Promoting Excellence in Peri-Anaesthetic Care Internationally

THE ART OF INSPIRATION

SIMS is a world leading medical manufacturing group, with companies in Europe, North America, South Africa and the Pacific region, providing innovative products to critical care and community care professionals worldwide.

It takes a certain inspiration to create a world leading range of respiratory care products. Products used by healthcare professionals in more than 90 countries around the world. That's what makes SIMS Portex a world leader in respiratory care. What's more, we remain fanatical about quality. You only have to touch our products to feel the difference that sets us apart. All in all, we've got respiratory care down to a fine art. Isn't that an inspiring thought?
