NUTRITION RESEARCH REVIEWS

Editor-in-Chief

Jayne V. Woodside, *Queen's University, Belfast, UK*

Nutrition Research Reviews offers a comprehensive overview of nutritional science today. By distilling the latest research and linking it to established practice, the journal consistently delivers the widest range of in-depth articles in the field of nutritional science and has done so for the past twenty-one years. It presents up-to-date, concise and critical reviews of key topics in nutrition science, advancing new concepts and hypotheses that encourage the exchange of fundamental ideas on nutritional well-being in both humans and animals.

PHN

PUBLIC HEALTH NUTRITION

Editor-in-Chief

Marilyn Tseng, *California Polytechnic State University, USA*

Public Health Nutrition provides an international peer-reviewed forum for the publication and dissemination of research and scholarship aimed at understanding the causes of, and approaches and solutions to, nutrition-related public health achievements, situations and problems around the world. The journal publishes original and commissioned articles, commentaries and discussion papers for debate.

PNS

PROCEEDINGS OF THE NUTRITION SOCIETY

Editor-in-Chief

Maria O'Sullivan

Trinity College Medical Centre, Republic of Ireland

Proceedings of the Nutrition Society publishes papers and abstracts presented by members and invited speakers at the scientific meetings of The Nutrition Society. The journal provides an invaluable record of the scientific research currently being undertaken, contributing to 'the scientific study of nutrition and its application to the maintenance of human and animal health.'

Special sales and supplements:

This Journal accepts relevant advertisements and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplements on behalf of academic and corporate collaborators. Please contact Sarah Maddox at the Cambridge address for further details. E-mail: special_sales@cambridge.org

Subscription information:

British Journal of Nutrition is an international journal published by Cambridge University Press on behalf of The Nutrition Society. The twelve issues starting January 2013 comprise Volume 109, the twelve issues starting July 2013 comprise Volume 110.

Annual subscription rates:

Volumes 109/110 (24 issues):
Internet/print package £1302/\$2538/€2085
Internet only: £956/\$1864/€1527

Any **supplements** to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

Back volumes are available. Please contact Cambridge University Press for further information.

Claims for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

US POSTMASTERS: please send address corrections to *British Journal of Nutrition*, Cambridge University Press, 100 Brook Hill Drive, West Nyack, New York 10994-2133.

Directions to Contributors are available from the Society at the address below or can be found on the Society's website at <http://www.nutrition society.org> (an abbreviated Notes for Authors can be found inside the back cover).

Offprints: The author (or main author) of an accepted paper will receive a copy of the PDF file of their article. There will be an option to purchase paper offprints, these should be ordered at proof stage. No page charges are levied by this journal.

Copyright: As of 1 July 2000 the copyright of all articles submitted to *British Journal of Nutrition* are retained by the authors or their institutions. For articles prior to this date permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from the Society, at: The Publications Office, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, Hammersmith, London W6 7NJ, UK.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see www.fsc.org for information.

British Journal of Nutrition is covered in Current Contents®/Agriculture, Biology & Environmental Sciences, SciSearch®, Research Alert®, Current Contents®/Life Sciences, Index Medicus® (MEDLINE®), AGRICOLA®, CAB Abstracts™, Global Health, BIOSIS® Database, EMBASE/Excerpta Medica and Elsevier BIOBASE/Current Awareness in Biological Sciences, CINAHL, and Chemical Abstracts Service.

Molecular Nutrition

Oligomerised lychee fruit-derived polyphenol attenuates cognitive impairment in senescence-accelerated mice and endoplasmic reticulum stress in neuronal cells.

T. Sakurai, K. Kitadate, H. Nishioka, H. Fujii, J. Ogasawara, T. Kizaki, S. Sato, T. Fujiwara, K. Akagawa, T. Izawa & H. Ohno 1549–1558

Fatty acid desaturase 2 (FADS2) insertion/deletion polymorphism impact on muscle fatty acid profile in European grayling (*Thymallus thymallus*).

B. Renaville, F. Tulli, M. Bruno, E. Tibaldi & M. Messina 1559–1564

Metabolism and Metabolic Studies

Propionic and butyric acids, formed in the caecum of rats fed highly fermentable dietary fibre, are reflected in portal and aortic serum.

G. Jakobsdottir, C. Jädert, L. Holm & M. E. Nyman 1565–1572

Prolonged maternal vitamin C deficiency overrides preferential fetal ascorbate transport but does not influence perinatal survival in guinea pigs.

J. G. Schjoldager, P. Tveden-Nyborg & J. Lykkesfeldt 1573–1579

Resveratrol and fish oil reduce catecholamine-induced mortality in obese rats: role of oxidative stress in the myocardium and aorta.

