

[Continued from p. iv of wrapper]

Energy intake and energy utilization in the laying hen in relation to ambient temperature. By R. H. DAVIS, O. E. M. HASSAN and A. H. SYKES	39A
Further observations on the influence of meat and fish meals on the survival of chicks inoculated with <i>Salmonella gallinarum</i> . By I. M. SMITH and R. HILL	40A
Influence of diet on the relationship between endogenous faecal loss of magnesium and plasma magnesium concentration in sheep. By T. F. ALLSOP and J. A. F. ROOK	40A
The effect of grinding and pelleting a roughage on its digestion by sheep. By A. H. ALWASH and P. C. THOMAS	41A 42A
<i>b</i> -Hydroxybutyrate as a precursor of the fat of goat's milk. By S. MCCARTHY, G. H. SMITH and J. A. F. ROOK	43A
The effect of processing maize on its digestion in sheep. By D. E. BEEVER, J. F. COEHLIO DA SILVA and D. G. ARMSTRONG	45A
The influence of propionylation and heat treatment on the value of proteins as sources of amino acids for chicks. By SHIRLEY A. VARNISH and K. J. CARPENTER	46A
The nutritive value of field beans (<i>Vicia Faba</i>) for pigs. By R. M. LIVINGSTONE, V. R. FOWLER and A. A. WOODHAM	47A 48A
Iron-deficiency anaemia evaluated by the cardio-respiratory response to muscular exercise. By HARALD T. ANDERSEN	49A
Adipose tissue fatty acids of young and mature Jersey cattle. By W. M. F. LEAT and G. A. EMBLETON	50A
Performance and the fatty acid composition of the contents of the small intestine of baby pigs given milk substitute diets containing different fats. By R. BRAUDE, M. J. NEWPORT and J. W. G. PORTER	51A
Nucleic acids in bovine nutrition. 4. Products of nucleic acid breakdown in the rumen. By R. H. SMITH and A. B. MCALLAN	52A
Lysine and arginine interactions affecting their absorption from the duodenum of the pig. By S. BURACZEWSKI, A. G. CHAMBERLAIN, F. HORSZCZARUK and TERESA ZEBROWSKA	53A 55A
<i>Two Hundred and Twenty-second Meeting</i>	
A comparison of two sets of food composition data. By BETTY R. STANTON and ERICA F. WHEELER	56A
Correlation of protein intake and nitrogen and urea in urine. By R. LUYKEN, B. DUBOIS, D. C. LEEGWATER, N. A. PIKAAR and W. VAN STAVEREN	56A 57A
Can nitrogen balance be maintained on 1000-kcalories-diet? By D. J. NAISMITH and M. DIANE HOLDSWORTH	57A
A reappraisal of the 'fattening' property of cyclamate. By D. J. NAISMITH and ARJON SMITS	59A
An alternative explanation for 'specific dynamic action' in adult man. By J. S. GARROW	60A
Protein quality of meat meals. By J. ATKINSON and K. J. CARPENTER	60A
The effect of zinc level on protein utilization in the chick and quail. By J. ATKINSON and F. H. KRATZER	62A
Measurement of amino acid levels in portal blood plasma of pigs and of rate of portal blood flow. By R. BRAUDE, I. R. CUTTS, A. W. MYRES and J. W. G. PORTER	63A
The amino acid requirements of ruminants. By A. E. WAKELING, D. LEWIS and E. F. ANNISON	63A
Relation between rumen fermentation and milk fat secretion in cows given low-roughage rations. By J. D. SUTTON	64A
Replacement of sucrose by dried glucose syrup in the diet of rats susceptible to dental caries. By T. H. GRENBY	64A
Tissue lipogenesis in rats fed different carbohydrates. By D. J. NAISMITH and N. A. KHAN	64A
Differences in the throughput of triglycerides in the plasma of rats fed various carbohydrates. By D. J. NAISMITH and N. A. KHAN	64A

INDEX OF AUTHORS

Allsop, T. F.	40A	Goulden, J. D. S.	344	Oomen, H. A. P. C.	197
Alvares Herrero, M. del C.	26A	Greenhalgh, J. F. D.	28A	Orskov, E. R.	31A
Alwash, A. H.	41A	Grenby, T. H.	63A	Pettitt, L. E.	213
Andersen, H. T.	47A	Harper, R.	317	Pikaar, N. A.	53A
Anderson, D. M.	27A	Harris, C. I.	37A	Porter, J. W. G.	49A, 60A
Anderson, R. S.	330	Hassan, O. E. M.	39A	Rea, J. N.	223
Annisson, E. F.	60A	Hill, R.	40A	Reveron R., A. E.	25A
Armstrong, D. G.	43A	Holdsworth, M. D.	55A	Rofe, P. C.	330
Ash, R. W.	27A	Hovell, F. D. DeB.	28A	Rook, J. A. F.	40A, 42A
Atkinson, J.	57A, 59A	Holmes, W.	237	Sen, R. N.	36A
Baron, P. J.	278	Horszczaruk, F.	51A	Shannon, D. W. F.	23A, 23A, 24A

