

## **Automation of CAB Services**

The Commonwealth Agricultural Bureaux are introducing computer techniques for the provision of specialist scientific information services for agricultural research workers. The new system will facilitate:

- (a) speedier journal production and earlier notice of papers,
- (b) the inclusion of improved indexes in each journal issue,
- (c) the search of the whole CAB data base to provide special outputs on selected topics, current awareness, personal and group services, annotated bibliographies, etc.,
- (d) the interchange of information with other major information services in this field,
- (e) the supply of magnetic tapes.

Some automated journal production will start in 1972 and further details will be announced in due course.

Any enquiries should be addressed to:

## **The Journal of General Microbiology**

---

**Edited by B. A. FRY, S. W. GLOVER  
J. R. POSTGATE and M. F. MADELIN**

*The Journal of General Microbiology* publishes original work on algae, bacteria, microfungi, protozoa and other micro-organisms with particular emphasis on general studies of these forms and their activities. The Journal is published by Cambridge University Press for the Society for General Microbiology and the Proceedings of the Society are published in appropriate issues.

*The Journal of General Microbiology* is published fifteen times a year. Annual subscription £30 net. Please write for a specimen copy.
