British Society of Animal Science

The British Society of Animal Science aims to provide the opportunity for those with an interest in animals and animal production to exchange views, ideas and information. It is an energetic and active society with about 1300 members from over 30 countries throughout the world. Today, as ever, the Society is the natural meeting point for all of those with an interest in animal science. Its membership is drawn from research, education, advisory work, commerce and the practical livestock industry.

The Society's Journal is Animal Science which publishes fundamental and applied research and is a major scientific title of international repute. Papers reporting findings from basic and applied research relevant to all aspects of animal science can be found in it.

The Society organises a major scientific meeting once a year and occasional specialist meetings on key issues facing animal production. If you would like to join or receive further information about the Society contact:

Published by
British Society of Animal Science

The Proceedings of the British Society of Animal Science constitute summaries of papers presented at the Society's Annual Meeting in Scarborough in March 1998.

The summaries have not been edited and the Society can accept no responsibility for their accuracy. Views expressed in all contributions are those of the authors and not those of the British Society of Animal Science.

PROGRAMME

PAGE

RUMINANT PHYSIOLOGY

Leucine metabolism across the gastrointestinal tract of sheep infected with *Trichostrongylus colubriformis* 1

Feng Yu, L A Bruce, R L Coop & J C MacRae

The effects of nutritional status and insulin on the partition of blood flow to the mammary gland and milk composition in lactating goats 2

W G Randles, C E Kyle, M D Hanigan, L A Crompton & B J Bequette

The effect of free amino acid supply on the contribution of peptide-bound phenylalanine and tyrosine to casein synthesis in late lactation goats 3

B J Bequette, F R C Backwell, C E Kyle, A G Calder, L A Crompton, J France & J C MacRae

Physiological characteristics of high genetic merit and low genetic merit dairy cows: a comparison 4

A Sorensen, M Alamer & C H Knight

PIGS

The degree of agreement shown by untrained observers in the qualitative assessment of pig behaviour 5

F Wemelsfelder, E A Hunter, M T Mendl & A B Lawrence

Predicted responses to selection from indices including feeding pattern traits of pigs as selection criteria 6

A D Hall, W G Hill, P R Bampton & A J Webb

Mapping genes for growth rate and fatness in a Large White x Meishan F₂ pig population 7

G A Walling, A L Archibald, P M Visscher & C S Haley

The use of a rooting substrates by fifteen day old piglets 8

S D Webster

DAIRY COWS

The influence of parity on lactation curve coefficients in dairy cows 9

N C Friggens, G C Emmans & R F Veerkamp

The effectiveness of mixed-model smoothing for prediction of lactation yields 10

J A Woolliams & D Waddington

A simulation of the effects of changes in the Na and K content of milk during mastitis on the growth of *Staphylococcus aureus*, *Streptococcus uberis* and *Escherichia coli* 11

D R Arney, H J Lindsay, S Borgoro & C J C Phillips

Cell proliferation and protein synthesis (keratinization) in bovine hoof during the onset and recovery from clinical lameness 12

A J MacCallum, K A K Hendry, S Robertson, C J Wilde & C H Knight

Energy metabolism in high yielding cows 13

D E Beever, S B Cammell, J D Sutton, N Rowe & G E Perrott

MEAT SCIENCE

- Alternative statistical methods in the study of growth and body composition of animals 14
D Muldowney, J Connolly & M G Keane
- Relationships between meat quality or composition and animal performance in double muscled Belgian Blue bulls 15
V Minet, A Clinquart, J L Hornick, C Van Eenaeme, M Evrard & L Istasse
- Differences in the calpain enzyme system in tough and tender samples of porcine longissimus dorsi 16
P L Sensky, T Parr, G P Scothern, A Perry, R G Bardsley, P J Buttery, J D Wood & C C Warkup
- Meat and eating quality responses to selection for components of efficient lean growth rate in pigs 17
N D Cameron, G Nute, S Brown & J D Wood
- The effect of Texel or Rouge de l'Ouest genes on lamb carcass quality 18
A F Carson, B W Moss, L O W McClinton & D J Kilpatrick

ENERGY/PROTEIN INTERACTIONS

- The effect of asynchronous diets on the function of the rumen in the lactating dairy cow 19
A R Henderson, P C Garnsworthy, J R Newbold & P J Buttery
- The effects of energy intake on responses to metabolisable protein in dairy cows 20
H Christie, G C Emmans, J D Oldham & D J Roberts
- Effects of synchronising the hourly release of energy and nitrogen in the rumen on feed intake and production of lactating ewes 21
M W Witt, L A Sinclair, R G Wilkinson & P J Buttery
- The ability of different feed evaluation systems to predict rumen microbial nitrogen flow of lactating dairy cows 22
B Stefanon, L Gruber, S Moscardini, V Volpe & P Susmel
- Urinary purine derivatives excretion in *Bos taurus* and *Bos indicus* cattle 23
F Herrera Gomez, F D Deb Hovell & C A Sandoval Castro
- Milk production from dairy cows offered a conserved barley/kale bicrop compared to grass silage 24
J M Moorby, P R Evans & N E Young

