAllan, A. B.	181	Stewart, R. J. C.	175
Bilby, L. W.	127	Mönckeberg B., F.	107	Subramanian, T. A. V.	97
Black, J. L.	31	Morris, R. J. H.	57	Swaby, S. L.	15
Braude, R.	113	Moss, R.	135	Ternouth, J. H.	153
Coward, W. A.	145	Newport, M. J.	113	Watson, A.	135
Deo, M. G.	97	Novoa S., F.	107	White, R. G.	57
Glennie, W.	135	Parr, R.	135	Widdowson, E. M.	127
Heard, C. R. C.	1	Porter, J. W. G.	113	Williams, V. J.	57
Hecker, J. F.	85	Porter, P.	3		

FORTHCOMING PAPERS

The next issue of the *British Journal of Nutrition* will appear in March. It is hoped to publish in it the following papers:

- The sodium requirements of growing steers given an all-sorghum grain ration. By J. G. MORRIS and R. J. W. GARTNER.
- The quality of protein in various lines of peas. By SATINDER BAJAJ, OLAF MICKELSEN, L. R. BAKER and DERAN MARKARIAN.
- The effects of some dietary changes upon the concentrations of serum lipids in rats. By D. MCGREGOR.
- Digestion of concentrates in sheep. 1. The effect of increasing the concentration of soya-bean meal in a barley diet on apparent disappearance of feed constituents along the digestive tract. By E. R. ØRSKOV, C. FRASER and I. McDONALD.
- Trypsin inhibitor and the nutritional value of soya beans. By S. LEPKOVSKY, F. FURUTA and MILDRED K. DIMICK.
- Digestion of concentrates in sheep. 2. The effect of urea or fish-meal supplementation of barley diets on the apparent digestion of protein, fat, starch and ash in the rumen, the small intestine and the large intestine, and calculation of volatile fatty acid production. By E. R. ØRSKOV, C. FRASER and I. McDONALD.
- The effect of an oral glucose load on serum free amino acid concentrations in children before and after treatment for kwashiorkor. By R. F. GRIMBLE and R. G. WHITEHEAD.
- The effects of environmental temperature on the growth and metabolism of pigs given different amounts of food. 1. Nitrogen metabolism, growth and body composition. By M. F. FULLER and A. W. BOYNE.
- Changes in serum creatine kinase and other biological measurements associated with musculature in children recovering from kwashiorkor. By S. REINDORP and R. G. WHITEHEAD.
- The value of hydrocarbon-grown yeast as a source of protein for growing pigs. By R. S. BARBER, R. BRAUDE, K. G. MITCHELL and A. W. MYRES.
- Some observations on the vitamin B₁₂ content of rat's milk. By D. L. WILLIAMS and G. H. SPRAY.
- The course of digestion of different food proteins in the rat. 2. The effect of feeding carbohydrate with proteins. By S. BURACZEWSKI, J. W. G. PORTER, B. A. ROLLS and TERESA ZEBROWSKA.
- The influence of biliary constituents in an acid medium on the micellar solubilization of unesterified fatty acids of the duodenal digesta of sheep. By AILEEN M. SCOTT and A. K. LOUGH.
- The bromine content of human tissue. By R. F. CRAMPTON, P. S. ELIAS and S. D. GANGOLLI.

The British Journal of Nutrition

Volume 25 No. 1 January 1971

CONTENTS

Obituary Notice: Benjamin Stanley Platt. By C. R. C. HEARD	1
The degradation of lignin and quantitative aspects of ruminant digestion. By P. PORTER and A. G. SINGLETON	3-14
Iron metabolism in copper-deficient rats. By the late H. R. MARSTON, SHIRLEY H. ALLEN and S. L. SWABY	15-30
A theoretical consideration of the effect of preventing rumen fermentation on the efficiency of utilization of dietary energy and protein in lambs. By J. L. BLACK	31-55
Acute in vivo studies on glucose absorption from the small intestine of lambs, sheep and rats. By R. G. WHITE, V. J. WILLIAMS and R. J. H. MORRIS	57-76
The influence of sex and age on the deposition of L-xyloascorbic acid in tissues of guinea-pigs. By R. E. HUGHES and P. R. JONES	77-83
Metabolism of nitrogenous compounds in the large intestine of sheep. By J. F. HECKER	85-95
Iodine metabolism in children and women with endemic goitre in Ceylon. By M. G. DEO and T. A. V. SUBRAMANIAN	97-105
Cranial transillumination in early and severe malnutrition. By JAIME ROZOVSKI N., FERNANDO NOVOA S., JORGE ABARZÚA F. and FERNANDO MÖNCKEBERG B.	107-111
Artificial rearing of pigs. 3. The effect of heat treatment on the nutritive value of spray-dried whole-milk powder for the baby pig. By R. BRAUDE, M. J. NEWPORT and J. W. G. PORTER	113-125
Chemical composition of growth in nestling blackbirds and thrushes. By LORETTE W. BILBY and ELSIE M. WIDDOWSON	127-134
Effects of dietary supplements of newly growing heather on the breeding of captive red grouse. By R. MOSS, A. WATSON, R. PARR and W. GLENNIE	135-143
The erythrocyte membrane in kwashiorkor. By W. A. COWARD	145-151
Studies of the food intake of sheep at a single meal. By J. H. TERNOUTH and A. W. BEATTIE.	153-164
Measurement of the bacterial nitrogen entering the duodenum of the ruminant using diamino-pimelic acid as a marker. By K. HUTTON, F. J. BAILEY and E. F. ANNISON	165-173
Protein-calorie deficiency in rats. Growth and reproduction. By R. J. C. STEWART and HILDA G. SHEPPARD	175-180
Nucleic acid metabolism in the ruminant. 3. Amounts of nucleic acids and total and ammonia nitrogen in digesta from the rumen, duodenum and ileum of calves. By R. H. SMITH and A. B. MCALLAN	181-190
