POLITICAL THEORY

G. C. FIELD

This last work by the author of *Plato and his Contemporaries* incorporates the result of long reflection and teaching experience of a philosopher and scholar among whose main interests were ethics and politics. It analyses and discusses some basic concepts of modern political theory, in particular the notions of the State, of Sovereignty and the Law, and explains the nature and functions of democratic institutions. The last chapter discusses the relation between politics, economics and ethics. The book is written in non-technical language and is suitable for the university student, the intelligent layman, and, of course, the specialist.