FEEDING BEHAVIOUR

- Short-term feeding behaviour of dairy cows relative to food composition and stage of lactation 25
B L Nielsen, N C Friggens, I Kyriazakis, B J Tolkamp & G C Emmans
- Conditioned feeding responses in sheep to flavoured foods associated with sulphur doses 26
J Hills, I Kyriazakis, J V Nolan, G N Hinch & E Thomson
- The continuum between conditioned preferences and aversions in ruminants to flavoured foods associated with the increasing administration of casein doses 27
G Arsenos & I Kyriazakis
- Selection of diets differing in sulphur content by sheep in sulphur adequate or depleted states 28
J Hills, J V Nolan, G N Hinch & J J Lynch
- The effect of food related cues on the specificity of appetite in the rat 29
J E L Day, P J Rogers, G M Finch & E A Gaffan

PIG NUTRITION

- Effect of non-digestible oligosaccharides in diets for weaner pigs on *in vitro* fermentation 30
J G M Houdijk, B A Williams, S Tamminga & M W A Verstegen
- Relationship between dietary methionine and cysteine on the performance of high lean gain female pigs during the growing phase (33 to 57kg live weight) 31
P H Simmins & H Mongé
- Lack of relationship between *wheat in vitro* viscosity and digestibility parameters for pigs 32
F J Lewis, J McEvoy & K J McCracken
- The effect of offering diets with a reduced crude protein and digestible energy content on the retention and excretion of nitrogen by pigs 33
P A Lee & R M Kay
- Effect of feeding a high energy/low protein diet to finishing pigs on growth and meat quality 34
P J Blanchard, D Mantle, J P Chadwick & M Willis

FATTY ACIDS

- The fatty acid composition of grass silages 35
R J Dewhurst & P J King
- Rumen biohydrogenation of polyunsaturated fatty acids and their effect on microbial efficiency in sheep 36
AM Wachira, L A Sinclair, R G Wilkinson, K Hallett, M Enser & J D Wood
- An examination of the effects of level of fish oil inclusion in the diet on forage intake, milk yield and composition of lactating dairy cattle offered two levels of concentrates 37
T W J Keady & C S Mayne
- The effects of fat source and breed on fatty acid composition of lamb muscle 38
AM Wachira, L A Sinclair, R G Wilkinson, B Hewett, M Enser & J D Wood

PIG WELFARE

- Social recognition in group-housed sows after removal and re-grouping 39
D S Arey & W G Jamieson
- Levels of aggression in floor fed sows: effects of straw bedding and high fibre diets 40
X Whittaker, S A Edwards, H A M Spooler, A B Lawrence & S Corning
- Physiological effects of a short period of adaptation to the farrowing environment in gilts 41
A B Lawrence, K A McLean, C L Gilbert, S Calvert, J Chirnside & L A Deans
- Effect of nose ringing and dietary modification in outdoor pig production on temporal changes in soil nitrogen status 42
S A Edwards, W Jamieson, I Riddoch & C A Watson

BEEF & SHEEP

- The effect of stage of grass maturity at harvesting and restricting fermentation on the intake of grass silage by beef cattle 43
L E R Dawson, R W J Steen & C P Ferris
- A comparison of performance and carcass composition of beef cattle finished on grass or concentrate diets 44
N P Lavery & R W J Steen
- Reducing the cost of beef production through the genetic improvement of net feed efficiency 45
R M Herd, J A Archer, P F Arthur & E C Richardson

Estimation of direct and maternal genetic parameters for weights of Welsh Black Cattle <i>Z Ulutas, I Ap Dewi & M Saatci</i>	46
A description of the growth of sheep <i>R M Lewis, G C Emmans, G Simm, W S Dingwall & J FitzSimons</i>	47
Replacement of fishmeal by rape-seed meal and soya bean meal in concentrates given to pregnant and lactating ewes <i>J Hill & A B Notman</i>	48
 GAS BASED SYSTEMS	
Matching grass supply to grazing patterns for dairy cows under strip-grazing management <i>R J Orr, S M Rutter, P D Penning, N H Yarrow, L D Atkinson & R A Champion</i>	49
The effect of extending the grazing season in early spring on dairy cow performance <i>H J Sayers & C S Mayne</i>	50
Dietary preference of dairy cows grazing grass and clover <i>S M Rutter, R J Orr, P D Penning, N H Yarrow, R A Champion & L D Atkinson</i>	51
Genotype by environment interaction for milk, fat and protein yield in Holstein Friesian dairy cattle in Ireland <i>A R Cromie, D L Kelleher, F J Gordon & M Rath</i>	52
 RUMINANT TECHNIQUES	
Comparison of methodologies of measuring methane emissions from sheep <i>A R Moss, S Jarvis & P J Murray</i>	53
Methane production from weaned dairy heifer calves <i>A R Moss & D I Givens</i>	54
Relationship between the rates of production of gas and VFA during <i>in vitro</i> incubations of high temperature dried grass <i>C Rymer & D I Givens</i>	55
Variation in number and proportion of rumen microbes examined both <i>in vivo</i> and <i>in vitro</i> using a simulation system <i>G Gizzi, R Zanchi & F Sciaraffia</i>	56
Estimation of rumen degradable organic matter of forages using different techniques <i>E R Deaville & D I Givens</i>	57
 GAS PRODUCTION	
Determination of total gas production and gas profile release from a bicarbonate buffer during addition of acetic acid to a carbonated-buffered medium <i>R Mauricio, D M S S Vitti, F L Mould, E Owen, M S Dhanoa & M K Theodorou</i>	58
A low tech <i>in vitro</i> procedure using faecal liquor for the estimation of digestibility of forages <i>H M Omed, A Faza, R F E Axford, I Ap Dewi & D I Givens</i>	59
Comparison of bovine rumen liquor and bovine faeces as sources of micro-organisms for the <i>in vitro</i> gas production technique for assessing silages of maize and maize plant fractions <i>U R Altaf, R Mauricio, F L Mould, T Smith, E Owen, R H Phipps & M K Theodorou</i>	60

