ISSN 0004-9727

BULLETIN Volume 20 (1979)

of the Australian Mathematical Society

Number 1

John C. Stillwell	*Isotopy in surface complexes from the computational viewpoint*	1
Fritz J. Grunewald, George Havas, J. L. Mennicke, and M. F. Newman	*Groups of exponent eight*	7
P. W. Donovan and M.-R. Freislich	*Indecomposable representations of certain commutative quivers*	17
J. R. McMullen	*An algebraic theory of hypergroups*	35
J. R. McMullen and J. F. Price	*Duality for finite abelian hypergroups over splitting fields*	57
B. J. Day	*On profiniteness of compact totally disconnected algebras*	71
Sribatsa Nanda and Sudarsan Nanda	*On stationary points and the complementarity problem*	77
Graham H. Williams	*The equivalence of some variational problems for surfaces of prescribed mean curvature*	87
K. Parthasarathy and U. B. Tewari	*Isometric multipliers of Segal algebras*	105
G. M. Nielson, D. H. Thomas, and J. A. Wixom	*Interpolation in triangles*	115
John C. Stillwell	*Unsolvability of the knot problem for surface complexes*	131
Douglas M. Campbell	*Continuity of Cima and Rung's extension and non normal meromorphic functions*	139
Abstracts of Australasian PhD theses		
Robert Colin Hickman	*Distributivity in semilattices*	145
Michael Anthony Adena	*Mathematical interfaces in the modelling of biological populations*	147
Jonathan Arthur Hillman	*Knots and links in low dimensions*	149
Lynette Myra Bloom (née Butler)	*Multiplier problems for spaces of continuous functions with p-summable transforms*	152
Koo Wee Kor	*Nuclear structure, form factors, quadrupole moments, and electronuclear sum rules*	155
Errol Peter Martin	*The P-W problem*	157
Victor Solo	*Time series recursions and stochastic approximation*	159

BULLETIN OF THE AUSTRALIAN MATHEMATICAL SOCIETY

Editor: Sidney A. Morris (from Volume 21)
Deputy Editor: K. R. Pearson

Honorary Editor: B. H. Neumann

Associate Editors

R. S. Anderssen
A. L. Andrew
B. D. Craven
B. A. Davey
Gary Davis
J. R. J. Groves
D. A. Holton
David C. Hunt
J. S. Maritz
Rodney Nillsen
A. J. van der Poorten
Ian Robinson
R. F. C. Walters
J. H. Rubinstein
Leon Simon
G. Szekeres
D. G. Tacon
C. J. Thompson
H. B. Thompson

Assistant Editors

R. S. Anderssen M. S. Brooks

INFORMATION FOR AUTHORS

The BULLETIN of the Australian Mathematical Society aims at quick publication of original research in all branches of mathematics. Manuscripts must be in their final, publishable form when submitted, and no revision of manuscripts will be allowed. Each paper (which is not itself an abstract) must include an abstract of not more than 200 words.

Authors should submit THREE clean, high quality copies to

The Editor,
Bulletin of the Australian Mathematical Society,
Department of Pure Mathematics,
La Trobe University,
Bundoora, Victoria 3083, Australia.

Authors should retain the original typescript of their papers.

To ensure speedy publication, editorial decisions on acceptance or otherwise are taken quickly, normally within a month of receipt of the paper. Papers are accepted only after being evaluated by the Editor and an Associate Editor or another expert. However some meritorious papers will have to be rejected because speed of publication involves space limitations. Papers are welcomed in which

(i) the results are interesting and (except in the case of an expository paper) new,
(ii) the exposition is clear and attractive, and
(iii) the manuscript is in publishable form, without revision.

Responsibility for the correctness of results published in the BULLETIN remains with the author(s).

Details of editorial policy are listed on the inside back cover.
