

# Epidemiology and Infection

**Editor-in-Chief**

Norman Noah, London School of Hygiene and Tropical Medicine, UK

*Epidemiology and Infection* publishes original reports and reviews on all aspects of infection in humans and animals. Particular emphasis is given to the epidemiology, prevention and control of infectious diseases. The field covered is broad and includes the zoonoses, tropical infections, food hygiene, vaccine studies, statistics and the clinical, social and public health aspects of infectious disease. Papers covering microbiology and immunology, which have an epidemiological relevance, are part of this broad field. Papers come from medical and veterinary scientists worldwide. It has become the key periodical in which to find the latest reports on recently discovered infections and new technology. For those concerned with policy and planning for the control of infections, the papers on mathematical modelling of epidemics caused by historical, current and emergent infections, will be of particular value.

JOURNALS

# Journal of Helminthology

## Editor

John Lewis, Royal Holloway, University of London, UK

*Journal of Helminthology* publishes original papers and review articles on all aspects of pure and applied helminthology, particularly those helminth parasites of environmental health, medical or veterinary importance. Research papers on helminths in wildlife hosts, including plant and insect parasites, are also published along with taxonomic papers contributing to the systematics of a group. The journal will be of interest to academics and researchers involved in the fields of human and veterinary parasitology, public health, microbiology, ecology, epidemiology and biochemistry.

## Parasitology

**Back volumes.** Vols. 1–71: Inquiries should be addressed to Wm. Dawson & Sons Ltd, Cannon House, Folkestone, Kent. Vols. 72 onwards: quotations for parts still in print may be obtained from Cambridge or the American Branch of Cambridge University Press.

**Copying.** This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923, USA. Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of US copyright law) subject to payment to C.C.C. of the per-copy fee of \$16.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0031–1820/2015 \$16.00.

Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions.

**ISI Tear Sheet Service.** 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

**For all other use,** permission should be sought from Cambridge or the American Branch of Cambridge University Press.

**Claims** for missing issues can only be considered if made immediately after receipt of the subsequent issue.

**Advertising.** Details of advertising in *Parasitology* may be obtained from the publisher.

**Online submission.** Authors are encouraged to submit their manuscripts online. Go to <http://mc.manuscriptcentral.com/par/> to open an author's account for *Parasitology*. Manuscript Central is helping to improve the speed of the publication process for the journal.

**Front Cover illustration:** *Eimeria tenella*: early-stage immature schizonts at 72 h (A) and 2nd generation large immature and mature schizonts at 84 h (B) in the lamina propria; 3rd generation schizonts in the epithelium of the crypts at 96 h (E). From Matsubayashi *et al.* Vol.139(12) pp. 1553–1561.

# PARASITOLOGY

## CONTENTS

### REVIEW ARTICLE

**The emergence of macrocyclic lactone resistance in the canine heartworm, *Dirofilaria immitis***

Adrian J. Wolstenholme, Christopher C. Evans, Pablo D. Jimenez and Andrew R. Moorhead

1249

### RESEARCH ARTICLES

**Host demographic predicts ectoparasite dynamics for a colonial host during pre-hibernation mating**

Quinn M. R. Webber, Zenon J. Czenze and Craig K. R. Willis

1260

**Comparison of coprological, immunological and molecular methods for the detection of dogs infected with *Angiostrongylus vasorum* before and after anthelmintic treatment**

M. Schnyder, R. Jefferies, A. Schucan, E. R. Morgan and P. Deplazes

1270

**Molecular phylogeny of anoplocephalid tapeworms (Cestoda: Anoplocephalidae) infecting humans and non-human primates**

Jana Doležalová, Peter Vallo, Klára J. Petrželková, Ivona Foitová, Wisnu Nurcahyo, Antoine Mudakikwa, Chie Hashimoto, Milan Jirků, Julius Lukeš, Tomáš Scholz and David Modrý

1278

**Early-life temperature modifies adult encapsulation response in an invasive ectoparasite**

Sirpa Kaunisto, Laura Härkönen, Markus J. Rantala and Raine Kortet

1290

**Comparative recruitment, morphology and reproduction of a generalist trematode, *Dicrocoelium dendriticum*, in three species of host**

Melissa A. Beck, Cameron P. Goater and Douglas D. Colwell

1297

**Asynchrony in host and parasite phenology may decrease disease risk in livestock under climate warming: *Nematodirus battus* in lambs as a case study**

Owen J. Gethings, Hannah Rose, Siân Mitchell, Jan Van Dijk and Eric R. Morgan

1306

**Burden of major diarrheagenic protozoan parasitic co-infection among amoebic dysentery cases from North East India: a case report**

Joybrato Nath, Gulzar Hussain, Baby Singha, Jaishree Paul and Sankar Kumar Ghosh

1318

**Effects of *Toxocara* larvae on brain cell survival by *in vitro* model assessment**

Lea Heuer, Sabine Haendel, Andreas Beineke and Christina Strube

1326

**Phage-fused epitopes from *Leishmania infantum* used as immunogenic vaccines confer partial protection against *Leishmania amazonensis* infection**

Lourena Emanuele Costa, Miguel Angel Chávez-Fumagalli, Vivian Tamiatti Martins, Mariana Costa Duarte, Daniela Pagliara Lage, Mayara I. S. Lima, Nathália Cristina De Jesus Pereira, Manuel Soto, Carlos Alberto Pereira Tavares, Luiz Ricardo Goulart and Eduardo Antonio Ferraz Coelho

1335

### BOOK REVIEW

**Parasitism: The Diversity and Ecology of Animal Parasites, 2nd edn. By Timothy M. Goater, Cameron P. Goater and Gerald W. Esch, (eds.)**

Geoff Hide

1348

### CORRIGENDUM

**Imidazole-containing phthalazine derivatives inhibit Fe-SOD performance in *Leishmania* species and are active *in vitro* against visceral and mucosal leishmaniasis - CORRIGENDUM**

M. Sánchez-Moreno, F. Gómez-Contreras, P. Navarro, C. Marín, I. Ramírez-Macias, M. J. Rosales, L. Campayo, C. Cano, A. M. Sanz and M. J. R. Yunta

1350