Influence of protein fermentation on gas production profiles <i>J W Cone</i>	61
A comparison of the gas production profiles of fresh and dry forage <i>S Nagadi, M Herrero & N S Jessop</i>	62
Relationship between the gas production profiles of mixtures of hay and maize and the patterns of rumen fermentation observed in sheep fed those mixtures <i>C Rymer & D I Givens</i>	63
Investigation of direct gas production from silage fermentation acids <i>E R Deaville & D I Givens</i>	64
The effect of shaking on the gas production profile of high temperature dried grass <i>C Rymer, A E Brooks, M K Theodorou & D I Givens</i>	65
Evaluation of fermentation kinetics of different forms of starch and sugars using gas production technique <i>A Hussain & E L Miller</i>	66
A comparison of sources of inocula and the relationship between the gas production profile, <i>in situ</i> degradability, and perceived nutritive value of some native Nepalese grasses <i>C Rymer, S Calabro, B A Williams, H B Gurung & D I Givens</i>	67
Comparison of bovine rumen liquor and faeces as sources of micro-organisms for the <i>in vitro</i> gas production technique assessed using twelve graminaceous forages <i>R Mauricio, A L Abdalla, F L Mould, U R Altaf, T Smith, E Owen, D I Givens, M S Dhanoa & M K Theodorou</i>	68
Estimation of fermentable energy by the automatic <i>in vitro</i> gas production technique for a selection of feedstuffs incubated alone and in combination <i>S Fakhri, A R Moss, D I Givens & E Owen</i>	69
Semi-automation of the <i>in vitro</i> gas production technique using a pressure transducer <i>R M Mauricio, S Dhanoa, E Owen, K S Channa, F L Mould & M K Theodorou</i>	70
<i>In vitro</i> fermentation characteristics of soya bean cell walls separated from hulls and endosperm <i>H van Larr, S Tamminga, B A Williams, B Diekema, W Burgers, D Groeneveld & M Hoogendoorn</i>	71
BEEF	
Effect of crude protein level and degradability on performance and rumen fermentation in weaned beef heifers fed a concentrate-barley straw diet <i>ad libitum</i> <i>M Devant, A Ferret, S Calsamiglia, R Casals & J Gasa</i>	72
Digestion and nitrogen retention in steers offered grass silages made with no additive, formic acid or bacterial inoculant, supplemented with two levels of concentrates <i>P Shiels, P O'Kiely, A P Moloney & P Caffrey</i>	73
The effect of feeding a dried yeast culture on the performance of beef cattle finishing on a grass silage based ration <i>D G Chapple, H F Grundy, K P A Wheeler & S P Marsh</i>	74
Impact of additional protein on nitrogen retention and amino acid absorption from small intestine in mature steers fed on grass silage <i>E J Kim, P R Evans, R T Evans, D S Parker & N D Scollan</i>	75