Proceedings of the Nutrition Society

CONTENTS OF VOL. 29, No. 2, DECEMBER 1970

SYMPOSIUM PROCEEDINGS

Two Hundred and Twentieth Scientific Meeting

NUTRITIONAL PROBLEMS IN THE TROPICS

	PAGE
Evaluation of diets in relation to nutritional status. By D. S. MILLER	191
Interrelationship of the human intestinal flora and protein utilization. By H. A. P. C. OOMEN	197
Experimental protein-calorie deficiency. By R. J. C. STEWART	206
Nutritional anaemias. By A. W. WOODRUFF, N. R. H. EL-MARAGHI, L. E. PETTITT and R. J. C. STEWART	213
Host-parasite relations: nutrition and genetics in filariasis. By W. E. KERSHAW, D. M. STOREY and PHYLLIS D. WELLS	218
Social and nutritional influences on morbidity: a community study of young children in Lagos. By J. N. REA	223
Nutrition education in rural societies. By DAVID MORLEY	230

Two Hundred and Twenty-first Scientific Meeting

THE FUTURE OF ANIMALS AS SOURCES OF HUMAN FOOD

Animals for food. By W. HOLMES	237
Domesticated ruminants as sources of human food. By K. L. BLAXTER	244
The role of poultry. By W. BOLTON	253
The future of animals as sources of human food. Pigs-whither? By R. BRAUDE	262
Meat production from wild herbivores. By R. N. B. KAY	271
The future pattern of food consumption and marketing. By P. J. BARON	278

Two Hundred and Twenty-third Scientific Meeting

ORGANOLEPSIS AND NUTRITION: THE SENSORY PERCEPTION OF FOOD

A behavioural approach to organoleptic properties of food. By J. TREMOLIÈRES	285
Instrumental assessment of food appearance. By D. B. MACDOUGALL	292
Instrumental methods for evaluating food texture. By P. SHERMAN	298
Some aspects of the measurement of flavour. By D. G. LAND	309
On making food attractive. By ROLAND HARPER	317
Food selection by ruminants. By JOHN G. GORDON	325
Food preference in domestic pets. By P. C. ROFE and R. S. ANDERSON	330
Do laboratory animals like eating? By W. LANE-PETTER	335
Food preferences of hospital patients. By G. GLEW	339
Studies of food intakes of schoolchildren. By AILSA MELTON and BETTY Y. WINSTANLEY	344
Flavours of dairy products. By J. D. S. GOULDEN	344
The complex background to the sensory qualities of meat and fish. By J. A. LOVERN	348

ABSTRACTS OF COMMUNICATIONS

Two Hundred and Eighteenth Meeting

Effects on chick growth of adding glutamic acid or diammonium citrate to diets containing crystalline essential amino acids. By D. W. F. SHANNON, R. BLAIR, J. M. McNAB and D. J. W. LEE	23A
Glutamic dehydrogenase levels and formation of glutamic acid in the livers of chicks fed synthetic diets. By D. J. W. LEE, J. M. McNAB, D. W. F. SHANNON and R. BLAIR	23A
The incorporation of ammonium nitrogen into amino acids by chick liver homogenates. By J. M. McNAB, D. J. W. LEE and D. W. F. SHANNON	24A
Intake and digestibility of silage by sheep affected with a gut parasite. By A. E. REVERON R., J. H. TOPPS G. C. HUNTER	25A
The effect of change of rations on the rate of flow of liquid digesta from the rumen of sheep. By MARIA DEL CARMEN ALVAREZ HERRERO, J. L. CLAPPERTON and J. W. CZERKAWSKI	26A
Experimental diabetes mellitus in the pig. By D. M. ANDERSON and R. W. ASH	27A
The utilization of salts of acetic acid by growing lambs. By F. D. DEB. HOVELL and J. F. D. GREENHALGH	28A
The human taste threshold to alcohol and its implications. By C. W. M. WILSON	29A
The automated estimation of chromic oxide. By J. MATHIESON	30A
The effect of increasing the concentration of urea or fish meal in a rolled-barley diet on protein absorption from the small intestine of sheep. By E. R. ORSKOV and C. FRASER	31A
Voluntary intake of roughage diets by ruminants. By S. BEN-SAUD	32A
Effects of dietary calcium and phosphorus concentrations on the faecal excretion of copper, manganese and zinc in sheep. By N. F. SUTTLE and A. C. FIELD	33A
Mineral excretion by three pairs of monozygotic cattle twins. By A. C. FIELD and N. F. SUTTLE	34A
The estimation of the body composition of living pigs by ⁴² K dilution. By M. F. FULLER, R. A. HOUSEMAN and A. CADENHEAD	35A
Vitamin E, training and performance in adolescent swimmers. By I. M. SHARMAN, M. G. DOWN and R. N. SEN	36A
Effect of loss of incisors on the excretion of faecal dry matter by grazing sheep. By A. C. FIELD and C. I. HARRIS	37A

Two Hundred and Nineteenth Meeting

Influence of the addition of molybdenum on the digestibility and palatability of a diet for sheep. By G. VARELA, J. J. ESCRIVA and J. BOZA	38A
--	-----
