BURBERRY

AIRMEN'S SAFEGUARDS

ensure Healthful Warmth and Protection
at all altitudes, yet Ventilate Naturally.

The Burberry Air-Warm

provides a lightweight, yet warm and dependable
defence against rain, mist or cold.

The inside is of luxuriously soft thick Camel Fleece,
The coat is workmanlike in every detail, and has nothing
about it to catch in any part of the machine.

Its two parts can be worn separately or together—the
outside alone providing a Weatherproof that excludes
wet or wind without rubber or other airtight material;
the Fleece lining, a smart British Warm; and the
two together the staunchest self-ventilating safeguard
possible.

*During the War, Officers' Service "Burberrys,"
Tielockens and Burberry Trench- and Air-Warms
Cleaned and Re-proofed FREE OF CHARGE.*

Can the part ever be greater than the whole? It could never be proved by Algebraical formulæ, but, in one sense, a good case could be made out for the proposition. In the making of an Aeroplane it so often happens that the whole life of the machine rests upon the finish and accuracy of one small part—that does not only the life of the Machine but its Pilot frequently depend. Small parts must be obtained from reliable makers.

IF IT'S A SMALL PART GET IT FROM PULVO.

LITTLE LECTURES ON LUBRICATION.

Efficient lubrication and "Flip-Flap" Lubricators are almost synonymous terms. "Flip-Flaps" ensure economical, reliable lubrication.

The flap keeps the bearing grit-free, reduces friction, saves lubricant. "Flip-Flap" Lubricators are made in many sizes, and all standard threads.

Flip-Flap LUBRICATORS