Effect of concentrate diets and slaughter weight on the performance of weaned continental x suckler bulls	76
<i>R J Fallon & M J Drennan</i>	
The effect of animal species and level of consumption by cattle on <i>in vivo</i> digestibility of concentrate ingredients	77
<i>V B Woods, A P Moloney, F P O'Mara, F Mulligan & M J Kenny</i>	
Ruminal disappearance and intestinal digestibility of amino acids in intensively reared beef cattle	78
<i>F Vicente, J A Guada, S M Martín-Orúe & C Castrillo</i>	
Urinary excretion of allantoin in steers fed on cereal based diet infused with different levels of urea-casein	79
<i>S M Martín-Orúe, J Balcells, F Vicente & J A Guada</i>	
Urinary recovery of allantoin in normally fed steers	80
<i>F Herrera Gomez, F D Deb Hovell & C A Sandoval Castro</i>	
Effect of suckler cow breed type on voluntary silage intake, body reserves mobilisation, milk yield and calf performance	81
<i>M McGee, M J Drennan & P J Caffrey</i>	
Nutritional management of dual-purpose youngstock in Costa Rica (1). A dynamic characterisation of management intensity and productive orientation	82
<i>C Solano, E Perez, B Vargas & M Herrero</i>	
Nutritional management of dual-purpose youngstock in Costa Rica (2) Pre-weaning growth performance	83
<i>C Solano, E Perez, B Vargas & M Herrero</i>	
SHEEP	
Correlation between weaning weight, carcass traits and ultrasonic body measurements in Welsh Mountain sheep	84
<i>M Saatci, I Ap Dewi & Z Ulutas</i>	
Effect of different cereal: Forage ratio and protein degradability on the performance and blood metabolites of Iranian Sangsarri lambs	85
<i>M Danesh Mesgaran & G H Ieragian</i>	
Organoleptic properties and fatty acid content of muscle from young lambs and hoggets fed grass diets	86
<i>M Enser, E Kurt, A Chiles, G R Nute & J D Wood</i>	
<i>In vivo</i> digestibility values for ruminant feed ingredients measured using sheep	87
<i>F J Mulligan, F P O'Mara, M J Kennedy, M Rath, J Callan, B Flynn & P J Caffrey</i>	
Influence of saponins and sapogenins on the bacteriolytic activity of ciliate protozoa from the sheep rumen	88
<i>B Teferedegne, P O Osuji, A Odenyo, R J Wallace & C J Newbold</i>	
Parotid salivation rates in sheep and goats fed chopped or pelleted alfalfa	89
<i>A Juarrero, J S González, S Lopéz & C Valdés</i>	
Chemical composition and digestibility of vetch (<i>Vicia sativa</i>) and bitter vetch (<i>vicia ervilia</i>)	90
<i>M M Tabatabaie & F Kafizadeh</i>	
Effect of forage to concentrate ratio in the diet on rumen fermentation in sheep	91
<i>M D Carro, C Valdés, J S González, P Frutos & F J Giráldez</i>	

The influence of supplementing a rapidly degraded fibre with different forms of nitrogen on microbial protein synthesis in sheep <i>S Chikunya & E L Miller</i>	92
Intake and digestibility of tropical grass hay fed to Santa Ines sheep in Brazil <i>C M Korndörfer, I C S Bueno, A L Abdalla J D Sutton & E Owen</i>	93
The acquisition and persistence of aversions towards flavoured foods associated with the administration of oxalic acid to sheep <i>I Kyriazakis, D H Anderson & A J Duncan</i>	94
Influence of the pattern of nutrient release from grass silage and the effect of supplementation on the voluntary food intake of growing lambs <i>W E Blackburn, L A Sinclair, R G Wilkinson & J F D Greenhalgh</i>	95
Evidence for tissue-specific alternative splicing of the ovine insulin receptor gene <i>P D McGrattan, A R G Wylie & A J Bjourson</i>	96
Effect of dietary tannin protein level on the susceptibility of sheep to parasitic infection <i>N L Butter, J M Dawson D Wakelin & P J Buttery</i>	97
Measurement of short term intake rate (STIR) to predict <i>in vivo</i> parameters in sheep <i>D L Romney & M Gill</i>	98
EWE NUTRITION	
The effect of stocking density on the grazing behaviour of sheep at the same herbage mass <i>A M Sibbald & L J F Shellard</i>	99
Effects of supplementary feed and competition with Cambridge ewes on the browsing behaviour of Welsh Mountain sheep <i>Salah Al-Shami, I Ap Dewi & H Omed</i>	100
Grainbeet as a feed for ewes in late pregnancy <i>S E Pattinson, A Locke & C M Minter</i>	101
Evaluation of sugar beet feeds and maize distiller's dark grains as supplements for pregnant ewes fed straw-based diets <i>D G Chapple, K P A Wheeler & G Perrott</i>	102
The effect of sire breed on colostrum production of crossbred ewes <i>S E Pattinson & E W Thomas</i>	103
A comparative study of fat and protein levels in the colostrum of prolific and non-prolific sheep <i>J M L Anderson, M N I Barclay, M J Harvey & A Waterhouse</i>	104
Interactions between ewe and lamb genotype and suckling success in neonatal lambs <i>C M Dwyer & A B Lawrence</i>	105
An evaluation of protein supplements with different protein degradabilities and yeast culture for twin bearing/rearing lowland ewes <i>J A Dalby & S P Marsh</i>	106

