The
Mathematical Gazette

Editorial
It's voting time again!

The time has come to vote for the **Tenth** *Annual Mathematical Gazette Writing Awards*. Please use the address carrier from this issue of the *Gazette* to identify the articles and notes of 2004 that impressed you most. The *Index* for 2004 will remind you of the many good submissions.

There will again be a prize draw among those who respond. The prize will be a copy of *The Music of the Primes* by Marcus du Sautoy.

Previous Annual Mathematical Gazette Writing Awards

Year	Best Article	Best Note
2003	**H. Martyn Cundy** *A journey round the triangle*	**Adam Brown** *A connection between Brianchon's theorem and the seven circles theorem*

Please indicate, in the spaces provided on the voting form, the titles of your three favourite *Articles* and your three favourite *Notes*. Note that *Matters for Debate* count as *Articles*. Alternatively, you can just write your choices in a letter or on a postcard. Each vote will be given equal weighting. The results will be announced in the July 2005 issue.

Return the form as soon as you can, and definitely by 31st May 2005 to:

Gerry Leversha, Gazette Poll,
St Paul's School, Lonsdale Road, London SW13 9JT

Sir Christopher Zeeman's Presidential Address to the 2004 conference of the Association was a clarion call to mathematicians and educators to rekindle the flames of geometry – and, in particular, three-dimensional geometry – in schools and colleges. The author has expanded his address into a short monograph which also includes exercises and full solutions. We are very proud to offer this as a free supplement to *Gazette* subscribers. It is also published as a book, available for purchase; for details, see the MA website.
