

## INDEX TO VOLUME 30

	<i>Page</i>
<b>R. C. BAKER.</b> Small solutions of congruences . . . . .	164
<b>L. S. BOSANQUET.</b> Convergence and summability factors in a sequence (II) . . . . .	255
<b>BUI AN TON.</b> On a free boundary problem for the equations of tidal motions . . . . .	222
<b>A. CANDIOTTI.</b> On capitulation in certain $Z_r$ -extensions of number fields . . . . .	58
<b>D. L. CLEMENTS and C. ROGERS.</b> On the general solution of a linear second order equation with variable coefficients . . . . .	94
<b>D. E. DAYKIN and P. FRANKL.</b> On Kruskal's cascades and counting containments in a set of subsets . . . . .	133
<b>R. ERNVALL.</b> Generalized irregular primes . . . . .	67
<b>L. FEJES TÓTH.</b> On the densest packing of convex discs . . . . .	1
<b>P. FRANKL.</b> <i>See</i> D. E. DAYKIN . . . . .	133
<b>J. GAJJAR and F. T. SMITH.</b> On hypersonic self-induced separation, hydraulic jumps and boundary layers with algebraic growth . . . . .	77
<b>P. GRITZMANN.</b> The toroidal analogue to Eberhard's theorem . . . . .	274
<b>R. W. HANSELL, J. E. JAYNE and C. A. ROGERS.</b> $K$ -analytic sets . . . . .	189
<b>G. HARMAN.</b> On the distribution of $\sqrt{p}$ modulo one . . . . .	104
<b>A. HINKKANEN and R. C. VAUGHAN.</b> An analytic inequality . . . . .	142
<b>J. G. HINZ.</b> The average order of magnitude of least primitive roots in algebraic number fields . . . . .	11
<b>J. E. JAYNE.</b> <i>See</i> R. W. HANSELL . . . . .	189
<b>JING YU.</b> Transcendental numbers arising from Drinfeld modules . . . . .	61
<b>J. H. LOXTON.</b> The graphs of exponential sums . . . . .	153
<b>R. OLIVER.</b> Class groups of cyclic $p$ -groups . . . . .	26
<b>G. RAMHARTER.</b> Some metrical properties of continued fractions . . . . .	117
<b>C. ROGERS.</b> <i>See</i> D. L. CLEMENTS . . . . .	94
<b>C. A. ROGERS.</b> <i>See</i> R. W. HANSELL . . . . .	189
<b>L. A. RUBEL.</b> A counterexample to elimination in systems of algebraic differential equations . . . . .	74
<b>F. T. SMITH.</b> <i>See</i> J. GAJJAR . . . . .	77
<b>A. SZCZEPAŃSKI.</b> Aspherical manifolds with $Q$ -homology of a sphere . . . . .	291
<b>M. TOYOIZUMI.</b> On certain infinite products . . . . .	4
<b>R. C. VAUGHAN.</b> <i>See</i> A. HINKKANEN . . . . .	142