FARM ANIMAL WELFARE

Effects on sheep welfare of a 1 h rest during a two stage journey <i>D M Broom, R F Parrott & S J G Hall</i>	107
The effect of space allowance and milk yield level on the performance and behaviour of dairy cattle housed in straw yards <i>J A Fregonesi & J D Leaver</i>	108
Consistency of measurement of social status in sows housed in two group dry-sow systems <i>R H Bradshaw, J Skyrme, E E Brenninkmeijer & D M Broom</i>	109
The effect of mats on the welfare of sows and piglets in the farrowing house <i>L A Boyle, F C Leonard, P B Lynch & P Brophy</i>	110
Effect of environmental and social enrichment during lactation on the response of piglets to weaning <i>E Foster, S A Edwards, F M Davidson & J Duncan</i>	111
Behaviour and production of sows in an open pen farrowing system: effects of pen width <i>J N Marchant, D M Broom & S Corning</i>	112
Stockperson-directed aggression shown by sows in farrowing crates and farrowing pens: relationships with responses to humans during gestation and with piglet survival <i>J N Marchant</i>	113
Production, behaviour and welfare of growing pigs as influenced by drinker allocation and group size <i>S P Turner & S A Edwards</i>	114
Behaviour and production of sows and piglets in crates and oval pens <i>R H Bradshaw & D M Broom</i>	115
Straw provision and the feeding behaviour of pigs <i>C A Morgan, L A Deans, B L Nielsen & A B Lawrence</i>	116
Food competition tests between pigs: differences in heart rates of 'winners' and 'losers' prior to testing <i>H L de Vries, H A M Spoolder & J N Marchant</i>	117
Welfare of finishing pigs after mixing in kennelled or unkennelled accommodation <i>H A M Spoolder, S Corning & S A Edwards</i>	118
An evaluation of handling systems for delivering pigs to CO ₂ stunning units <i>M H Anil, J L McKinstry, L J Wilkins, A J Philips & I D Parkman</i>	119
Identification of Cytokeratin 9 in the bovine hoof sole <i>K Meyer, M A Lomax, H Galbraith & D G Hazlerigg</i>	120
Suckling frequency of group housed sows in two different space allocations <i>J Burke, P H Brooks, J A Kirk, J C Eddison</i>	121
MEAT SCIENCE	
The use of organic acids as potential inhibitors of bacterial growth in minced beef <i>L Vega, J Bruce, S Crawford & L Humpheson</i>	122
Relationships between muscle fibre traits with meat and eating quality in pigs <i>N D Cameron, N Oksbjerg, P Henckel, G Nute, S Brown & J D Wood</i>	123

Effect of dietary unsaturated fats on the flavour, and on oxidative and colour stability of Suffolk, Friesland and Soay sheep meets	124
<i>E Kurt, G Nute, M Enser, R I Richardson, L A Sinclair, R G Wilkinson & J D Wood</i>	
Comparisons of ubiquitin system function in muscle of broiler and layer breeds of chicken	125
<i>J M M Harper, M P Mee, J E Arnold, K N Boorman, P J Buttery & R J Mayer</i>	
HORSES	
Thermoregulation in wet Shetland ponies	126
<i>M E Booth, R A Pearson & D Cuddeford</i>	
Effect of physical processing on <i>in situ</i> degradation of barley in the caecum of ponies	127
<i>B M L McLean, J J Hyslop, A C Longland & D Cuddeford</i>	
Effect of supplementation of a hay and concentrate diet with live yeast culture on the digestibility of nutrients in 2 and 3 year old riding school horses	128
<i>J Hill & S Gutsell</i>	
Development of the mobile bag technique to study the degradation dynamics of forage feed constituents in the whole digestive tract of equids	129
<i>J J Hyslop, A L Tomlinson, A Bayley & D Cuddeford</i>	
Voluntary feed intake and apparent digestibility <i>in vivo</i> in ponies offered a mature threshed grass hay <i>ad libitum</i>	130
<i>J J Hyslop, A L Tomlinson, A Bayley & D Cuddeford</i>	
Voluntary feed intake and apparent digestibility <i>in vivo</i> in ponies given <i>ad libitum</i> access to dehydrated grass or hay harvested from the same grass crop	131
<i>J J Hyslop, A Baley, A L Tomlinson & D Cuddeford</i>	
<i>Ad libitum</i> sugar beet pulp as the major fibre source in equine diets when ponies are offered a restricted amount of mature grass hay	132
<i>J J Hyslop, S Roy & D Cuddeford</i>	
Photoperiodic entrainment of seasonal changes in appetite and growth in pony colts	133
<i>Z Fuller, J E Cox & C McG. Argo</i>	
EXOTICS	
Urinary excretion of purine derivatives in fed and fasted Yaks (<i>Bos gruniens</i>)	134
<i>R J Long, X B Chen, S K Dong, D G Zhang E R Ørskov & Z Z Hu</i>	
The digestibility of four ingredients in rainbow trout (<i>Oncorhynchus mykiss</i> Walbaum) diets	135
<i>R N Weatherup, K J McCracken, D A Rice, J McKendry & R Hoey</i>	
A comparison of particle breakdown during chewing by guanacos (<i>Lama guanicoe</i>) and sheep	136
<i>M D Fraser & D H Baker</i>	
A comparison of guanaco (<i>Lama guanicoe</i>) and sheep forestomach liquors as inocula for <i>in vitro</i> digestibility determinations	137
<i>M D Fraser, D Wadwah & D H Baker</i>	
Effect of biotin on growth, viability and apparent DNA synthesis in cultured secondary hair follicles of the Angora goat	138
<i>A M Tahmasbi, H Galbraith & J R Scaife</i>	
Conversion of methionine to cysteine by transulphuration in isolated anagen secondary hair follicles of the Angora goat	139
<i>M Sourì, H Galbraith & J R Scaife</i>	

