

# Erratum

*Commentary on Linda Mealey (1995) The sociobiology of sociopathy: An integrated evolutionary model. BBS 18(3):523–42.*

In the February 2004 issue of *Behavioral and Brain Sciences*, to a Continuing Commentary by Wim E. Crusio [(2004) The sociobiology of sociopathy: An alternative hypothesis. *BBS* 27(1):154–55] on the above-mentioned article by Linda Mealey, we stated “Linda Mealey has declined to respond to the above continuing commentary.” As is well known, Linda Mealey, a vigorous debater, rarely declined to respond to any academic challenge. Her premature death in 2002 was not known to the production staff and we apologize for this very unfortunate error.
