THE HEAVENLY CONTRACT

Ideology and Organization in Pre-Revolutionary Puritanism

David Zaret

Zaret fully explicates the tremendous influence that popular beliefs and activities had on Puritan religion. His conclusions review Weber's classic analysis: it was *not* a spirit of acquisitiveness derived from Puritan religion that gave rise to modern capitalism; rather, the spirit of capitalism antedated and shaped the Protestant ethic. Historical sociology at its best, *The Heavenly Contract* raises important issues for the sociology of knowledge, the study of social movements, and the continuing debate on religion and economic change. "Exceptionally good historical sociology."—Craig Calhoun, University of North Carolina *Cloth \$22.50 224 pages*

TALCOTT PARSONS ON INSTITUTIONS AND SOCIAL EVOLUTION

Selected Writings

Edited and with an Introduction by Leon H. Mayhew

Talcott Parsons is regarded, by admirers and critics alike, as a major creator of the sociological thought of our time. This volume presents twenty of Parsons's essays, touching on each of the major aspects of his work. In his introduction, Leon Mayhew discusses the basic tools of Parsonian analysis and interprets the larger themes of his work, providing a roughly chronological account of the development of his thought.

"*Talcott Parsons on Institutions and Social Evolution* will become a standard reference for those studying the development of his sociological ideas."—Martin Bulmer, *The Times Higher Education Supplement*