Effect of repeated cycles of melatonin and long light on milk production in the goat <i>M A Alamer & C H Knight</i>	140
Growth responses in red deer hinds from 16-24 months of age when fed two energy levels during their second winter <i>M H Davies & D W Deakin</i>	141
Calibration of the near infra-red spectroscope for the casein content of Malagueña goats milk <i>S C Johnson, J M Seradilla, A Garrido Varo & J K Margerison</i>	142
Effects of linseed meal and whole linseed and supplemental α -tocopherol acetate on broiler growth performance, and tissue C18:2n-6, C18:3n-3 and TBARS content <i>J R Scaife & A Wachira</i>	143
FORAGE	
The effect of an inoculant additive on the fermentation characteristics of grass silage and bovine performance <i>P N Johnson, H F Grundy & A P Stanway</i>	144
Effects of stage of maturity of fermented whole crop wheat on milk production by dairy cows <i>L A Sinclair & R G Wilkinson</i>	145
Whole crop wheat: effect of crop maturity on feed intake and milk production of dairy cows <i>R H Phipps, J D Sutton & A K Jones</i>	146
The <i>in situ</i> degradability of dry matter, neutral detergent fibre and starch in whole-crop wheat harvested at three stages of maturity <i>T C Moos & J D Sutton</i>	147
Effect of forage maize harvested at different stages of maturity on feed intake and performance by growing beef cattle <i>E M Browne, M J Bryant, D E Beever & C L Thorp</i>	148
Effect of maize silage quality in a mixed forage diet and the crude protein level in the concentrate supplement on milk production of dairy cows <i>J J Fitzgerald & J J Murphy</i>	149
The effect of wilting grass and grass-clover mixtures on silage effluent flow, chemical oxygen demand of silage effluent and silage quality <i>J K Margerison, D V Illingworth, D W Jackson</i>	150
The effect of wilting grass prior to ensiling on silage intake of beef steers <i>L E R Dawson, R W J Steen & C P Ferris</i>	151
Comparison of methods for the determination of peptide nitrogen in grass silage <i>V L Nsereko & J A Rooke</i>	152
Effects of tannins, formaldehyde and formic acid on total tract disappearance of DM, nitrogen and amino acids in grass silage <i>M B Salawu, T Acamovic, T Hvelplund & M R Weisbjerg</i>	153
PIG NUTRITION	
Comparison of a range of NE systems with data obtained from slaughter balance studies on 8-12 week old pigs <i>V E Beattie, R N Weatherup, K J McCracken, S G McIlroy & R W Henry</i>	154
The effect of protein restriction during the rearing period and age on reproductive function in the gilt <i>V L Glasgow, S A Edwards, T G McEvoy & M Shanks</i>	155

Maternal and dietary influences on post-weaning piglet growth <i>J A Rooke, M Shanks & S A Edwards</i>	156
Comparison between titanium dioxide as an inert marker and total collection in the determination of digestible energy of diets fed to pigs <i>J E Thompson & J Wiseman</i>	157
PIG NUTRITION	
Effects of sow, udder section and time on colostrum immunoglobulin G (IgG) concentrations and piglet colostrum intake <i>I Bland & J A Rooke</i>	158
Post-weaning piglet performance in response to pre-weaning nutrient intake and growth <i>G Jones, S A Edwards, S Jagger & S Hoste</i>	159
Replacing lactose with sucrose and molasses in simple or complex diets for nursery pigs <i>I Mavromichalis, J D Hancock & B W Senne</i>	160
The effect of the addition of a protease enzyme to raw or autoclaved soya bean on the growth performance of liquid fed grower/finisher pigs <i>J D Beal, P H Brooks & H Schulze</i>	161
Effect of age post-surgery on the measurement of ileal digestibility in ileal rectal anastomosed pigs <i>J C Bodin, E McMillan, R Maillard, T van Kempen & P E V Williams</i>	162
Oxygen uptake by porcine colon contents <i>K Hillman</i>	163
Inhibition of <i>Listeria monocytogenes</i> by <i>Lactobacillus plantarum</i> is abolished by food intake, in an <i>in vitro</i> simulation of the pig colon <i>K Hillman, R Khaddour & D R Fenlon</i>	164
The faecal microbial population can be representative of large intestinal microfloral activity <i>B A Williams, C Voigt & M Verstegen</i>	165
Fermentation characteristics of carbohydrate-rich feedstuffs, using faecal inocula from unweaned piglets <i>C Voigt, B A Williams, M Verstegen & R Mosenthin</i>	166
The hydrolysis of protein in raw and autoclaved soya bean meals by a microbial protease <i>J D Beal, P H Brooks & H Schulze</i>	167
RUMINANT NUTRITION	
Effect of feeding lactose on rumen metabolism <i>in vitro</i> and <i>in vivo</i> <i>A Hussain & E L Miller</i>	168
The influence of supplementing a rapidly degraded fibre basal diet with different forms of nitrogen on microbial activity in continuous culture fermenters <i>S Chikunya & E L Miller</i>	169
Influence of different sources of methionine (DL methionine, hydroxy-analogues of methionine) and sulphur on the digestibility of organic matter of maize sialge measured <i>in vitro</i> <i>J R Robert, V Ferragu, B Bouza & P E V Williams</i>	170
Interaction between different protein levels in the diet and infection with <i>Haemonchus placei</i> in calves under tropical condition <i>H Louvandini, A L Abdalla & S M Gennari</i>	171