P. R. M. Ávila, S. O. Marques, T. F. Luciano, M. F. Vitto, J. Engelmann, D. R. Souza, S. V. Pereira, R. A. Pinho, F. S. Lira & C. T. De Souza 1580–1590

Early growth and postprandial appetite regulatory hormone responses.

M.-M. Perälä, E. Kajantie, L. M. Valsta, J. J. Holst, J. Leiviskä & J. G. Eriksson 1591–1600

Nutritional Endocrinology

Improvement of the metabolic syndrome profile by soluble fibre – guar gum – in patients with type 2 diabetes: a randomised clinical trial.

V. Dall'Alba, F. M. Silva, J. P. Antonio, T. Steemburgo, C. P. Royer, J. C. Almeida, J. L. Gross & M. J. Azevedo 1601–1610

Effect of vitamin D administration in vitamin D-deficient pregnant women on maternal and neonatal serum calcium and vitamin D concentrations: a randomised clinical trial.

S. Hashemipour, F. Lalooha, S. Z. Mirdamadi, A. Ziaee & T. D. Ghaleh 1611–1616

Nutritional Immunology

Effect of *Lactobacillus brevis* KB290 on the cell-mediated cytotoxic activity of mouse splenocytes: a DNA microarray analysis.

Y. Fukui, E. Sasaki, N. Fuke, Y. Nakai, T. Ishijima, K. Abe & N. Yajima 1617–1629

Effect of dietary laminarin and fucoidan on selected microbiota, intestinal morphology and immune status of the newly weaned pig.

A. M. Walsh, T. Sweeney, C. J. O'Shea, D. N. Doyle & J. V. O'Doherty 1630–1638

Human and Clinical Nutrition

Paraoxonase 1 activities and genetic variation in childhood obesity

A. I. Rupérez, O. López-Guarnido, F. Gil, J. Olza, M. Gil-Campos, R. Leis, R. Tojo, R. Cañete, A. Gil & C. M. Aguilera 1639–1647

Tea and non-tea flavonol intakes in relation to atherosclerotic vascular disease mortality in older women.

K. L. Ivey, J. R. Lewis, R. L. Prince & J. M. Hodgson 1648–1655

Lunch energy density and the metabolic syndrome in patients with type 2 diabetes mellitus.

G. Menegotto, F. M. Silva, M. J. de Azevedo & J. C. de Almeida 1656–1663

n-3 and *n*-6 Fatty acids are independently associated with lipoprotein-associated phospholipase A₂ in the Multi-Ethnic Study of Atherosclerosis.

B. T. Steffen, L. M. Steffen, S. Liang, R. Tracy, N. S. Jenny & M. Y. Tsai 1664–1671

Unravelling the basis of variability in cobalamin levels in the general population.

T. Andrew, R. Gill, I. Gillham-Naseny & K. R. Ahmadi 1672–1679

Serum lipid-improving effect of soybean β-conglycinin in hyperlipidaemic menopausal women.

D. Ma, K. Taku, Y. Zhang, M. Jia, Y. Wang & P. Wang 1680–1684

Supplementation with a juice powder concentrate and exercise decrease oxidation and inflammation, and improve the microcirculation in obese women: randomised controlled trial data.

M. Lamprecht, G. Obermayer, K. Steinbauer, G. Cvrn, L. Hofmann, G. Ledinski, J. F. Greilberger & S. Hallstroem 1685–1695

Effect of *Lactobacillus gasseri* SBT2055 in fermented milk on abdominal adiposity in adults in a randomised controlled trial.

Y. Kadooka, M. Sato, A. Ogawa, M. Miyoshi, H. Uenishi, H. Ogawa, K. Ikuyama, M. Kagoshima & T. Tsuchida 1696–1703

Dietary Surveys and Nutritional Epidemiology

Glycaemic index, carbohydrate substitution for fat and risk of CHD in men.

M. E. Similä, J. P. Kontto, S. Männistö, L. M. Valsta & J. Virtamo 1704–1711

Behaviour, Appetite and Obesity

Breakfast high in whey protein or carbohydrates improves coping with workload in healthy subjects.

N. Sihvola, R. Korpela, A. Henelius, A. Holm, M. Huotilainen, K. Müller, T. Poussa, K. Pettersson, A. Turpeinen & K. Peuhkuri 1712–1721

Prospective study of changes in sugar-sweetened beverage consumption and the incidence of the metabolic syndrome and its components: the SUN cohort.

M. T. Barrio-Lopez, M. A. Martinez-Gonzalez, A. Fernandez-Montero, J. J. Beunza, I. Zazpe & M. Bes-Rastrollo 1722–1731

A maternal high-protein diet predisposes female offspring to increased fat mass in adulthood whereas a prebiotic fibre diet decreases fat mass in rats.

M. C. Hallam & R. A. Reimer 1732–1741
