

SOUTHERN JOURNAL OF AGRICULTURAL ECONOMICS

Guidelines for Submission of Manuscripts

Only manuscripts that closely adhere to the following established guidelines will receive prompt and favorable attention by our Editorial Review Board.

1. **COVER LETTER.** Indicate why you believe the material would interest SOUTHERN JOURNAL readers and whether the material has been presented, offered for publication, or published in a similar form elsewhere.
2. The JOURNAL uses a system of blind reviews. Thus all papers should have a cover page attached with the name of the authors, acknowledgments and institutional information. The paper itself *should not* show the identity of the author.
3. **TYPING.** All material should be double-spaced, including footnotes, quotations, references, and tables. Type on 8½ by 11 inch standard weight paper with at least 1¼ inch margins on all sides.
4. **STYLE.** Consult a 1978 issue of this JOURNAL. Be consistent.
5. **MATHEMATICAL NOTATIONS.** Use standard type to maximum extent. Overuse of mathematical symbols often limits readership and is costly to typeset. Where such notation is essential, use separate characters for superscripts and subscripts, avoid capital letters in superscripts and subscripts, and use asterisks, primes, and small English letter subscripts as substitutes for overbars, tildes, carets and the like.
6. **FOOTNOTES.** Number consecutively throughout paper. On a separate page following the article, list the number footnotes. Footnotes should be only explanatory, never for citations or directives to other literature. Reference citations must be incorporated into the text.
7. **REFERENCES.** Alphabetize, by author's last name, all references on a separate page entitled "References." Only cited literature should be included. Number all references consecutively. Where two or more works by the same author are identified, list the oldest first. Refer to a recent JOURNAL issue for reference style. Citations should be bracketed appropriately in sentences, referring to reference number and page number (where appropriate), e.g., [5, p. 20]. If used at end of sentence, period follows brackets. Use a parenthetical reference for tables, e.g., (Table 1).
8. **TABLES.** All tables are photographed, rather than typeset, and should be double-space typed (if possible) on a separate page. Clear copy must be assured. Omit vertical rules. Titles should be in all caps, starting from left margin, and completely convey information in the Table (see a recent JOURNAL issue). Omit periods at end of title. Use small English letters if explanatory footnotes are necessary. The printer will make any necessary reductions.
9. **CHARTS AND FIGURES.** These are also photographed, requiring the same precautions as item No. 8. Prepare Charts and Figures on separate white pages, with a dark ink. Clean paste-ups are permissible.
10. **COPIES.** Send three clean copies (all may be good Xerox). Authors should assure maximum readability and completeness in all copies. Critical reviews by colleagues should always be made before submission.
11. **ABSTRACT.** An abstract not to exceed 200 words should be attached as the first page of each manuscript copy at the time of initial submission, DO NOT identify the authors on the abstract.
12. **MAILING.** Send manuscripts to the Editor via first class mail.