Bovine or equine faeces as sources of micro-organisms instead of rumen liquor in the Tilley and Terry <i>in vitro</i> digestibility technique for evaluating forages in Tanzania <i>H Whittall, E J Mtengeti, L A Mtenga, D L Romney & E Owen</i>	172
Industrial passion fruit residue as ruminant feed <i>C M Korndörfer, A L Abdalla & E Crossara</i>	173
Effect of nitrogen source of fermentation characteristics of citrus pulp <i>F M A Debersaques, B A Williams & S Tamminga</i>	174
Influence of the concentration of peptides on (¹⁵ N) ammonia incorporation and <i>de novo</i> synthesis of different amino acids by mixed microorganisms from the sheep rumen <i>in vitro</i> <i>C Atasoglu, N D Walker, C J Newbold & R J Wallace</i>	175
Effect of enzyme treatment on the production of reducing sugars and ruminal degradability of sugar beet pulp <i>C Coonan, H Galbraith, J R Scaife & F D de B Hovell</i>	176
Effects of the level of concentrate in the diet of the donor animal on the <i>in vitro</i> digestibility of hay <i>O Bochi-Brum, M D Carro, C Valdés, J S González & S López</i>	177
REPRODUCTION & GENETICS	
Oocytes from gilts of domestic pig (<i>Sus scrofa domestica</i>) and wild boar (<i>Sus scrofa</i>) species exhibit similar developmental potential during <i>in vitro</i> maturation <i>N S Prathalingam, K Rust, M E Staines, G J McCallum S A Edwards, P R English & T G McEvoy</i>	178
Changes in the gene expression of progesterone receptor and prolactin receptor in sow mammary gland between late gestation and lactation <i>H M Miller, W T Dixon, G R Foxcroft & F X Aherne</i>	179
Maturation of porcine oocytes for 33 or 44 hours <i>in vitro</i> in the presence or absence of serum <i>K Rust, M E Staines, G J McCallum N S Prathalingam, S A Edwards, P R English & T G McEvoy</i>	180
Hysteroscopic observation of cervical response in the oestrous and anoestrous ewe <i>M E King, W A C McKelvey M J Ranilla & J J Robinson</i>	181
Effects of dietary urea on embryo development in superovulated donor ewes and on embryo survival following transfer in recipient ewes <i>J Fahey, M P Boland & D O'Callahan</i>	182
The incidence of elevated progesterone <i>post partum</i> in Suffolk ewes lambing in early January <i>W S Dingwall, W A C McKelvey, F E Gebbie & J J Robinson</i>	183
Comparison of luteal function between ewe lambs and ewes during breeding and non breeding season <i>T H Khan, N F G Beck & M Khalid</i>	184
The lack of a compensatory ovulation rate effect following hemi-ovariectomy in sheep superovulated with oFSH <i>I M Joyce, M Khalid & W Haresign</i>	185
Effect of exposure to oestrous ewes on rams sexual behaviour, testosterone secretion and ability to stimulate ovulation in seasonal anoestrous ewes <i>H J D Rosa & M J Bryant</i>	186
The incidence of prolonged luteal function following early resumption of ovarian activity in post partum dairy cows <i>P J H Ball & E E A McEwan</i>	187

Effect of genetic merit on postpartum follicular development, milk production, body weight, insulin and glucose levels in dairy cows <i>S E M Snijders, K O'Farrell, M P Boland, P, Dillion, M Diskin, D O'Callaghan & J F Mee</i>	188
Monitoring reproductive performance in beef suckler cows by milk progesterone analysis <i>G E Mann, R Keatinge, M Hunter, B A Hedley & G E Lamming</i>	189
Uptake and depletion of B-carotene by bovine corpus luteum cells <i>S Arikan & R G Rodway</i>	190
Genetic and phenotypic trends in production traits in the United Kingdom (UK) dairy herd <i>C M Lindberg, G J T Swanson & R A Mrode</i>	191
Factors having effects on market value of Welsh Black cattle in pedigree sales, variance components and estimation of breeding values of sale price <i>Z Ulutas, I Ap Dewi & M Saatci</i>	192
 DAIRY COWS	
Short term intake rate (STIR) as a method of ranking the intake potential of forage mixtures by dairy cows <i>S Harrison, D L Romney, R H Phipps & E Owen</i>	193
Effect of nutrient demand and level of supplement on the intake and feeding behaviour of dairy cows offered grass silage <i>D L Romney, V Blunn & J D Leaver</i>	194
Responses of lactating cows to energy and protein supplementation while grazing a restricted allowance of grass <i>D C Patterson, F J Gordon, C P Ferris & C S Mayne</i>	195
The effects of concentrate composition on silage intake and feeding behaviour of lactating dairy cattle offered a range of grass silages differing in intake characteristics <i>T W J Keady & C S Mayne</i>	196
An examination of the metabolizable energy requirements of lactating dairy cows <i>S B Cammell, M S Dhanoa, D E Beever, J D Sutton & J France</i>	197
The effects of plane of nutrition and diet type on lactogenic hormone levels, growth and milk production in high genetic merit dairy heifers <i>A F Carson, F J Gordon, A R G Wylie & J E McEvoy</i>	198
Choice feeding of mid lactation dairy cows offered different levels of undegraded protein concentrate <i>R E Lawson & J M Forbes</i>	199
Effect of dietary methionine supplementation on hoof horn growth in primiparous cows <i>J A Metcalf, C Marsh, A M Johnston, S A May & C T Livesey</i>	200
The effect of distillery by-products and molassed sugar beet feed on feed intake and milk production of dairy cows fed a maize silage based total mixed ration <i>R H Phipps, A K Jones & J G Perrott</i>	201
The effect of feeding different protein sources on intake, milk yield, milk composition and liveweight in high yielding Holstein cows <i>R J Mansbridge & J S Blake</i>	202
The effect of carbohydrate composition of the supplement on lactational performance in dairy cows grazing alfalfa pasture <i>A R Castillo, D E Beever, F R Gregoret, S G Onetti & O R Quaino</i>	203

