*Social Philosophy & Policy* is an interdisciplinary journal with an emphasis on the philosophical underpinnings of enduring social policy debates. Each issue is dedicated to a particular theme chosen by the editors, with the advice of the editorial board, designed to appeal to both academic specialists and a broader scholarly audience. While not primarily a journal of policy prescriptions, several contributions to each issue will typically connect theory with practice. The editors encourage and actively pursue diversity of viewpoints of contributors. Diversity is also encouraged by selecting authors from among different disciplines, especially philosophy, economics, political science, and the law. Readers' suggestions for future themes are always welcome, as are inquiries about the topics of issues already planned.
