## **The Marcus Garvey and Universal Negro Improvement Association Papers**

Volume I: 1826-1919; Volume II: 1919-1920

Edited by ROBERT A. HILL

Marcus Mosiah Garvey was a crucial figure in the American Black Renaissance of the 1920s, introducing many ideas which were to re-emerge in the Black Power years of the 1960s. In the sixty-four years since the UNIA first exploded on the American scene, the complex questions originally posed by Garvey's programme of racial regeneration still remain largely unanswered and clouded in misunderstanding. These are the first two volumes in a monumental ten-volume survey of over 30,000 archival documents and original manuscripts, brought together by Robert Hill to provide the first comprehensive account of the evolution, spread and influence of the UNIA. It makes fascinating reading.

Volume I: £25.00 Hardback 696 pages 0-520-04456-8

## **Fortune is a Woman**

Gender and Politics in the Thought of Niccolo Machiavelli

HANNA FENICHEL PITKIN

One of the most important and *political* of political theorists, Machiavelli has persistently puzzled interpreters – seeming to some a patriotic republican and to others a cynical proto-fascist. This original study uses textual analysis, sociological history and classical and contemporary psychology to study Machiavelli's political and literary works. It enables us to see the man and his politics in a revealing new light.

## **Strong Democracy**

Participatory Politics for a New Age

BENJAMIN BARBER

Too much democracy, it has been said, can undo liberal institutions. Benjamin Barber argues to the contrary that too much liberalism has undone our democratic institutions. Suggesting that the political crises of our time are symptoms of a malaise inseparable from liberal ways of thinking about and doing politics, he argues for the need for a strong democracy – defined as the participation of all the people in at least some aspects of self-government at least some of the time.

## **Studies in Platonic Political Philosophy**

LEO STRAUSS

(With a Foreword by Joseph Cropsey)

Leo Strauss was without doubt one of the outstanding thinkers of our time. *Studies in Platonic Political Philosophy* is his final book, which he was completing at the time of his death. In it he draws together some of the most important projects of his last years and arranges them in an order intended to clarify the issues in philosophy and politics that occupied him throughout his life.

The book is introduced by Thomas L. Pangle who provides a lucid synopsis of the major themes and concerns of Strauss's thought. It will be welcomed by those familiar with Strauss's work and by those coming to it for the first time.

## **The Reconstruction of Patriotism**

Education for Civic Consciousness

MORRIS JANOWTIZ

In this penetrating political and social analysis, Morris Janowitz tackles a subject which other scholars have avoided: patriotism. Janowitz's concept of patriotism is a civic consciousness, a self-critical and enlightened sense of nationalism appropriate to a highly interdependent world community. His central theme is that there has been a gradual but persistent change in the concept of citizenship. The once healthy balance between individual rights and civic obligations has been disturbed so that rights are emphasised at the expense of obligations. What we need, he argues, is a major improvement in civic education. A challenging and thought-provoking book.

**Ronald Reagan**  
The Politics of Symbolism  
ROBERT DALLEK

The first scholarly analysis of Reagan and Reaganism, *Ronald Reagan: The Politics of Symbolism* presents a sharply-drawn, richly detailed and reasoned portrait of the man and his politics.

Robert Dallek argues that the most significant forces influencing the Reagan movement are not rational. Reagan is a master of symbolic politics: his public goals satisfy psychological needs rather than material ends. Reagan sees life as a contest between good and evil; he is an evangelist preaching the treasured American values of autonomy, self-reliance and patriotism. Because most Americans, at heart, really believe in the old-time values, the President's message evokes an emotional response that overrides the facts: that Reagan has not made good on his promises and that his simplistic policy of us-against-them is bringing us close to war all over the world.

In this election year, *Ronald Reagan: The Politics of Symbolism* is essential reading for anyone wanting to discover what the Reagan experience really means.

**The Decline of American Political Parties,  
1952–1980**

MARTIN P. WATTENBERG  
Foreword by Walter Dean Burnham

A vigorous and remarkably stable two-party system has been the driving force in American politics through most of the life of the republic. Yet, if the trend of the past thirty years continues, the political parties could become relics of the past. Others have noted the decline in partisanship since the 1950s but have argued that it was largely a product of the turmoil of the 1960s and that a return to the status quo could be expected. Wattenberg rejects this hypothesis, however, demonstrating that the disenchantment with political parties is a long-term trend and that voters increasingly focus on personal qualities and issues without much regard for the candidate's party label.

## Notes for Contributors

1 All contributions should be sent to: The Editor, *British Journal of Political Science*, University of Essex, Wivenhoe Park, Colchester, Essex CO4 3SQ. They should not be sent to the Cambridge University Press.

2 Articles submitted to the Journal should in general be between 5,000 and 12,000 words (or equivalent in tables and figures) in length. An abstract not exceeding 120 words is required.

3 Notes and comments are welcome. A Note should contain a body of original information, a new method for doing something or a new idea (speculation, argument, proof, etc.) presented in a brief and unadorned form without inessential commentary. Comments containing criticisms of articles published in the Journal and additional thoughts on them will be considered for early publication, especially if they are short – say, under 1,000 words.

4 Most issues of the Journal contain a Review Article – either a detailed discussion of a single book or a review of the state of some area of the discipline. Review Articles submitted without prior consultation will be considered for publication, but in their own interest contributors would be well advised not to prepare a Review Article specially for the Journal without first getting in touch with the Editor.

5 Contributors should note the Journal's editorial policy, which is as stated inside the front cover.

6 Authors of articles and Review Articles receive twenty-five free offprints. Additional copies may be bought if they are ordered at proof stage.

7 Submission of an article is taken to imply that it has not been previously published and is not being considered for publication elsewhere. In the interest of authors, copyright is normally assigned to the Cambridge University Press.

8 *Contributions intended for publication should be submitted IN TRIPLICATE.* Contributions must be typed and may be reproduced in any clearly legible form. The preferred size of paper is A4 (8½ × 11½ in), but quarto (8 × 10 in) or the US standard size (8½ × 11 in) will also be accepted. Because of postage costs, manuscripts not accepted for publication are not normally returned to the author unless their return is specifically requested.

9 The entire material of any article, including footnotes, quotations, appendices, etc., should be double spaced, with left-hand margins of at least 1½ in. The preferred treatment of footnotes is that they should be numbered consecutively in the text and typed all together at the end, beginning on a fresh page.

10 Anyone who is preparing a manuscript for submission to the Journal is urged to follow the Journal's style sheet, which covers a number of detailed points concerning footnotes, punctuation, spelling, etc. Copies of the style sheet can be obtained from the Editor. English spelling, not American, should be adopted. Footnote references should always contain, in the case of books, the name of the author as it appears on the title page, the full title including any subtitle, the place of publication, the name of the publisher and the date of publication, and, in the case of articles, the name of the author, the full title, the name of the journal, the volume number, the year and the page reference (number of first and last page).

11 First proofs may be read and corrected by contributors provided that they can give the Editor an address through which they can be reached without delay and can guarantee to return the corrected proofs to the Editor, by air mail where appropriate, within ten days of receiving them. The master proof will always be sent directly to the Editor by the printer; contributors will receive duplicates.