Influence of sources of methionine and protection technology on the post ruminal delivery and supply to the blood of dairy cows of an oral supplement of methionine <i>J C Robert, P E V Williams & B Bouza</i>	204
Acidogenicity of feeds for dairy cows. (1) Method development and screening of ingredients <i>D Wadhwa, R J Dewhurst, M S Dhanoa & L P Borgida</i>	205
Acidogenicity of feeds for dairy cows. (2) Production responses <i>R J Dewhurst, D Wadhwa, L P Borgida, D W R Davies & W J Fisher</i>	206
Effects of forage type and protein supplementation on voluntary intakes and particle breakdown of forages by dry dairy cows <i>R J Dewhurst, D W R Davies, W J Fisher, I J Thomas & A T Adesogan</i>	207
Effect of dry period treatment on endocrine profiles of Holstein-Friesian dairy cows <i>J M Moorby, N F G Beck, M S Dhanoa, D W R Davies & W J Fisher</i>	208
MINERALS & VITAMINS	
Large scale field trials of a soluble glass zinc, cobalt and selenium bolus given to sheep <i>N R Kendall, A M Mackenzie, D V Illingworth, D W Jackson, P M Driver, I M Gill, J K Miller & S B Telfer</i>	209
The effect of supplementary sodium on the health and the behaviour of housed dairy cows <i>D R Arney & C J C Phillips</i>	210
The use of a soluble glass zinc, cobalt and selenium bolus to correct zinc deficiency in sheep <i>N R Kendall & S B Telfer</i>	211
Effect of biotin supplementation on hoof growth of Angora and Cashmere goats <i>M A Mengal, H Galbraith & J R Scaife</i>	212
Magnesium hydroxide as a novel herbage spray supplement for lactating cows and ewes <i>J J Parkins & G Fishwick</i>	213
Responses in dry matter intakes and plasma phosphorus concentrations in ewes given phosphorus sources of contrasting rumen solubility <i>J J Parkins & R G Hemingway</i>	214
A comparison between ARC (1965) and AFRC (1991) phosphorus requirements for ewes <i>J J Parkins, R G Hemingway & C L Adam</i>	215
Conception rate in hill ewes give a multi-trace element/vitamin bolus before mating <i>R G Hemingway, J J Parkins & N S Ritchie</i>	216
Effects of dietary supplemental baker's yeast (<i>Saccharomyces cerevisiae</i>) and niacin on milk yield and milk composition of dairy cows <i>A R Tasdemir & M Görgülü</i>	217
Plasma copper and cobalt metabolism of guanacos (<i>Lama Guanicoe</i>) and sheep grazing the same upland pasture <i>D V Illingworth, D W Jackson, M D Fraser & S B Telfer</i>	218
Influence of dietary potassium on the absorption of magnesium from herbage and dry diets by ruminants <i>O Adediji & N F Suttle</i>	219

FAT & OIL SUPPLEMENTATION

- Effect of caustic-treated linseed on the composition of cows milk 220
R M Kirkland, J R Scaife & M Goodwill
- The effect of feeding high levels of fish oil and additional vitamin E on intake, milk yield, composition and fatty acid content in high yielding dairy cows 221
R J Mansbridge, J S Blake & C Collins
- Effect of lipid supplement on digestion of nutrients in steers 222
N J Choi, M Enser, J D Wood & N D Scollan
- Milk production response of lactating dairy cows to dietary fat from three sources 223
C K Reynolds, R H Phipps, A K Jones & D E Beaver
- Associations between concentrations of fat and intermediates of ruminal biohydrogenation in milk dairy cows 224
J R Newbold, K L Robertshaw and H W Morris
- Effect of various feedstuffs rich in fat or tannin content on rumen methanogenesis *in vitro* using the Hohenheim Gas Test (HFT) 225
T Finger, R Hayler, H Steingäß & W Drochner
- An examination of the effects of level of fish oil inclusion in the diet on rumen fermentation parameters in cattle 226
C S Mayne, T W J Keady, & D A McConaghy
- Evaluation of oil sources in whey-based calf milk replacers 227
K L Robertshaw, J R Newbold & H W Morris
