

Author Index to Volume 2

- AHARONI, G., FEITELSON, D. G. and BARAK, A. A run-time algorithm for managing the granularity of parallel functional programs, 387
- ASPERTI, A. A categorical understanding of environment machines, 23
- BARAK, A. *see* AHARONI, G., FEITELSON, D. G. and BARAK, A., 387
- BARENDREGT, H. Theoretical Pearls: Enumerators of lambda terms are reducing, 233
- BARENDREGT, H. Theoretical Pearls: Representing 'undefined' in lambda calculus, 367
- BIRD, R. S. Functional Pearls: Two greedy algorithms, 237
- BIRD, R. S. Functional Pearls: Unravelling greedy algorithms, 375
- BOURDONCLE, F. Abstract interpretation by dynamic partitioning, 407
- BOYLE, J. M. and HARMER, T. J. A practical functional program for the CRAY X-MP, 81
- BROY, M. and DENDORFER, C. Modelling operating system structures by timed stream processing functions, 1
- BRUMFITT, P. J. MetaMorph – a formal methods toolkit with application to the design of digital hardware, 437
- BURTON, F. WARREN and PAGE, R. L. Distributed random number generation, 203
- DENDORFER, C. *see* BROY, M. and DENDORFER, C., 1
- FEITELSON, D. G. *see* AHARONI, G., FEITELSON, D. G. and BARAK, A., 387
- HARMER, T. J. *see* BOYLE, J. M. and HARMER, T. J., 81
- HOOGERWOOD, R. R. Functional Pearls: A symmetric set of efficient list operations, 505
- HUTTON, G. Higher-order functions for parsing, 323
- JAYARAMAN, B. *see* SILBERMANN, F. S. K. and JAYARAMAN, B., 273
- JOHNSSON, T. A review of the FPCA '91 proceedings, 227
- JONES, M. P. Computing with lattices: An application of type classes, 475
- JONES, R. Tail recursion without space leaks, 73
- JONES, S. L. PEYTON. Implementing lazy functional languages on stock hardware: the Spineless Tagless G-machine, 127
- JOUVELOT, P. *see* TALPIN, J.-P. and JOUVELOT, P., 245.
- MAIRSON, H. G. Quantifier elimination and parametric polymorphism in programming languages, 213
- MOGENSEN, T. Æ. Efficient self-interpretation in lambda calculus, 345
- PAGE, R. L. *see* BURTON, F. WARREN and PAGE, R. L., 203
- SEXTON, M. E. *see* WAINWRIGHT, R. L. and SEXTON, M. E., 61
- SILBERMANN, F. S. K. and JAYARAMAN, B. A domain-theoretic approach to functional and logic programming, 273
- TALPIN, J.-P. and JOUVELOT, P. Polymorphic type, region and effect inference, 245
- WAINWRIGHT, R. L. and SEXTON, M. E. A study of sparse matrix representations for solving linear systems in a functional language, 61
