

## FORTHCOMING PAPERS

The next issue of the *British Journal of Nutrition* will appear in June. It is hoped to publish in it the following papers:

- Diet and serum cholesterol of lumberjacks. By M. J. KARVONEN, MAIJA PEKKARINEN, P. METSÄLÄ and Y. RAUTANEN.
- A comparison of the absorption and retention by rabbits of strontium-90 incorporated into plant material and of added strontium chloride in the diet. By T. E. F. CARR and JULIE WALL.
- The heat increment in fasting sheep of acetic acid partially neutralized with sodium hydroxide. By D. G. ARMSTRONG, K. L. BLAXTER and N. McC. GRAHAM.
- Urea and deuterium-oxide spaces in man. By M. W. B. BRADBURY.
- The digestion of hay administered to cows through rumen fistulas. By C. B. BAILEY and C. C. BALCH.
- Copper sulphate and copper sulphide (CuS) as supplements for growing pigs. By R. S. BARBER, J. P. BOWLAND, R. BRAUDE, K. G. MITCHELL and J. W. G. PORTER.
- The determination of the nutritive value of a protein by its effect on liver nitrogen in rats. By KATHLEEN M. HENRY, R. M. CORMACK and H. W. KOSTERLITZ.
- Severe undernutrition in growing and adult animals. 7. Development of the skull, jaws and teeth in pigs. By R. A. McCANCE, E. H. R. FORD and W. A. B. BROWN.
- Biological activity of crystalline vitamin A<sub>2</sub> aldehyde. By P. R. SUNDARESAN and H. R. CAMA.
- The effect of dietary protein deficiency on transport of vitamin A in the blood and its storage in the liver. By C. J. FRIEND, C. R. C. HEARD, B. S. PLATT, R. J. C. STEWART and M. R. TURNER.
- Height, weight and food intake in man. By A. M. THOMSON and W. Z. BILLEWICZ.
- Biological potencies of  $\epsilon$ - and  $\zeta$ -tocopherol and 5-methyltocol. By J. BUNYAN, D. McHALE, J. GREEN and S. MARCINKIEWICZ.
- Studies on pigs reared on diets low in tocopherol and essential fatty acids. By W. M. F. LEAT.
- Studies on the requirement of the young chick for vitamin E. 2. The effects of different sources and levels of dietary lipids on live-weight gain and body vitamin E storage. By T. W. GRIFFITHS
- Diurnal variations in blood sugar concentration in ruminating calves. By T. R. PRESTON and R. D. NDUMBE
- Studies on magnesium in ruminant nutrition. 2. The effect of abrupt changes in the nature of the diet on the urinary magnesium excretion of sheep. By A. C. FIELD.
- Prevention of the injurious effects of excessive cod-liver oil by its fortification with vitamin E. By T. MOORE and I. M. SHARMAN.

# CONTENTS OF VOLUME 15, No. 1, 1961

(All rights reserved)

	PAGE
Metabolic studies on large and small eaters. By GEOFFREY A. ROSE and R. T. WILLIAMS	I
Problems in the prediction of protein values of diets. The influence of protein concentration. By D. S. MILLER and P. R. PAYNE	11
Basal metabolism in women with obesity and anorexia nervosa. By H. LJUNGGREN, D. IKKOS and R. LUFT	21
Nutrition of the cat. 4. Calcium and iodine deficiency on a meat diet. By PATRICIA P. SCOTT, J. P. GREAVES and M. G. SCOTT	35
Reducing diets. Weight loss of obese patients on diets of different composition. By R. F. FLETCHER, MARJORIE Y. MCCRIRICK and A. C. CROOKE	53
The absorption, distribution and excretion of labelled copper in young pigs given different quantities, as sulphate or sulphide, orally or intravenously. By J. P. BOWLAND, R. BRAUDE, A. G. CHAMBERLAIN, R. F. GLASCOCK and K. G. MITCHELL	59
Nutrition of the cat. 5. The influence of calcium and iodine supplements to a meat diet on the retention of nitrogen, calcium and phosphorus. By A. HEULWEN ROBERTS and PATRICIA P. SCOTT	73
Retentions of nitrogen and minerals by babies 1 week old. By JEAN E. SLATER	83
The effect of treating ewes during pregnancy with cobaltic-oxide pellets on the vitamin B <sub>12</sub> concentration and the chemical composition of colostrum and milk and on lamb growth. By M. W. O'HALLORAN and K. D. SKERMAN	99
The effect of the plane of energy nutrition of the cow on the secretion in milk of the constituents of the solids-not-fat fraction and on the concentrations of certain blood-plasma constituents. By J. A. F. ROOK and C. LINE	109
Severe undernutrition in growing and adult animals. 6. Changes in the long bones during the rehabilitation of cockerels. By C. W. M. PRATT and R. A. MCCANCE	121
Vitamin D <sub>3</sub> and absorption of calcium in the chick. By M. E. COATES and E. S. HOLDSWORTH	131
The effect of a rachitogenic factor on calcium metabolism in chicks. By M. E. COATES, G. F. HARRISON and E. S. HOLDSWORTH	149

## INDEX OF AUTHORS

	PAGE		PAGE
Bowland, J. P.	59	McCance, R. A.	121
Braude, R.	59	McCririck, M. Y.	53
Coates, M. E.	131, 149	Miller, D. S.	11
Chamberlain, A. G.	59	Mitchell, K. G.	59
Crooke, A. C.	53	O'Halloran, M. W.	99
Fletcher, R. F.	53	Payne, P. R.	11
Glascock, R. F.	59	Pratt, C. W. M.	121
Greaves, J. P.	35	Roberts, A. H.	73
Harrison, G. F.	149	Rook, J. A. F.	109
Holdsworth, E. S.	131, 149	Rose, G. A.	1
