Kinetic energy corrections for the free electrons in a high frequency fully-ionized plasma
G. LUPU *page* 167

On the stability of nonlinear waves coexisting with plasma beams
E. INFELD and G. ROWLANDS 173

On the stability of nonlinear magneto-sonic waves in a collisionless plasma
E. INFELD and G. ROWLANDS 189

JOURNAL OF PLASMA PHYSICS

Volume 13 Part 1 February 1975

CONTENTS

The role of energy and momentum conservation in nonlinear beam–plasma interaction
K. JUNGWIRTH *page* 1

Closed inner region solution including viscosity for resistive tearing in cylindrical geometry
R. J. HOSKING 27

Kinetic equations for plasmas subjected to a strong time-dependent external field. Part 3. Stochastic equations for plasma turbulence
R. BALESCU and J. H. MISGUICH 33

Kinetic equations for plasmas subjected to a strong time-dependent external field. Part 4. Dynamics of stochastic correlations
R. BALESCU and J. H. MISGUICH 53

The multiple water-bag model for forced oscilllations in a warm isotropic plasma
M. L. NOYER, N. NAVET and M. R. FEIX 63

Energy absorption due to continuous spectrum of ideal MHD
J. A. TATARONIS 87

Confluence of three shock waves for transverse shocks and shocks in an aligned MHD field
A. R. BESTMAN 107

Space-charge limits in unneutralized relativistic electron beams
M. E. READ and J. A. NATION 127

Analytic BGK models and their modulational instability
H. SCHAMEL 139

A new and extended concept for reflexion and transmission coefficients for waves propagating in isotropic and anisotropic plasma
J. HEADING 147
